SETBACKS FOR LAND USE DISTRICTS**

CHAPTER 150: BUILDING REGULATIONS

Section

- 150.01 Building code adopted
- 150.02 Housing code adopted
- 150.03 Permit fees
- 150.04 Building permits required
- 150.05 Permits and special requirements for moving buildings
- 150.06 Sign permits
- 150.07 Satellite dish antenna permits

- 150.99 Penalty

SECTION 150.01 BUILDING CODE ADOPTED.

(A) The following are hereby adopted by reference as those set forth verbatim herein:

(1) The Minnesota State Building Code (SBC), which includes the following chapters of Minnesota Rules:

- (a) 1300, Administration of Minnesota State Building Code;
- (b) 3101, Building Official Certification;
- (c) 1302, State Building Code Construction Approvals;
- (d) 1303, Minnesota Provisions;
- (e) 1305, Adoption of the 2000 International Building Code;
- (f) 1307, Elevators and Related Devices;
- (g) 1309, Adoption of the 2000 International Residential Code;
- (h) 1311, Adoption of the 2000 Guidelines for the Rehabilitation of Existing Buildings;
- (i) 1315, Adoption of the 2002 National Electrical Code;
- (j) 1325, Solar Energy Systems;
- (k) 1335, Floodproofing Regulations;
- (l) 1341, Minnesota Accessibility Code;
- (m) 1346, Adoption of the Minnesota State Mechanical Code;
- (n) 1350, Manufactured Homes;
- (o) 1360, Prefabricated Structures;
- (p) 1361, Industrialized/Modular Buildings;
- (q) 1370, Storm Shelters (Manufactured Home Parks);
- (r) 4715, Minnesota Plumbing Code;
- (s) 7670, 7672, 7674, 7676 and 7678, Minnesota Energy Code;

(B) One copy of each of the codes shall be marked CITY OF CROOKSTON - OFFICIAL COPY and kept on file in the office of the Clerk-Treasurer and open to inspection and use by the public.

('83 Code, SEC. 4.01) (Ord. 126, 2nd Series, effective 5-16-98; Am. Ord. 144, 2nd Series, passed 9-11-01)

SEC. 150.02 HOUSING CODE ADOPTED.

The Uniform Housing Code, 1988 Edition, published by the International Conference of Building Officials, is hereby adopted by reference as though set forth verbatim herein. One copy of the code shall be marked CITY OF CROOKSTON - OFFICIAL COPY and kept on file in the office of the Building Official and open to inspection and use by the public.

('83 Code, SEC. 4.05) (Ord. 34, 2nd Series, effective 4-16-86)

SEC. 150.03 PERMIT FEES.

Fees for permits under this chapter, which may include a surcharge, shall be determined by the Council and fixed by its resolution, a copy of which shall be in the office of the Building Official and uniformly enforced.

('83 Code, SEC. 4.02)

SEC. 150.04 BUILDING PERMITS REQUIRED.

It is unlawful for any person to erect, construct, enlarge, alter, repair, move, improve, remove, convert, or demolish any building or structure, or any part or portion thereof, including, but not limited to, the plumbing, electrical, ventilating, heating or air conditioning systems therein, or cause the same to be done, without first obtaining a separate building or mechanical permit for each building, structure or mechanical components from the city, except for exemptions listed in the Building Code. No permit shall be required for minor or insignificant work for which no permit fee is charged.
(‘83 Code, SEC. 4.03) Penalty, see SEC. 150.99

SEC. 150.05 PERMITS AND SPECIAL REQUIREMENTS FOR MOVING BUILDINGS.

(A) *Definitions.* For the purpose of this section, the following definitions shall apply, unless the context clearly indicates or requires a different meaning.

COMBINED MOVING PERMIT. A permit to move a building on both a street and a highway.

HIGHWAY. A public thoroughfare for vehicular traffic which is a state trunk highway, county state-aid highway, or county road.

HIGHWAY MOVING PERMIT. A permit to move a building on a highway for which a fee is charged which does not include route approval, but does include regulation of activities which do not involve the use of the highway; which activities include, but are not limited to, repairs or alterations to a municipal utility required by reason of the movement.

MOVING PERMIT. A document allowing the use of a street or highway for the purpose of moving a building.

STREET. A public thoroughfare for vehicular traffic which is not a state trunk highway, county state-aid highway or county road.

STREET MOVING PERMIT. A permit to move a building on a street for which a fee is charged which does include route approval, together with use of the street and activities including, but not limited to, repairs or alterations to a municipal utility required by reason of the movement.

(B) *Application.* The application for a moving permit shall state the dimensions, weight, and approximate loaded height of the structure or building proposed to be moved, the places from which and to which it is to be moved, the route to be followed, the dates and times of moving and parking, the name and address of the mover, and the municipal utility and public property repairs or alterations that will be required by reason of the movement. In the case of a street moving permit or combined moving permit the application shall also state the size and weight of the structure or building proposed to be moved and the street alterations or repairs that will be required by reason of the movement. All applications shall be referred to the Public Works Department. All applications for street and combined moving permits shall also be referred to the Police Department and no permits shall be issued until route approval has been obtained from the Departments.

(C) *Permit and fee.* The moving permit shall state date or dates of moving, hours, routing, movement and parking. Permits shall be issued only for moving buildings by building movers licensed by the State of Minnesota. Fees to be charged shall be separate for each of the following: a moving permit fee to cover use of streets and route approval, and a fee equal to the anticipated amount required to compensate the city for any municipal utility and public property (other than streets) repairs or alterations occasioned by the movement. All permit fees shall be paid in advance of issuance.

(D) *Building permit and code compliance.* Before any building is moved from one location to another within the city, or from a point of origin without the city to a destination within the city, regardless of the route of movement, it shall be inspected and a building permit shall have been issued for at least the work necessary to bring it into full compliance with the State Building Code.

(E) *Unlawful acts.*

(1) It is unlawful for any person to move a building on any street without a street moving permit from the city.

(2) It is unlawful for any person to move a building on any highway without a highway moving permit from the city.

(3) It is unlawful to move any building (including a manufactured home) if the point of origin or destination (or both) is within the city, and regardless of the route of movement, without having paid in full all real and personal property taxes, special assessments and municipal utility charges due on the premises of origin and filing written proof of the payment with the city.

('83 Code, SEC. 4.04) Penalty, see SEC. 150.99

SEC. 150.06 SIGN PERMITS.

(A) *Permit required.* Except for exemptions listed in SEC. 152.177, it is unlawful for any person to erect, construct, enlarge, alter, move, remove, repair, maintain, or convert any sign without first obtaining a separate permit therefor for each sign. (Ord. 84, 2nd Series, effective 7-17-93)

(B) *Requirements and regulations.*

(1) A separate permit application shall be required for each activity sign requiring a permit.
(Ord. 18, 2nd Series, effective 5-18-85)

(2) No permit application shall be accepted unless it is accompanied by specific plans and all necessary information upon which to base a decision as to whether or not it complies fully with the city code.

(3) Sign permit fees shall be established by resolution of the Council.

(4) No permit shall issue until the applicant has filed with the Clerk-Treasurer a policy or certificate of public liability insurance for coverage of the sign-related activity concurrent with the permit term with limits of at least \$100,000 for injury to one person, \$300,000 for each occurrence, and \$50,000 property damage.

(5) It is the primary responsibility of all owners and occupants of private property to see that all signs located thereon are erected, constructed, enlarged, altered, moved, removed,

repaired, maintained and converted in compliance with the city code. It is unlawful for any person to allow any sign located on real property owned or occupied by him or her to be erected, constructed, enlarged, altered, moved, removed, repaired, maintained, or converted without a required permit.

(6) In the event any work or activity relating to a sign is performed without the securing of the required permit prior to the work or activity, in addition to all other rights and remedies authorized by the city code and as otherwise provided by law, the city may cause the sign to be inspected for compliance with the requirements of the city code. The city shall charge an inspection fee for any inspection which may include a penalty for failure to secure the required permit.

(7) The inspection fee under this section (including any penalty for failure to secure the required permit) shall be fixed and determined by the Council, adopted by resolution, and uniformly enforced. The inspection fee may, from time to time, be amended by the Council by resolution. A copy of the resolution setting forth the currently effective inspection fee shall be kept on file in the office of the Clerk-Treasurer, and open to inspection during regular business hours.

(8) If upon the inspection the sign is found to comply with city code requirements, a permit therefor may be issued upon payment of the inspection fee and the regular permit fee.

(9) If any sign is found to have been erected, constructed, enlarged, altered, moved, removed, repaired, maintained, or converted in violation of any of the provisions of the city code, the city may give the owner and occupant of the property upon which the sign is located written notice of the violation. Unless the sign is owned by the owner or occupant of the property, a copy of the notice shall also be given to the owner of the sign, if known, or, if unknown, affixed to the sign, sign structure, or building. If the violation is not remedied within 30 days after the notice, or within three days after any notice relating to a portable sign, the city may remove, or cause to be removed, the sign at the expense of the owner and occupant of the property.

(10) Any rights or remedies conferred by this section shall not preclude other civil or criminal action by the city under this section, the city code or other applicable law.

(11) The owner and occupant of the property on or upon which the sign is located which is inspected under division (B)(7) of this section or otherwise found to be in violation of the requirements of the city code shall be jointly and severally liable for the payment of the inspection fee and the cost of removal of the sign by the city. The city may prepare a bill and mail it to the owner and occupant and the amount shall then be due and payable. The city may collect the same in a civil action. (Ord. 18, 2nd Series, effective 5-18-85) ('83 Code, SEC. 4.06) Penalty, see SEC. 150.99

SEC. 150.07 SATELLITE DISH ANTENNA PERMITS.

(A) *Definition.* The term **SATELLITE DISH ANTENNA** has the meaning set forth in city code SEC. 152.003. (Ord. 35, 2nd Series, effective 5-17-86)

(B) *Unlawful activity.* It is unlawful for any person to erect, construct, move, or maintain, or cause to be erected, constructed, moved, or maintained within the city any satellite dish antenna greater than 30" inches in diameter without first obtaining a separate permit for each antenna. (Ord. 117, 2nd Series, effective 5-17-97)

(C) *Requirements and regulations.*

(1) A separate permit application shall be required for each activity and satellite dish antenna requiring a permit.

(2) No permit application shall be accepted unless it is accompanied by specific plans and all necessary information upon which to base a decision as to whether or not it complies fully with the city code.

(3) In the event that the Building Official, by reason of conditions imposed herein, or omitted therefrom, is unable to grant a requested permit, the application therefor shall be presented to the Planning Commission at the next regular meeting for consideration, interpretation, and recommendation to the Council. In the event that the decision of the Council is favorable, the permit shall be granted under considered special conditions.

(4) Satellite dish antenna permit fees shall be established by resolution of the Council. (Ord. 28, 2nd Series, effective 3-20-86)
(‘83 Code, SEC. 4.07) Penalty, see SEC. 150.99

SEC. 150.99 PENALTY.

Every person who violates a section, division, or provision of this chapter when he or she performs an act thereby prohibited or declared unlawful, or fails to act when the failure is thereby prohibited or declared unlawful, or performs an act prohibited or declared unlawful or fails to act when the failure is prohibited or declared unlawful by a code adopted by reference by this chapter, and upon conviction thereof, shall be punished as for a misdemeanor except as otherwise stated in specific provisions hereof. The penalty which may be imposed for any crime which is a misdemeanor under this code, including Minnesota Statutes specifically adopted by reference, shall be a sentence of not more than 90 days or a fine of not more than \$1,000, or both. The costs of prosecution may be added. A separate offense shall be deemed committed upon each day during which a violation occurs or continues.
(‘83 Code, SEC. 4.99)

CHAPTER 151: SUBDIVISION REGULATIONS

Section

General Provisions

- 151.01 Purpose
- 151.02 Scope and legal authority
- 151.03 Definitions

Preliminary and Final Plats

- 151.15 Identification and description of preliminary plat
- 151.16 Existing conditions in proposed tract
- 151.17 Subdivision design features
- 151.18 Other information
- 151.19 Data and requirements for final plats
- 151.20 Certifications

Subdivision Design Standards

- 151.30 Conformity with comprehensive plan
- 151.31 Streets and thoroughfares
- 151.32 Blocks and lots
- 151.33 Easements
- 151.34 Tree removal, conservation, soil erosion, density credit
- 151.35 Parks, open space and public use

Required Improvements

- 151.50 Improvements required for all subdivisions
- 151.51 Payment for installation of improvements

Administration and Enforcement

- 151.65 Plat presentation procedures
- 151.66 Pre-application meeting
- 151.67 Preliminary plat
- 151.68 Final plat
- 151.69 Effect of subdivision approval
- 151.70 Disclosure by seller; purchaser's action for damages
- 151.71 Modifications, exceptions and variances
- 151.72 Planned unit developments
- 151.73 Minor subdivisions

- 151.99 Penalty

GENERAL PROVISIONS

SECTION 151.01 PURPOSE.

The process of dividing raw land into separate parcels for other uses including residential, industrial and commercial sites, is one of the most important factors in the growth of any community. Once the land has been subdivided and the streets, homes and other structures have been constructed, the basic character of this permanent addition to the community has become firmly established. It is, therefore, to the interest of the general public, the developer, and the future land owners that subdivisions be conceived, designed, and developed in accordance with the highest possible standards of excellence. All subdivisions of land hereafter submitted for approval shall fully comply, in all respects, with the regulations set forth herein. It is the purpose of these regulations to:

- (A) Encourage well planned, efficient, and attractive subdivisions by establishing adequate standards for design and construction;
 - (B) Provide for the health and safety of residents by requiring the necessary services such as properly designed streets and adequate sewage and water service;
 - (C) Place the cost of improvements against those benefiting from their construction;
 - (D) Secure the rights of the public with respect to public lands and waters;
 - (E) Improve land records by establishing standards for surveys and plats;
 - (F) Protect the environmentally sensitive areas in the city; and
 - (G) Preserve energy through the encouragement of solar and earth-sheltered structures.
- (‘83 Code, SEC. 12.01)

SEC. 151.02 SCOPE AND LEGAL AUTHORITY.

(A) *Scope.* The rules and regulations governing plats and subdivision of land contained herein shall apply within the city and other land as permitted by Minnesota State Statutes and as approved by the city. Except in the case of resubdivision, this chapter shall not apply to any lot or lots forming a part of a subdivision recorded in the office of the Polk County Recorder prior to the effective date of this chapter, nor is it intended by this chapter to repeal, annul or in any way impair or interfere with existing provisions of other laws or city code provisions except those specifically repealed by, or in conflict with this chapter, or with restrictive covenants running with the land. Where this chapter imposes a greater restriction upon the land than is imposed or required by the existing provisions of law, city code provisions, contract or deed, the provisions of this chapter shall control.

(B) *Amendments.* The provisions of this chapter may be amended by the Council.

(C) *Restrictions on filing and recording conveyances.*

(1) No conveyance of land in which the land conveyed is described by metes and bounds or by reference to an unapproved registered land survey made after April 21, 1969 or to an unapproved plat made after these regulations become effective, shall be made or recorded unless the parcel described in the conveyance:

(a) Was a separate parcel of record April 1, 1945 or the date of adoption of subdivision regulations under Laws 1945, Chapter 287, whichever is the later, or of the adoption of subdivision regulations pursuant to a home rule charter;

(b) Was the subject of a written agreement to convey entered into prior to such time;

(c) Was a separate parcel of not less than two and one-half acres in area and 150 feet in width on January 1, 1966;

(d) Was a separate parcel of not less than five acres in area and 300 feet in width on July 1, 1980;

(e) Is a single parcel of commercial or industrial land of not less than five acres and having a width of not less than 300 feet and its conveyance does not result in the division of the parcel into two or more lots or parcels, any one of which is less than five acres in area or 300 feet in width; or

(f) Is a single parcel of residential or agricultural land of not less than 20 acres and having a width of not less than 500 feet and its conveyance does not result in the division of the parcel into two or more lots or parcels any one of which is less than 20 acres in area or 500 feet in width.

(2) In any case in which compliance with the foregoing restrictions will create an unnecessary hardship and failure to comply does not interfere with the purpose of the subdivision regulations, the platting authority may waive the compliance by adoption of a resolution to that effect and the conveyance may then be filed or recorded. Any owner or agent of the owner of land who conveys a lot or parcel in violation of the provisions of this subdivision shall forfeit and pay to the city a penalty of not less than \$100 for each lot or parcel so conveyed. The city may enjoin the conveyance or may recover the penalty by a civil action in any court of competent jurisdiction.

(3) These subdivision regulations shall be applicable to any parcels which are taken from existing parcels of record by metes and bounds description and the city may deny the issuance of building permits to any parcels so divided, pending compliance with the subdivision regulations.

(D) *Platting*. Any subdivision creating parcels, tracts or lots after the adopting of these regulations shall be platted.

(‘83 Code, SEC. 12.02) Penalty, see SEC. 151.99

SEC. 151.03 DEFINITIONS.

For the purpose of this chapter the following definitions shall apply, unless the context clearly indicates or requires a different meaning.

ALLEY. A public right-of-way usually 20 feet or less in width which normally affords a secondary means of vehicular access to abutting property.

ATTORNEY. The attorney employed by the city unless otherwise stated.

BLOCK. The enclosed area within the perimeter of roads, property lines or boundaries of the subdivision.

BOULEVARD. The portion of the street right-of-way between the curb line and the property line.

BUTT LOT. A lot at the end of a block and located between two corner lots.

CLUSTER DEVELOPMENT. A subdivision development planned and constructed so as to group housing units into patterns while providing a unified network of open space and wooded areas, and meeting the overall density regulations of this chapter and the zoning chapter.

COMPREHENSIVE PLAN. A plan prepared by the city including a compilation of policy statements, goals, standards and maps indicating the general locations recommended for the various functional classes of land use and for the general physical development of the city and includes any plan or parts thereof.

CONTOUR MAP. A map on which irregularities of land surface are shown by lines connecting points of equal elevations. Contour interval is the vertical height between contour lines.

COPY. A print or reproduction made from a tracing.

CORNER LOT. A lot bordered on at least two sides by streets.

CONCEPT PLAN or **SKETCH PLAN.** A generalized plan of a proposed subdivision indicating lot layouts, streets, park areas, and water and sewer systems presented to the city officials at the pre-application meeting.

COUNTY BOARD. Polk County Board of Commissioners.

DEVELOPMENT. The act of building structures and installing site improvements.

DOUBLE FRONTAGE LOTS. Lots which have a front line abutting on one street and a back or rear line abutting on another street.

DRAINAGE COURSE. A water course or indenture for the drainage of surface water.

EASEMENT. A grant by an owner of land for a specific use by persons other than the owner.

ENGINEER. The registered engineer employed by the city unless otherwise stated.

FINAL PLAT. The final map, drawing or chart on which the subdivider's plan of subdivision is presented to the Council for approval and which, if approved, will be submitted to the County Recorder.

KEY MAP. A map drawn to comparatively small scale which definitely shows the area proposed to be platted and the areas surrounding it to a given distance.

LOT. A parcel or portion of land in a subdivision or plat of land, separated from other parcels or portions by description as on a subdivision or record of survey map, for the purpose of sale or lease or separate use thereof.

METES AND BOUNDS DESCRIPTION. A description of real property which is not described by reference to a lot or block shown on a map, but is described by starting at a known point and describing the bearing and distances of the lines forming the boundaries of the

property or delineates a fractional portion of a section, lot or area by describing lines or portions thereof.

MINIMUM SUBDIVISION DESIGN STANDARDS. The guides, principles and specifications for the preparation of subdivision plats indicating, among other things, the minimum and maximum dimensions of the various elements set forth in the plan.

OWNER. An individual, firm, association, syndicate, co-partnership, corporation, trust, or any other legal entity having sufficient proprietary interest in the land sought to be subdivided to commence and maintain proceedings to subdivide the same under these regulations.

PEDESTRIAN WAY. A public right-of-way across or within a block intended to be used by pedestrians.

PLAT. The drawing or map of a subdivision prepared for filing of record pursuant to M.S. Chapter 505, as it may be amended from time to time, and containing all elements and requirements set forth in applicable local regulations adopted pursuant to M.S. SEC. 462.358 and Chapter 505, as may be amended from time to time.

PRELIMINARY APPROVAL. Official action taken by the city on an application to create a subdivision which establishes the rights and obligations set forth in M.S. SEC. 462.358, as it may be amended from time to time, and the applicable subdivision regulation. In accordance with M.S. SEC. 462.358, as it may be amended from time to time, and unless otherwise specified in the applicable subdivision regulation, preliminary approval may be granted only following the review and approval of a preliminary plat or other map or drawing establishing without limitation the number, layout, and location of lots, tracts, blocks and parcels to be created, location of streets, roads, utilities and facilities, park and drainage facilities, and lands to be dedicated for public use.

PRELIMINARY PLAT. The preliminary map, drawing or chart indicating the proposed layout of the subdivision to be submitted to the Planning Commission and Council for their consideration.

PRIVATE STREET. A street serving as vehicular access to one or more parcels of land which is not dedicated to the public but is owned by one or more private parties.

PROTECTIVE COVENANTS. Contracts entered into between private parties and constituting a restriction on the use of all private property within a subdivision for the benefit of the property owners, and to provide mutual protection against undesirable aspects of development which would tend to impair stability of values.

RIGHT-OF-WAY. The publicly owned land along a street or highway corridor a portion of which is covered by the street or highway pavement.

STREET. A public way for vehicular traffic, whether designed as a street, highway, thoroughfare, arterial parkway, throughway road, avenue, lane, place or however otherwise designated.

(1) **ARTERIAL STREET.** A street or highway with access restrictions designed to carry large volumes of traffic between various sections of the city and beyond.

(2) **COLLECTOR STREET.** A street which carries traffic from local streets to arterials.

(3) ***CUL-DE-SAC***. A street turn-around with only one outlet.

(4) ***LOCAL STREET***. A street of limited continuity used primarily for access to the abutting properties and the local need of a neighborhood.

(5) ***SERVICE STREET***. Marginal access street, or otherwise designated, is a minor street, which is parallel and adjacent to a thoroughfare and which provides access to abutting properties and protection from through traffic.

STREET WIDTH. For the purpose of this chapter, the shortest distance between the lines delineating the right-of-way.

SUBDIVIDER. Any person commencing proceedings under this chapter to effect a subdivision of land hereunder for himself or for another.

SUBDIVISION. The separation of an area, parcel, or tract of land under single ownership into two or more parcels, tracts, lots, or long-term leasehold interests where the creation of the leasehold interest necessitates the creation of streets, roads, or alleys, for residential, commercial, industrial, or other use or any combination thereof, except those separations:

(1) Where all the resulting parcels, tracts, lots, or interests will be 20 acres or larger in size and 500 feet in width for residential uses and five acres or larger in size for commercial and industrial uses;

(2) Creating cemetery lots; and

(3) Resulting from court orders, or the adjustment of a lot line by the relocation of a common boundary.

TRACING. A plat or map drawn on transparent paper or cloth which can be reproduced by using regular reproduction procedure. (Ord. 536, effective 7-1-83)
(‘83 Code, SEC. 12.03)

PRELIMINARY AND FINAL PLATS

SEC. 151.15 IDENTIFICATION AND DESCRIPTION OF PRELIMINARY PLAT.

The following data is required for a preliminary plat:

(A) Proposed name of subdivision and street names, which shall not duplicate or be similar in pronunciation or spelling to the name of any plat heretofore recorded in Polk County.

(B) Location by section, township, range, and by legal description.

(C) Name of city.

(D) Names and addresses of the record owner and any agent having control of the land, subdivider, land surveyor, engineer, and designer of the plan.

(E) Graphic scale not less than one inch to 100 feet.

(F) North point.

(G) Key map including area within one mile radius of plat.

(H) Date of preparation.

(I) A current abstract of title or a registered property certificate along with any unrecorded documents and an opinion of title by the subdivider's attorney.
(‘83 Code, SEC. 12.20, Subd. 1.A.)

SEC. 151.16 EXISTING CONDITIONS IN PROPOSED TRACT.

(A) Boundary line of proposed subdivision, clearly indicated and to a close degree of accuracy.

(B) Existing zoning classifications for land within and abutting the subdivision including floodplain, and shoreland districts, if applicable.

(C) A general statement of the approximate acreage and dimensions of the lots.

(D) Location, right-of-way width, and names of existing or platted streets, or other public ways, parks, and other public lands, permanent buildings and structures, easements and section and corporate lines within the plan.

(E) Boundary lines of adjoining unsubdivided or subdivided land, identified by name and ownership, including all contiguous land owned or controlled by the subdivider.

(F) Topographic data, including contours at vertical intervals of two feet, watercourses, marshes, rock outcrops, power transmission poles and lines, and other significant features shall also be shown, including without limitation, shading all areas containing a grade greater than 7%.

(G) An analysis of the soils by representatives of the Polk County Soil and Water Conservation District and soil borings may be required, if deemed necessary by the Planning Commission or Council.

(H) If applicable, limits of the floodplain, floodway and flood fringe areas.

(I) Existing zoning and land use in the area within 50 feet of the boundaries of the tract.

(J) Plans for water supply, sewage disposal, drainage and flood control. Location and size of existing sewers, water mains, culverts or other underground facilities within the preliminary plan area. The data as existing grades, invert elevations, and location of catch basins, manholes, hydrants and street pavement width and type, shall also be shown.
(‘83 Code, SEC. 12.20, Subd. 1.B.)

SEC. 151.17 SUBDIVISION DESIGN FEATURES.

(A) Layout and width of proposed streets and utility easements, pedestrian ways showing street names, lot dimensions, parks and other public areas. The street layout shall include all

contiguous land owned or controlled by the subdivider.

(B) Proposed use of all parcels, and if zoning change is contemplated, proposed zoning amendment.

(C) Preliminary street grades and drainage plan.

(D) Layout, numbers and preliminary dimensions of lots and blocks.

(E) When lots are located on a curve, the width of the lot at the building setback line. ('83 Code, SEC. 12.20, Subd. 1.C.)

SEC. 151.18 OTHER INFORMATION.

(A) Where a subdivider owns property adjacent to that which is being proposed for the subdivision, the Planning Commission may require that the subdivider submit a sketch plan of the remainder of the property so as to show the possible relationships between the proposed subdivision and the future subdivision.

(B) Potential resubdivision and use of excessively deep or wide (over 200 feet) lots shall be indicated in a satisfactory manner.

(C) A plan for soil erosion and sediment control both during construction and after development has been completed.

(D) The other information as may be requested by the city staff, Planning Commission, or Council. ('83 Code, SEC. 12.20, Subd. 1.D.)

SEC. 151.19 DATA AND REQUIREMENTS FOR FINAL PLATS.

(A) The plat shall be prepared by a land surveyor who is registered in the State of Minnesota and shall comply with the appropriate provisions of Minnesota Statutes and of these regulations.

(B) Data as required by the City Engineer, for example, accurate angular and linear dimensions for all lines, angles and curvatures used to describe boundaries, streets, easements, and other important features.

(C) Identification and description data as required for the preliminary plat.

(D) Boundaries of the property lines of all proposed streets and alleys, with their width, and any other areas intended for public use.

(E) Lines of adjoining streets and alleys, with their widths and names.

(F) All lot lines and easements, with figures showing their dimensions.

(G) An identification system for all lots and blocks.

(H) Certification by a registered land surveyor to the effect that the plat represents a survey made by him and that monuments and markers thereon exist as located and that all dimensional

and geodetic details are correct.

(I) Notarized certification by owner, and by any mortgage holder of record, of adoption of the plat and the dedication of streets and other public areas.

(J) Certification showing that all taxes currently due have been paid and that all special assessments have been paid in full.

(K) Title opinion by a practicing attorney-at-law based upon an examination of an abstract of the records of the Polk County Recorder for the lands included within the plat and showing the title to be in the name of the owner or subdivider. The date of continuation of the abstract examined or the date of the examination of the records shall be within 30 days prior to the date the final plat is filed with the County Auditor. The owner or subdivider shown in the title opinion shall be the owner of record of the platted lands on the date of recording of the plat with the Polk County Recorder.

(L) Execution by all owners of any interest in the land and any holders of a mortgage therein of the certificate required by Minnesota Statutes and which certificate shall include an accurate legal description of any area to be dedicated for public use and shall include a dedication to the city of sufficient easements to accommodate utility services in the form as shall be approved by the City Attorney.
(‘83 Code, SEC. 12.20, Subd. 2)

SEC. 151.20 CERTIFICATIONS.

The final plat shall include the required certification by the city and county officials. This shall include a signature by the Chairman of the Planning Commission indicating that the plat has been reviewed by the Planning Commission.

(A) Form for approval by signature of county officials concerned with the recording of the plat.

(1) Checked and approved as to compliance with M.S. Chapter 505, as it may be amended from time to time.

Dated this _____ day of _____, A.D., 20__.

(Name) Polk County Engineer

(2) No delinquent taxes and transfer entered this _____ day of _____ 20 __.

(Name) Polk County Auditor

(3) Document Number _____.
I hereby certify this instrument was filed in the office of the County Recorder for record on this _____ day of _____, 20 __, at _____ o'clock __.m., and was duly recorded in Book _____ of _____, on Page _____.

(Name) County Recorder, Polk County

(4) If property being platted is in the Torrens System, use the following:

Document Number _____.
I hereby certify this instrument was filed
in the office of the Registrar of Titles for
record on this _____ day of _____, 20 ____, at _____ o'clock ____ .m.,
and was duly recorded in Book _____ of _____, on Page _____.

(Name) Registrar of Titles, Polk County

(5) Checked and approved as in compliance with the zoning ordinance and the
subdivision regulations chapter.

Chairman, Crookston Planning Commission

(B) Form for approval by the City Attorney:

I hereby certify that proper evidence of title has been presented to and examined by
me, and I hereby approve this plat as to form and execution.

Dated this _____ day of _____, A.D., 20__.

(Name) Crookston Attorney

(C) Approved by Crookston City Council on this _____ day of _____, A.D., 20__.

Mayor, Crookston

Attest:

Clerk-Treasurer
(‘83 Code, SEC. 12.20, Subd. 3) (Ord. 536, effective 7-1-83)

SUBDIVISION DESIGN STANDARDS

SEC. 151.30 CONFORMITY WITH COMPREHENSIVE PLAN.

The proposed subdivision shall conform to the comprehensive plan adopted by the city. ('83 Code, SEC. 12.30, Subd. 1)

SEC. 151.31 STREETS AND THOROUGHFARES.

(A) *General street design.*

(1) The design of all streets shall be considered in their relation to existing and planned streets, to reasonable circulation of traffic, topographic conditions, to runoff of storm water and to the proposed uses of the area to be served.

(2) Where new streets extend existing adjoining streets their projection shall be at the same or greater width, but in no case less than the minimum required width.

(3) Where adjoining areas are not subdivided, the arrangement of streets in new subdivisions shall make provision for the proper projection of streets so that parcels will not be land-locked. When a new subdivision adjoins developable land, then the new streets shall be carried to the boundaries of the unsubdivided land.

(B) *Street names.* Street names shall not duplicate the names of other streets.

(C) *Street width and grade.* Street right-of-way widths shall be as determined in the policies plan and official map and, where applicable, shall conform to county and state standards for trunk highways. If there is no plan or standard, right-of-way widths shall conform to the following minimum dimensions:

<i>Street Category</i>	<i>Width R.O.W.</i>	<i>Minimum Width Pavement</i>	<i>Maximum Grade</i>	<i>Minimum Drainage Grade</i>
Major arterial	250 ft.	As determined by traffic needs	5%	.5%
Minor arterial	150 ft.	As determined by traffic needs	5%	.5%
Parkway	100 ft.	44 ft.	5%	.5%
Collector	80 ft.	44 ft.	5%	.5%
Local	66 ft.	36 ft.	7%	.5%
Frontage roads	66 ft.	24 ft.	7%	.5%
Cul-de-sac street	60 ft.	32 ft.	7%	.5%
Turn-around radius of cul-de-sac	60 ft.			.5%

(D) *Street intersections.* Insofar as practical, streets shall intersect at right angles. In no case shall the angle formed by the intersection of two streets be less than 60 degrees. Intersections having more than four corners shall be prohibited. Adequate land for future intersection and interchange construction needs shall be dedicated to the city.

(E) *Tangents.* A tangent of at least 150 feet shall be introduced between reverse curves on collector streets and 100 feet on lesser streets.

(F) *Deflections.* When connecting street lines deflect from each other at one point by more than ten degrees they shall be connected by a curve with a radius adequate to ensure a sight distance of no less than 500 feet for arterials, 300 feet for collectors, 100 feet for all other streets.

(G) *Street jogs.* Street jogs with centerline offsets of less than 150 feet shall be avoided.

(H) *Local streets.* Local streets shall be laid out so as not to encourage through traffic.

(I) *Cul-de-sac.* The maximum length of a street terminating in a cul-de-sac shall be 500 feet, measured from the centerline of the street of origin to the end of the right-of-way.

(J) *Access to arterial streets.* In the case where a proposed plat is adjacent to a limited access highway (arterial), there shall be no direct vehicular or pedestrian access from individual lots to the highways. As a general requirement, access arterials shall be at intervals of not less than one-fourth mile and through existing and established cross roads where possible. The Council may require the developer to provide local service drives along the right-of-way of the facilities, or it may require that lots should back on the arterial, in which case, vehicular and pedestrian access between the lots and arterial shall be prohibited.

(K) *Half streets.* Half streets shall be prohibited except where it will be practical to require the dedication of the other half when the adjoining property is subdivided, in which case the dedication of a half street may be permitted.

(L) *Private streets.* Private streets shall be prohibited.

(M) *Corners.* Curb lines at street intersections shall be rounded at a radius of not less than 15 feet.

(N) *Pedestrian walkways.* The Planning Commission and/or Council shall require the provision of pedestrian ways in proximity to public service areas such as parks, schools, shopping facilities or in other appropriate locations of a similar nature. The design of the pedestrian walkways shall be considered in their relation to existing and planned pedestrian walkways, to reasonable circulation of traffic, to topographic conditions, to run-off of storm water and to the proposed uses of the area to be served. Pedestrian right-of-ways shall be at least ten feet wide.

(O) *Hardship to owners of adjoining property.* The street arrangements shall not be such as to cause hardship to owners of adjoining property in platting their own land and providing convenient access to it.

(‘83 Code, SEC. 12.30, Subd. 2)

SEC. 151.32 BLOCKS AND LOTS.

(A) *Blocks*. The length, width and acreage of blocks shall be sufficient to provide for convenient access, circulation, control and safety of street design. ('83 Code, SEC. 12.30, Subd. 3)

(B) *Lots*.

(1) *Size*. The lot dimensions shall be such as to comply with the minimum lot areas specified in the zoning chapter.

(2) *Side lot lines*. Side lines of lots shall be substantially at right angles to straight street lines or radial to curved street lines.

(3) *Drainage*. Lots shall be graded so as to provide drainage away from building locations.

(4) *Natural features*. In the subdividing of any land, due regard shall be shown for all natural features, such as tree growth, wetlands, steep slopes, water courses, or similar conditions, and plans adjusted to preserve those which will add attractiveness, safety and stability to the proposed development.

(5) *Lot remnants*. All remnants of lots below minimum size left over after subdividing of a larger tract must be added to adjacent lots rather than allowed to remain as unusable parcels unless the owner can show plans for future use of the remnant.

(6) *Double frontage lots*. Double frontage (lots with frontage on two parallel streets) or reverse frontage shall not be permitted except where lots back on an arterial or collector street. The lots shall have an additional depth of at least ten feet in order to allow for screen planting along the back lot line.
(‘83 Code, SEC. 12.30, Subd. 4)

SEC. 151.33 EASEMENTS.

(A) *Utilities*. Easements of at least ten feet wide centered on rear lot lines shall be provided for utilities where necessary. Easements for storm or sanitary sewer shall be at least 20 feet wide. They shall have continuity of alignment from block to block. Temporary construction easements may be required where installation depths are greater than ten feet. Utility easements shall be kept free of any vegetation or structures which would interfere with the free movement of utility service vehicles.

(B) *Water courses*. When a subdivision is traversed by a water course, drainage way, channel or stream, there shall be provided a storm water easement or drainage right-of-way conforming substantially with the lines of the water courses, and with the further width or construction as may be determined to be necessary by the City Engineer.
(‘83 Code, SEC. 12.30, Subd. 5)

SEC. 151.34 TREE REMOVAL, CONSERVATION, SOIL EROSION, DENSITY CREDIT.

(A) *Tree removal and conservation of vegetation.* The standards related to tree removal contained in the performance standards of the zoning chapter shall be applicable to all proposed subdivisions. ('83 Code, SEC. 12.30, Subd. 6)

(B) *Soil erosion and sediment control.* The standards related to soil erosion and sediment control contained in the performance standards of the zoning chapter shall be applicable to all proposed subdivisions. ('83 Code, SEC. 12.30, Subd. 7)

(C) *Density credit.* In order to protect environmentally sensitive areas such as wetlands, marshes, steep slopes, woodlands, a density credit system shall be allowed for residential developments. The overall density of the zoning districts shall not be exceeded and the standards set forth in the planned unit development provisions of the zoning chapter shall be applicable. ('83 Code, SEC. 12.30, Subd. 8)

SEC. 151.35 PARKS, OPEN SPACE AND PUBLIC USE.

(A) Where a proposed park, playground, school site, or other public site shown on an adopted comprehensive plan or official map is embraced in part or in whole by a boundary of a proposed subdivision, and the public ground shall be shown as reserved land on the preliminary plat to allow the Council, Board of Education or county and state agency the opportunity to consider and take action toward acquisition of the public ground or park or school site by purchase or other means prior to approval of the final plat.

(B) It is declared general policy that in all new subdivisions, percentage of the gross area of all property subdivided shall be dedicated for parks, playgrounds, or other public use. The percentage shall be in addition to the property dedicated for streets, alleys, waterways, pedestrian ways or other public ways. The following schedule shall be applicable to all subdivisions. This schedule is based upon the density of the development allowed in each district and is intended to equalize the amount and value of land dedicated for parks per dwelling unit in the various districts.

<i>In areas zoned:</i>	
R-1	5% of the total land area
R-2	6% of the total land area
R-3	8% of the total land area

(1) No areas may be dedicated as parks, playgrounds, or public lands until the areas have been approved for the purpose to which they are to be dedicated. The park land shall be graded to the contours set forth in the preliminary plat.

(2) The developer shall provide a minimum of three inches of black dirt over the entire park area and the area shall be seeded with a type of seed approved by the city. The financial guarantees by the developer to the city shall be in effect at least until the time that the park land is graded and seeded.

(C) At least 50% of the gross area dedicated for parks, open space or public use shall be suitable for active recreation use. Active recreation meaning organized playground activities such as softball, football, and the like. These areas to be used for organized playground activities shall have a slope of less than 2% grade and be largely clear of forest vegetation. Other areas to be dedicated may be forested and may have steeper slopes.

(D) When the subdivision is small or does not include a park or public area shown on the comprehensive plan, or if in the judgment of the Council the area proposed to be dedicated is not suitable or desirable for park/playground purposes because of location, size or other reason, the Council may require, in lieu of land dedication, a payment to the city of a sum equal to the percentage listed above of the market value of the land to be subdivided as determined by the City Assessor. The undeveloped land value shall be the value of the land when ready to be platted but not including utility costs. The Council and/or its agents shall have the authority to make the final determination of the value of the land for purposes of park dedication. If requested, the Council shall provide the developer or landowner with the methodology used to calculate the value of the land.

(E) The dedication of land for public use shall be without restrictions or reservations and shall be transferred to the city by deed or by plat. Money given to the city in lieu of land shall be used by the city only for acquiring or developing public park land. ('83 Code, SEC. 12.30, Subd. 9) (Ord. 536, effective 7-1-83)

REQUIRED IMPROVEMENTS

SEC. 151.50 IMPROVEMENTS REQUIRED FOR ALL SUBDIVISIONS.

The subdivider and/or developer shall be required to provide the following improvements for all subdivisions unless the Council elects to do so under a subdivision agreement and financial guarantees as provided for herein or by assessing benefited property for all or a portion of the cost of required improvements under the development contract and financial guarantees from the subdivider-developer as the Council may require.

(A) *Monuments.* Steel monuments shall be placed at lot corners, block corners, angle points, points of curves and at intermediate points as shown on the final plat. The installation shall be the subdivider's expense and responsibility. All U.S., state, county or other official benchmarks, monuments, or triangulation stations in or adjacent to property shall be preserved in precise position.

(B) *Streets.*

(1) *Grading.* Streets shall be graded to the full width of the right-of-way in accordance with street grades submitted to and approved by the Engineer or as approved by him. All street grading and gravel base construction shall be in accordance with specifications on file in the Engineer's office. Grading shall be complete prior to installation of applicable underground utilities, either private or public in nature. Gravel base construction shall be undertaken after completion of the installation of underground utilities.

(2) *Surfacing.* Following the City Engineer approval of street grading and after utility installation, streets shall be surfaced and provided with concrete curbs and gutters in accordance with the latest recommended plans and specifications prepared by the Engineer, approved by the

Council, and on file in the Recorder's office. (Ord. 536, effective 7-1-83)

(C) *Sidewalks and driveways.* In cases where driveways are constructed after curbing and sidewalk are in place, the sidewalk shall be reconstructed in accordance with driveway specifications to the width of the driveway. (Ord. 13, 2nd Series, effective 5-15-84)

(D) *Utilities.*

(1) *Installation.* All utilities, whether private or public, shall be installed underground so as to enhance the visual appearance of the area, unless special permission is granted by the Council for other installations. Where utilities are to be installed in street or alley rights-of-way, the installations shall take place prior to street surfacing. Water and sewer services shall be laid to the property line.

(2) *Sanitary sewer.* Sanitary sewer facilities adequate to serve the subdivision shall be installed in accordance with the latest plans and specifications of the Engineer and shall meet the requirements of the master plan for sanitary sewer extensions of the city. All new construction shall be connected to the sanitary sewer system.

(3) *Water supply.* Water distribution facilities adequate to serve the subdivision shall be installed in accordance with the latest plans and specifications of the Engineer and shall meet the requirements of the master plan for watermain extensions of the city. All new construction shall be connected to the water system.

(E) *Drainage facilities.* Storm sewer and/or other surface drainage facilities shall be installed as determined to be necessary by the Engineer for the proper drainage of surface waters. (Ord. 536, effective 7-1-83)

(F) *Tree planting or street trees.* In areas lacking trees, the type, size and location shall be as determined by the city. (Ord. 13, 2nd Series, effective 5-15-84)

(G) *Specifications and inspections.* Unless otherwise stated, all of the required improvements shall conform to engineering standards and specifications as required by the Council. The improvements shall be subject to inspection and approval by, and shall be made in sequence as determined by the City Engineer. ('83 Code, SEC. 12.40)

SEC. 151.51 PAYMENT FOR INSTALLATION OF IMPROVEMENTS.

(A) *General.* The required improvements as listed in this chapter are to be furnished and installed at the sole expense of the subdivider. However, if the cost of an improvement would by general policy be assessed only in part to the improved property and the remaining cost paid out of general tax levy, provision may be made for the payment of a portion of the cost by the city. Further, if any improvement installed within the subdivision will be of substantial benefit to lands beyond the boundaries of the subdivision, provision may be made for causing a portion of the cost of the improvement, representing the benefit to the lands, to be assessed against the same. In such a situation, the subdivider will be required only to pay for the portion of the whole cost of said improvement as will represent the benefit to the property within the subdivision.

(B) *Agreement providing for the installation of improvements.*

(1) Prior to the installation of any required improvements and prior to approval of the plat, the subdivider shall enter into a contract in writing with the city requiring the subdivider or the city to furnish and construct said improvements at the subdivider's sole cost and in accordance with plans and specifications and usual contract conditions. This shall include provisions for supervision for details of construction by the Engineer and shall grant to the Engineer authority to correlate the work to be done under said contract by any subcontractor authorized to proceed thereunder and with any other work being done or contracted by the city in the vicinity. The agreement shall require the subdivider to make an escrow deposit or, in lieu thereof, to furnish a performance bond, the amount of the deposit or penal amount of the bond to be equal to 125% of the Engineer's estimate of the total cost of the improvements to be furnished under the contract, or the lesser amount as the Council has authorized, including the cost of inspection. On request of the subdivider, the contract may provide for completion of part or all of the improvements covered thereby prior to acceptance of the plat. In the event the amount of the deposit or bond may be reduced in a sum equal to the estimated cost of the improvements so completed prior to the acceptance of the plat. The time for completion of the work and the several parts thereof shall be determined by the city upon recommendation of the Engineer after consultation with the subdivider. It shall be reasonable with relation to the work to be done, the seasons of the year, and proper correlation with construction activities in the plat and subdivision.

(2) No subdivider shall be permitted to start work on any other subdivision without special approval of the Council if he or she has previously defaulted on work or commitments.

(C) *Financial guarantee.*

(1) The contract provided for in division (B) of this section shall require the subdivider to make an escrow deposit or, in lieu thereof, furnish a performance bond. The escrow deposit or performance bond shall conform to the requirements of this section.

(2) An escrow deposit shall be made with the city in a sum equal to 125% of the total cost as estimated by the Engineer of all the improvements to be furnished and installed by the subdivider pursuant to the contract, which have not been completed prior to approval of the plat. The total costs shall include costs of inspection by the city. The city shall be entitled to reimburse itself out of said deposit for any cost and expense incurred by the city for completion of the work in case of default of the subdivider under said contract, and for any damages sustained on account of any breach thereof. Upon completion of the work and termination of any liability, the balance remaining in said deposit shall be refunded to the subdivider.

(3) In lieu of making the escrow deposit, the subdivider may furnish a bank letter or credit or performance bond with corporate surety in a penal sum equal to 125% of the total cost as estimated by the Engineer of all the improvements to be furnished and installed by the subdivider pursuant to the contract, which have not been completed prior to the approval of the plat. The bond shall be approved as to form by the attorney and filed with the Clerk-Treasurer.

(4) In the event the subdivider defaults in the terms in addition to all other rights and remedies authorized by this chapter and as otherwise provided by law, the city may complete the project referred to in the contract and assess all costs of the completion incurred by the city against the real property being subdivided as a special assessment and collect it the same as if it were any other special assessment levied by the city against real property.

(D) *Construction plans and inspection.*

(1) Construction plans for the required improvements conforming in all respects with the standards and city code provisions shall be prepared at the subdivider's expense by a professional engineer who is registered in the State of Minnesota, and the plans shall contain his or her certificate. The plans together with the quantities of construction items shall be submitted to the Engineer for his or her approval and for his or her estimate of the total costs of the required improvement. Upon approval, the plans shall become a part of the required contract. The tracings of the plans approved by the Engineer plus two prints shall be furnished to the city to be filed as a public record.

(2) All required improvements on the site that are to be installed under the provisions of this regulation shall be inspected during the course of construction by the City Engineer at the subdivider's expense, and acceptance by the city shall be subject to the Engineer's certificate of compliance with the contract.

(E) *Improvements completed prior to approval of the plat.* Improvements within a subdivision which have been completed prior to application for approval of the plat or execution of the contract for installation of the required improvements shall be accepted as equivalent improvements in compliance with the requirements only if the Engineer shall certify that he or she is satisfied that the existing improvements conform to applicable standards. (Ord. 536, effective 7-1-83)
(‘83 Code, SEC. 12.41)

ADMINISTRATION AND ENFORCEMENT

SEC. 151.65 PLAT PRESENTATION PROCEDURES.

The following procedures shall be followed in the administration of this chapter and no real property within the jurisdiction of this chapter shall be subdivided and offered for sale or a plat recorded until a preliminary plat and a final plat of the proposed subdivision have been reviewed by the Planning Commission and the city staff, and until the final plat has been approved by the Council as set forth in the procedures provided herein. PUD's shall be presented in the same manner as other plats for the review of the Planning Commission and the approval of the Council.

(‘83 Code, SEC. 12.10, Subd. 1)

SEC. 151.66 PRE-APPLICATION MEETING.

(A) Prior to the preparation of a preliminary plat, the subdividers or owners shall meet with the Zoning Administrator, Engineer, and other appropriate officials in order to be made fully aware of all applicable city code provisions, regulations, and plans in the area to be subdivided. At this time or at subsequent informal meetings, the subdivider may submit a general sketch plan of the proposed subdivision and preliminary proposals for the provision of water supply and waste disposal. The sketch plan can be presented in simple form but should show that consideration has been given to the relationship of the proposed subdivision to existing city facilities that would serve it, to neighboring subdivisions and developments, and to the natural resources and topography of the site.

(B) The subdivider is urged to avail himself of the advice and assistance of the local planning staff at this point in order to save time and effort, and to facilitate the approval of the preliminary plat. (‘83 Code, SEC. 12.10, Subd. 2)

SEC. 151.67 PRELIMINARY PLAT.

(A) After the pre-application meeting, the subdivider shall submit six or more copies of the

preliminary plat to the Zoning Administrator at least seven days prior to the Planning Commission meeting at which the plat is to be considered. The subdivider shall include a written statement along with the preliminary plat describing the proposed subdivision. The written statement shall include the anticipated development of existing natural features and vegetation, and any other information required by the subdivision regulations.

(B) The Zoning Administrator shall submit one copy of the preliminary plat to the Planning Commission, the City Engineer, and any other appropriate city officials. One copy shall also be submitted to the County Engineer if the plat abuts a county road and one copy to the State Department of Transportation if the plat abuts a state highway for review and comment.

(C) The City Engineer and Zoning Administrator and other appropriate city officials shall review the preliminary plat and shall transmit a report of their findings and recommendations together with any supporting material to the Planning Commission prior to the meeting at which the plat is to be considered. The subdivider shall be required to pay the cost of the services and the Council shall establish a fee from time to time to cover the costs. The City Engineer or Zoning Administrator may require additional information which shall be provided at the subdivider's cost.

(D) The Planning Commission may require qualified technical and staff services such as economic and legal to review the preliminary plat and advise on its suitability regarding general planning; conformity with plans of other private and public organizations and agencies; adequacy of proposed water supply, sewage disposal, drainage and flood control, special assessment procedures and other features. The subdivider shall also be required to pay the cost of the services.

(E) Within 30 days after the plat has been filed and after reports and certifications have been received as requested, the Planning Commission shall hold a public hearing on the preliminary plat after notice of the time and place thereof has been published once in the official newspaper at least ten days before the day of the hearing. This shall constitute the public hearing on the plat as required by state law. Within 30 days of the conclusion of the public hearing, the Planning Commission shall make its report to the Council.

(F) The Planning Commission may forward to the Council a favorable, conditional, or unfavorable report and the reports shall contain a statement of findings and recommendations.

(G) The Council shall act to approve or disapprove. The preliminary application must be approved or disapproved by the Council within 120 days following the delivery of an application completed in compliance with these regulations by the applicant, unless an extension of the review period has been agreed to by the applicant. If the city fails to preliminarily approve or disapprove an application within the review period, the application shall be deemed approved, and upon demand the city shall execute a certificate to that effect. If the Council disapproves the preliminary plat, the grounds for any disapproval shall be set forth in the minutes of the Council meeting and reported to the owners or subdividers.

(H) The approval of a preliminary plat is an acceptance of the general layout as submitted, and indicates to the subdivider that he or she may proceed toward preparation of a final plat in accordance with the terms of approval and provisions of the subdivision regulations.

(I) During the intervening time between approval of the preliminary plat and the signing of the final plat, the subdivider must submit acceptable engineering plans for all required improvements to the City Engineer for review.

(J) In the case of all subdivisions, the Planning Commission shall recommend denial of, and the Council may deny, approval of a preliminary or final plat if it makes any of the following findings:

(1) That the proposed subdivision, including the design, is in conflict with any adopted component of the comprehensive plan.

(2) That the physical characteristics of this site, including but not limited to topography, vegetation, susceptibility to erosion and siltation, susceptibility to flooding, water storage, drainage and retention, are such that the site is not suitable for the type of development or use contemplated;

(3) That the site is not physically suitable for the proposed density of development;

(4) That the design of the subdivision or the proposed improvements are likely to cause substantial environmental damage;

(5) That the design of the subdivision or the type of improvements is likely to cause serious public health problems; and

(6) That the design of the subdivision or the type of improvements will conflict with easements of record.

(‘83 Code, SEC. 12.10, Subd. 3)

SEC. 151.68 FINAL PLAT.

(A) The subdivider shall engage a registered land surveyor to prepare a final plat which shall constitute that portion of the preliminary plat which the subdivider proposes to record and develop at the time.

(B) The subdivider shall submit six or more copies of the final plat to the Zoning Administrator at least seven days before the Planning Commission meeting at which the plat is to be considered. The final plat shall be submitted within one year of preliminary plat approval; otherwise, the approval shall become null and void. In the event the preliminary plat is not entirely platted in final form within five years of approval, the preliminary plat shall be considered null and void.

(C) The final plat shall have incorporated all changes required by the city, County Engineer regarding county roads, and State Department of Transportation regarding state highways, but in all other respects it shall conform to the preliminary plat as approved.

(D) The Zoning Administrator shall transmit one copy of the final plat to each member of the Planning Commission, City Engineer, City Attorney, and other appropriate city officials.

(E) The city staff shall review the final plat and shall transmit reports of their recommendations to all Planning Commission members prior to the meeting at which plat is to be considered.

(F) The Planning Commission shall study the final plat, considering the reports of the City Engineer, City Attorney, and other city departments and/or employees, and then shall transmit its recommendations to the Council within 30 days of submittal to the Zoning Administrator.

(G) The Council shall act upon the final plat within 30 days of receiving the recommendations of the Planning Commission, whereupon the Clerk-Treasurer shall notify the subdivider of the Council's action. Upon request by the applicant for final approval by the city, the city shall certify final approval within 60 days if the applicant has complied with all conditions and requirements of the regulations and all conditions and requirements upon which the preliminary approval was conditioned, either through performance or agreements assuring performance. If the city fails to certify final approval within the time frame, and if the applicant has complied with all conditions or requirements, the final plat shall be deemed approved and upon demand, the city shall execute a certificate to that effect.

(H) Upon approval of the final plat by the Council, the subdivider shall record the final plat with the Polk County Recorder, as provided for by that office, within 60 days after approval. Otherwise the approval of the final plat shall be considered void. The subdivider shall, within 30 days of recording, furnish the Clerk-Treasurer with a reproducible print of the final plat showing evidence of the recording.
(‘83 Code, SEC. 12.10, Subd. 4)

SEC. 151.69 EFFECT OF SUBDIVISION APPROVAL.

For one year following preliminary approval and for two years following final approval, unless the subdivider and the city agree otherwise, no amendment to a comprehensive plan or official control shall apply to or affect the use, development, density, lot size, lot layout, or dedication or platting required or permitted by the approved application. Thereafter, pursuant to its regulations, the city may extend the period by agreement with the subdivider and subject to all applicable performance conditions and requirements, or it may require submission of a new application unless substantial physical activity and investment has occurred in reasonable reliance on the approved application and the subdivider will suffer substantial financial damage as a consequence of a requirement to submit a new application. In connection with a subdivision involving planned and staged development, the city may by resolution or agreement grant the rights referred to herein for the period of time longer than two years which it determines to be reasonable and appropriate.
(‘83 Code, SEC. 12.10, Subd. 5)

SEC. 151.70 DISCLOSURE BY SELLER; PURCHASER'S ACTION FOR DAMAGES.

A person conveying a new parcel of land which, or the plat for which, has not previously been filed or recorded, and which is part of or would constitute a subdivision to which adopted subdivision regulations apply, shall attach to the instrument of conveyance either: recordable certification by the Clerk-Treasurer that the subdivision regulations do not apply, or that the subdivision has been approved by the Council or that the restrictions on the division of taxes and filing and recording have been waived by resolution of the Council in this case because compliance will create an unnecessary hardship and failure to comply will not interfere with the purpose of the regulations; or a statement which names and identifies the location of the appropriate city offices and advises the grantee that subdivision and zoning regulations may restrict the use or restrict or prohibit the development of the parcel, or construction on it, and that the division of taxes and the filing or recording of the conveyance may be prohibited without prior recordable certification of approval, nonapplicability, or waiver from the city. In any action commenced by a buyer of a parcel against the seller thereof, the misrepresentation of or the failure to disclose material facts in accordance with this subdivision shall be grounds for damages. If the buyer establishes his or her right to damages, a district court hearing the matter may in its discretion also award to the buyer an amount sufficient to pay all or any part of the

costs incurred in maintaining the action, including reasonable attorney fees, and an amount for punitive damages not exceeding 5% of the purchase of the land.
(‘83 Code, SEC. 12.10, Subd. 6) (Ord. 536, effective 7-1-83)

SEC. 151.71 MODIFICATIONS, EXCEPTIONS AND VARIANCES.

The Council may grant a variance upon receiving a report from the Planning Commission in any particular case where the subdivider can show by reason of exceptional topography or any other physical conditions that strict compliance with these regulations would cause exceptional and undue hardship provided the relief may be granted without detriment to the public welfare and without impairing the intent and purpose of these regulations. The Planning Commission may recommend variations from the requirements of this chapter in specific which, in its opinion, do not affect the comprehensive plan or the intent of this chapter. Any modifications thus recommended shall be entered in the minutes of the Planning Commission in setting forth the reasons which justify the modifications. The Council may approve variances from these requirements in specific cases which in its opinion meets the above requirements and do not adversely affect the purposes of this chapter.
(‘83 Code, SEC. 12.50, Subd. 1)

SEC. 151.72 PLANNED UNIT DEVELOPMENTS.

Upon receiving a report from the Planning Commission, the Council may grant a variance from the provisions of these regulations in the case of a planned unit development, as defined in the zoning chapter, provided that the Council shall find that the proposed development is fully consistent with the purposes and intent of these regulations. This provision is intended to provide the necessary flexibility for new land planning and land development trends and techniques.
(‘83 Code, SEC. 12.50, Subd. 2)

SEC. 151.73 MINOR SUBDIVISIONS.

(A) In the case of a subdivision resulting in five parcels or less situated in the city where conditions are well defined, the Council may exempt the subdivider from complying with some of the requirements of these regulations. In the case of a request to subdivide a lot which is a part of a recorded plat, or where the subdivision is to permit the adding of a parcel of land to an abutting lot or to create not more than three new lots, and the newly created property lines will not cause any resulting lot to be in violation of these regulations or the zoning chapter, the division may be approved by the Council, after submission of a survey by a registered land surveyor showing the original lot and the proposed subdivision.

(B) In the case of a request to divide a lot which is a part of a recorded plat where the division is to permit the adding of a parcel of land to an abutting lot or to create two lots and the newly created property line will not cause the other remaining portion of the lot to be in violation with this regulation or the zoning chapter, the division may be approved by the Council after submission of a survey by a registered land surveyor showing the original lot and the proposed subdivision.(‘83 Code, SEC. 12.50, Subd. 3) (Ord. 536, effective 7-1-83)

SEC. 151.99 PENALTY.

Every person who violates a section, subdivision, paragraph or provision of this chapter when he or she performs an act thereby prohibited or declared unlawful, or fails to act when the failure is thereby prohibited or declared unlawful, and upon conviction thereof, shall be punished as for a misdemeanor except as otherwise stated in specific provisions hereof. The penalty which may be imposed for any crime which is a misdemeanor under this code, including Minnesota Statutes specifically adopted by reference, shall be a sentence of not more than 90 days or a fine of not more than \$1,000, or both. The costs of prosecution may be added. A separate offense shall be deemed committed upon each day during which a violation occurs or continues. ('83 Code, SEC. 12.99) (Ord. 536, effective 7-1-83)

CHAPTER 152: ZONING

Section

General Provisions

- 152.001 Intent and purpose

GENERAL PROVISIONS

SECTION 152.001 INTENT AND PURPOSE.

This chapter is adopted for the purpose of:

- (A) Protecting the public health, safety, comfort, convenience and general welfare;
 - (B) Promoting orderly development of the residential, commercial, industrial, recreational and public areas;
 - (C) Conserving the natural and scenic beauty and attractiveness of the city;
 - (D) Conserving and developing natural resources in the city;
 - (E) Providing for the compatibility of different land uses and the most appropriate use of land throughout the city;
 - (F) Minimizing environmental pollution; and
 - (G) Conserving energy through the use of solar systems and the encouragement of solar and earth-sheltered structures for commercial, industrial, and residential uses.
- (‘83 Code, SEC. 11.01)

SEC. 152.002 RULES OF LANGUAGE CONSTRUCTION.

Whenever a word or term defined hereinafter appears in the text of this chapter, its meaning shall be construed as set forth in the definition. All measured distances expressed in feet shall be to the nearest tenth of a foot.

(‘83 Code, SEC. 11.02)

SEC. 152.003 DEFINITIONS.

For the purpose of this chapter the following definitions shall apply, unless the context clearly indicates or requires a different meaning.

ACCESSORY USE OR STRUCTURE. A use or structure on the same lot with, and of a nature customarily incidental and subordinate to, the principal use or structure. (Ord. 86, 2nd Series, effective 12-23-93)

AGRICULTURAL BUILDING OR STRUCTURE. Any building or structure existing or erected which is used principally for agricultural purposes, with the exception of dwelling units.

AGRICULTURAL USE. The use of land for the growing and/or production of field crops, livestock, and livestock products for the production of income, including but not limited to the following:

- (1) Field crops, including barley, soy beans, corn, hay, oats, potatoes, rye, sorghum, and sunflowers.
 - (2) Livestock, including dairy and beef cattle, goats, horses, sheep, hogs, poultry, game birds and other animals including dogs, ponies, deer, rabbits and mink.
 - (3) Livestock products, including milk, butter, cheese, eggs, meat, fur and honey.
- APARTMENT.*** A room or suite of rooms with cooking facilities available which is

occupied as a residence by a single family, or a group of individuals living together as a single family unit. This includes any unit in buildings with more than two dwelling units.

APARTMENT BUILDING, HIGH RISE. An apartment building three or more stories in height, whose upper floors are accessible by elevator, and whose dwelling units are accessible through common corridors.

APARTMENT BUILDING, WALKUP. An apartment building not more than three stories above grade whose upper floors are accessible by stairs, and whose dwelling units are usually accessible through common corridors.

AUTO OR MOTOR VEHICLE REDUCTION YARD. A lot or yard where one or more unlicensed motor vehicle(s), or the remains thereof, are kept for the purpose of dismantling, wrecking, crushing, repairing, rebuilding, sale of parts, sale as scrap, storage, or abandonment. (See also ***JUNK YARD***).

AUTOMOBILE SERVICE STATION. A building designed primarily for the supplying of motor fuel, oil, lubrication and accessories to motor vehicles or any portion thereof. (Ord. 537, effective 7-1-83)

BASEMENT. Any area of a structure, including crawl space, having its floor or base subgrade (below ground level) on all four sides, regardless of the depth of excavation below ground level. (Ord. 86, 2nd Series, effective 12-23-93)

BED AND BREAKFAST INN. An owner occupied building at least 75 years old designed for and used as a single-family or two-family dwelling that provides four or fewer lodging rooms accommodating no more than eight adults, in which meals are provided to overnight guests, and that is open to the traveling public for a stay not to exceed 20 days. (Ord. 37, 2nd Series, effective 9-16-86)

BOARDING HOUSE (ROOMING OR LODGING HOUSE). A building other than a motel or hotel where, for compensation and by prearrangement for definite periods, meals or lodging are provided for three or more persons, but not to exceed 20 persons.

BUILDING. Any structure having a roof which may provide shelter or enclosure of persons, animals, chattel, or property of any kind and when the structures are divided by party walls without openings, each portion of the building so separated shall be deemed a separate building.

BUILDING LINE. A line parallel to the street right-of-way line at any story level of a building and representing the minimum distance which all or any part of the building is set back from the right-of-way.

BUILDING HEIGHT. The vertical distance to be measured from the average grade of a building line to the top, to the cornice of a flat roof, to the deck line of a mansard roof, to a point on the roof directly above the highest wall of a shed roof, to the uppermost point on a round or other arch type roof, to the mean distance of the highest gable on a pitched or hip roof.

BUILDING SETBACK. The minimum horizontal distance between the building and a lot line, or the normal high water mark of a stream or river.

BUSINESS. Any occupation, employment or enterprise wherein merchandise is exhibited or sold, or where services are offered for compensation.

CARPORT. An automobile shelter having two or more sides open. Floor of carport shall be of approved non-combustible material.

CELLAR. That portion of a building having more than one-half of the floor-to-ceiling height below the average grade of the adjoining ground.

CHURCH. A building, together with its accessory buildings and uses, where persons regularly assemble for religious worship and which building, together with its accessory buildings and uses, is maintained and controlled by a religious body organized to sustain public worship.

CLEAR-CUTTING. The removal of an entire stand of vegetation.

CLUSTERING/CLUSTER HOUSING. The development pattern and technique whereby structures are arranged in closely related groups to make the most efficient use of the natural amenities of the land.

COMMISSIONER. Commissioner of the Department of Natural Resources. (Ord. 537, effective 7-1-83)

COMPREHENSIVE PLAN. A compilation of goals, policy statements, standards, programs and maps for guiding the physical, social and economic development, both public and private, of the city and its environs, as defined in the Municipal Planning Act, and includes any unit or part of the plan separately adopted and any amendment to the plan or parts thereof.

CONDITIONAL USE. A specific type of structure or land use that may be allowed but only after an in-depth review procedure and with appropriate conditions or restrictions as provided in the official zoning controls or building codes and upon a finding that:

- (1) Certain conditions as detailed in the zoning regulations exist; and
 - (2) The structure and/or land use conform to the comprehensive land use plan (if one exists) and are compatible with the existing neighborhood.
- (Ord. 86, 2nd Series, effective 12-23-93)

CONDOMINIUM. A form of individual ownership of a multi-family building with joint responsibility for maintenance and repairs of the common property. In a condominium, each apartment or townhouse unit is owned outright by its occupant and each occupant also owns a share of the land and other common property of the building.

COOPERATIVE. A multi-unit development operated for and owned by its occupants. Individual occupants do not own their specific housing unit outright as in a condominium, but they own shares in the total enterprise.

CURB LEVEL. The grade elevation established by the Council of the curb in front of the center of the building. Where no curb level has been established, the engineering staff shall determine a curb level or its equivalent for the purpose of this chapter.

DRIVE-IN. Any use where products and/or services are provided to the customer under conditions where the customer does not have to leave the car or where service to the automobile occupants is offered regardless of whether service is also provided within a building.

DWELLING UNIT. A residential building or portion thereof intended for occupancy by a single family but not including hotels, motels, boarding or rooming houses or tourist homes. There are three principal types:

(1) **MULTIPLE-FAMILY.** A residence designed for or occupied by three or more families, either wholly (attached) or partially a part of a larger structure (detached), with separate housekeeping and cooking facilities for each.

(2) **SINGLE-FAMILY.** A free-standing (detached) residence structure designed for or occupied by one family only.

(3) **TWO-FAMILY.** A residence designed for or occupied by two families only, with separate housekeeping and cooking facilities for each.

DWELLING, ATTACHED. One which is joined to another dwelling or building at one or more sides by a party wall or walls.

DWELLING, DETACHED. One which is entirely surrounded by open space on the same lot.

EARTH SHELTERED BERM. An earth covering on the above grade portions of building walls.

EARTH SHELTERED BUILDING. A building constructed so that 50% or more of the completed structure is covered with earth. Earth covering is measured from the lowest level of livable space in residential units and of usable space in non-residential buildings. An earth sheltered building is a complete structure that does not serve just as a foundation or substructure for aboveground construction. A partially completed building shall not be considered earth sheltered.

EASEMENT. A grant by a property owner for the use of a strip of land for the purpose of constructing and maintaining walkways; roadways; utilities, including but not limited to sanitary sewers, water mains, electric lines, telephone lines, storm sewer or storm drainageways and gas lines.

EFFICIENCY UNIT. A dwelling unit with one primary room which doubles as a living room, kitchen and bedroom. (Ord. 537, effective 7-1-83)

EQUAL DEGREE OF ENCROACHMENT. A method of determining the location of floodway boundaries so that flood plain lands on both sides of a stream are capable of conveying a proportionate share of flood flows. (Ord. 86, 2nd Series, effective 12-23-93)

ESSENTIAL SERVICES. Overhead or underground electrical, gas, steam or water transmission or distribution systems and structures or collection, communication, supply or disposal systems and structures used by public utilities or governmental departments or commissions or as are required for the protection of the public health, safety or general welfare, including towers, poles, wires, mains, drains, sewers, pipes, conduits, cables, fire alarm boxes, police call boxes and accessories in connection herewith but not including buildings. For the purpose of this chapter, the word "buildings" does not include "structures" for essential services.

EXTERIOR STORAGE (INCLUDES OPEN STORAGE). The storage of goods, materials, equipment, manufactured products and similar items not fully enclosed by a building.

EXTRACTION AREA. Any non-agricultural artificial excavation of earth exceeding 50 square feet of surface area of two feet in depth, other than activity involved in preparing land for earth sheltered or conventional construction of residential, commercial, and industrial buildings, excavated or made by the removal from the natural surface of the earth, of sod, soil, sand, gravel, stone or other natural matter, or made by turning, or breaking or undermining the surface of the earth, except that public improvement projects shall not be considered **EXTRACTION AREAS**.

FAMILY. An individual, or two or more persons related by blood, marriage or adoption, living together as a single housekeeping unit in a dwelling unit.

FARM. A tract of land which is principally used for agricultural activities such as the production of cash crops, livestock or poultry farming. The farms may include agricultural dwelling and accessory buildings and structures necessary to the operation of the farm.

FEEDLOTS, LIVESTOCK. The place of confined feeding of livestock, poultry or other animals for food, fur, pleasure or resale purposes in yards, lots, pens, buildings, or other areas not normally used for pasture or crops and in which substantial amounts of manure or related other wastes may originate by reason of the feeding of animals.

FENCE. Any partition, structure, wall or gate erected as a divider marker, barrier or enclosure and located along the boundary, or within the required yard. (Ord. 537, effective 7-1-83)

FLOOD. A temporary increase in the flow or stage of a stream or in the stage of a wetland or lake that results in inundation of normally dry areas.

FLOOD FREQUENCY. The frequency for which it is expected that a specific flood stage or discharge may be equaled or exceeded.

FLOOD FRINGE. That portion of the flood plain outside of the floodway. Flood fringe is synonymous with the term "floodway fringe" used in the Flood Insurance Study for the City of Crookston.

FLOOD PLAIN. The beds proper and the areas adjoining a wetland, lake or watercourse which have been or hereafter may be covered by the regional flood. (Ord. 86, 2nd Series, effective 12-23-93)

FLOOD PROOFING. A combination of structural provisions, changes or adjustments to properties and structures subject to flooding, primarily for the reduction or elimination of flood damages. (Ord. 537, effective 7-1-83)

FLOODWAY. The bed of a wetland or lake and the channel of a watercourse and those portions of the adjoining flood plain which are reasonably required to carry or store the regional flood discharge. (Ord. 86, 2nd Series, effective 12-23-93)

FLOOR AREA. The gross area of the main floor of a residential building measured in square feet and not an attached garage, breezeway or similar attachment.

FLOOR AREA, GROSS. The sum of the gross area of the various floors of a building

measured in square feet. The basement floor area shall not be included unless the area constitutes a story.

FLOOR AREA RATIO. The numerical value obtained through dividing the gross floor area of a building or buildings by the net area of the lot or parcel of land on which the building or buildings are located.

FORESTRY. The use and management including logging of a forest, woodland or plantation and related research and educational activities, including the construction, alteration or maintenance of woodroads, skidways, landings, and fences.

FRONTAGE. That boundary of a lot which abuts an existing or dedicated public street.

GARAGE, PRIVATE. An accessory building or accessory portion of the principal building which is intended for and used to store the private passenger vehicles of the family or families resident upon the premises.

GRADE. The average of the finished level at the center of the exterior walls of the building. For an earth sheltered building **GRADE** means the average of the finished level at the center of the lot. For a building with earth berms but less than 50% earth covering grade means the average of the finished level at the center of the building at the beginning of the earth berm.

GROUP FACILITY OR HOME. A residence utilized by unrelated people for the purpose of rehabilitation. (Ord. 537, effective 7-1-83)

HISTORIC DISTRICT. That portion of the Central Business District (C-1) which was placed on the National Register of Historic Places on November 23, 1984, a detailed description of which is on file and available for public inspection in the office of the Clerk-Treasurer. (Ord. 85, 2nd Series, effective 7-17-93)

HOME OCCUPATION. Any gainful occupation or profession engaged in by the occupant of a dwelling at or from the dwelling when carried on within a dwelling unit or accessory structure. The uses include professional offices, minor repair services, photo or art studios, dressmaking, barber shops, beauty shops, tourist homes, or similar uses.

HORTICULTURE. Horticulture uses and structures designed for the storage of products and machinery pertaining and necessary thereto.

HOTEL. A building which provides a common entrance, lobby, halls and stairway and in which 20 or more people can be, for compensation, lodged with or without meals.

JUNK YARD. An open area where waste, used, or second-hand materials are bought, sold, exchanged, stored, baled, packed, disassembled or handled, including but not limited to, scrap iron and other metals, paper, rags, rubber, tires, and bottles. A junk yard includes an auto wrecking yard but does not include uses established entirely within enclosed buildings. This definition does not include sanitary landfills.

KENNEL. Any structure or premises on which four or more dogs over four months of age are kept for sale, breeding, profit, and the like.

LANDSCAPING. Plantings, including trees, grass, ground cover, and shrubs.

LODGING ROOM. A room rented as sleeping and living quarters, but without cooking facilities. In a suite of rooms without cooking facilities each room which provides sleeping

accommodations shall be counted as one lodging room.

LOT. A parcel or portion of land in a subdivision or plat of land, separated from other parcels or portions by description as on a subdivision or record of survey map, for the purpose of sale or lease or separate use thereof.

LOT AREA. The area of a lot in a horizontal plane bounded by the lot lines.

LOT, CORNER. A lot situated at the junction of, and abutting on two or more intersecting streets, or a lot at the point of deflection in alignment of a continuous street, the interior angle of which does not exceed 135 degrees.

LOT COVERAGE. The area of the zoning lot occupied by the principal buildings and accessory buildings. Earth berms are not to be included in calculating lot coverage. Only the above grade portions of an earth sheltered building should be included in lot coverage calculations.

LOT DEPTH. The mean horizontal distance between the front lot line and the rear lot line of a lot.

LOT LINE. The property line bounding a lot except that where any portion of a lot extends into the public right-of-way shall be the lot line for applying this chapter.

LOT LINE, FRONT. That boundary of a lot which abuts an existing or dedicated public street, and in the case of a corner lot it shall be the shortest dimension on a public street. If the dimensions of a corner lot are equal, the front line shall be designated by the owner and filed with the County Recorder.

LOT LINE, REAR. That boundary of a lot which is opposite the front lot line. If the rear line is less than ten feet in length, or if the lot forms a point at the rear, the rear lot line shall be a line ten feet in length within the lot, parallel to, and at the maximum distance from the front lot line.

LOT LINE, SIDE. Any boundary of a lot which is not a front lot line or a rear lot line.

LOT OF RECORD. Any lot which is one unit of a plat heretofore duly approved and filed, or one unit of an Auditor's Subdivision or a Registered Land Survey that has been recorded in the office of the County Recorder for Polk County, Minnesota, prior to the effective date of this chapter.

LOT, SUBSTANDARD. A lot or parcel of land for which a deed has been recorded in the office of the County Recorder upon or prior to the effective date of this chapter which does not meet the minimum lot area, structure setbacks or other dimensional standards of this chapter.

LOT, THROUGH. A lot which has a pair of opposite lot lines abutting two substantially parallel streets, and which is not a corner lot. On a through lot, both street lines shall be front lines for applying this chapter.

LOT WIDTH. The maximum horizontal distance between the side lot lines of a lot measured within the first 30 feet of the lot depth.

MANUFACTURED HOME. A structure, transportable in one or more sections, which in the traveling mode, is eight feet or more in width or 40 body feet or more in length, or, when erected on site, is 320 or more square feet, and which is built on a permanent chassis and

designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities, and includes the plumbing, heating, air conditioning, and electrical systems contained therein; except that the term includes any structure which meets all the requirements and with respect to which the manufacturer voluntarily files a certification required by the secretary and complies with the standards established under this chapter.

METES AND BOUNDS. A method of property description by means of their direction and distance from an easily identifiable point.

MINING. The extraction of sand, gravel, rock, soil or other material from the land in the amount of 1,000 cubic yards or more and the removing thereof from the site. The only exclusion from this definition shall be removal of materials associated with construction of a building, provided the removal is an approved item in the building permit.

MOBILE HOME. A manufactured relocatable residential unit providing complete, independent living facilities for one family including permanent provisions for living, sleeping, eating, cooking and sanitation.

MOBILE HOME LOT. A parcel of land for the placement of a mobile home and the exclusive use of its occupants.

MOBILE HOME PARK. A contiguous parcel of land which has been developed for the placement of mobile homes and is owned by an individual, a firm, trust, partnership, public or private association or corporation.

MODULAR HOME. A non-mobile housing unit which is basically fabricated at a central factory and transported to a building site where final installations are made, permanently affixing the module to the site.

MOTEL (TOURIST COURT). A building or group of detached, semi-detached, or attached buildings containing guest rooms or dwellings, with garage or parking space conveniently located to each unit, and which is designed, used or intended to be used primarily for the accommodation of automobile transients.

MULTIPLE RESIDENT (APARTMENT BUILDING). Three or more dwelling units in one structure.

NURSERY LANDSCAPE. A business growing and selling trees, flowering and decorative plants and shrubs and which may be conducted within a building or without, for the purpose of landscape construction.

NURSING HOME. A building with facilities for the care of children, the aged, infirm, or place of rest for those suffering bodily disorder. Said nursing home shall be licensed by the State Board of Health as provided for in M.S. SEC. 144.50, as it may be amended from time to time. (Ord. 537, effective 7-1-83)

OBSTRUCTION. Any dam, wall, wharf, embankment, levee, dike, pile, abutment, projection, excavation, channel modification, culvert, building, wire, fence, stockpile, refuse, fill, structure or matter in, along, across, or projecting into any channel, watercourse, or regulatory flood plain which may impede, retard or change the direction of the flow of water, either in itself or by catching or collecting debris carried by the water. (Ord. 86, 2nd Series, effective 12-23-93)

OFF-STREET LOADING SPACE. A space accessible from a street, alley or driveway for the use of commercial trucks or other vehicles while loading or unloading merchandise or materials.

OPEN SALES LOT (EXTERIOR STORAGE). Any land used or occupied for the purpose of buying and selling any goods, materials, or merchandise and for the storing of same under the open sky prior to sale.

ORDINARY HIGHWATER MARK. A mark delineating the highest water level which has been maintained for a sufficient period of time to leave evidence upon the landscape. The ordinary highwater mark is commonly that point where the natural vegetation changes from predominantly aquatic to predominantly terrestrial. In areas where the ordinary highwater mark is not evident, setbacks shall be measured from the stream bank of the following water bodies that have permanent flow or open water: the main channel, adjoining side channels, backwaters and sloughs.

PARKING SPACE. A suitably surfaced and permanently maintained area on privately owned property either within or outside of a building of sufficient size to store one standard automobile.

PEDESTRIAN WAY. A public or private right-of-way across or within a block, to be used by pedestrians.

PLANNED UNIT DEVELOPMENT. A residential development whereby buildings are grouped or clustered in and around common open space areas in accordance with a prearranged site plan and where the common open space is owned by the homeowners and usually maintained by a homeowners association.

PLANNING COMMISSION. The Planning Commission of Crookston except when otherwise designated.

PREFABRICATED HOME. Non-mobile housing unit, the walls, floors and ceilings of which are constructed at a central factory and transported to a building site where final construction is completed, permanently affixing the unit to the site. (Ord. 537, effective 7-1-83)

PRINCIPAL USE OR STRUCTURE. All uses or structures that are not accessory uses or structures. (Ord. 86, 2nd Series, effective 12-23-93)

PROPERTY LINE. The legal boundaries of a parcel of property which may also coincide with a right-of-way line of a road, cartway, and the like.

PROPERTY OWNER. Any person, association or corporation having a freehold estate interest, leasehold interest extending for a term or having renewal options for a term in excess of one year, a dominant easement interest, or an option to purchase any of same, but not including owners or interests held for security purposes only.

PROTECTIVE COVENANTS. A contract entered into between private parties which constitutes a restriction of the use of a particular parcel of property.

PUBLIC LAND. Land owned or operated by city, school district, county, state or other governmental units.

PUBLIC WATER. A body of water capable of substantial beneficial public use. This shall

be construed to mean any body of water which has the potential to support any type of recreational pursuit or water supply purpose. However, no lake, pond or flowage of less than 25 acres in size and no river or stream having a total drainage area less than two square miles need be regulated by the city for the purpose of these regulations. A body of water created by a private user where there was no previous shoreland, as defined herein, for a designated private use authorized by the Commissioner shall be exempt from the provisions of the statewide standards and criteria. (Ord. 537, effective 7-1-83)

REACH. A hydraulic engineering term to describe a longitudinal segment of a stream or river influenced by a natural or man-made obstruction. In an urban area, the segment of a stream or river between two consecutive bridge crossings would most typically constitute a reach. (Ord. 86, 2nd Series, effective 12-23-93)

RECLAIMED LAND. The improvement of land by deposition of material to elevate the grade. Any parcel upon which 400 cubic yards or more of fill are deposited shall be considered as reclaimed land.

RECREATION, COMMERCIAL. Includes all uses such as bowling alleys, roller and skating rinks, driving ranges, and movie theaters that are privately owned and operated with the intention of earning a profit by providing entertainment for the public.

RECREATION EQUIPMENT. Play apparatus such as swing sets and slides, sandboxes, poles for nets, unoccupied boats and trailers not exceeding 20 feet in length, picnic tables, lawn chairs, barbecue stands, and similar equipment or structures but not including tree houses, swimming pools, play houses exceeding 25 square feet of floor area, or sheds utilized for storage of equipment.

RECREATION, PUBLIC. Includes all uses such as tennis courts, ball fields, picnic areas, and the like that are commonly provided for the purpose at parks, playgrounds, community centers, and other sites owned and operated by a unit of government for the purpose of providing recreation.

REGIONAL FLOOD. A flood which is representative of large floods known to have occurred generally in Minnesota and reasonably characteristic of what can be expected to occur on an average frequency in the magnitude of the 100-year recurrence interval. **REGIONAL FLOOD** is synonymous with the term "base flood" used in the Flood Insurance Study.

REGISTERED LAND SURVEY. A survey map of registered land designed to simplify a complicated metes and bounds description, designating the same into a tract or tracts of a Registered Land Survey Number (see M.S. SEC. 508.47, as it may be amended from time to time). (Ord. 537, effective 7-1-83)

REGULATORY FLOOD PROTECTION ELEVATION. The elevation no lower than one foot above the elevation of the regional flood plus any increases in flood elevation caused by encroachments on the flood plain that result from designation of a floodway. (Ord. 86, 2nd Series, effective 12-23-93)

ROAD. A public right-of-way affording primary access by pedestrians and vehicles to abutting properties, whether designated as a street, highway, thoroughfare, parkway, throughway, road, avenue, boulevard, land, place or however otherwise designated. Ingress and egress easements shall not be considered roads.

ROOMING HOUSE. A building designed for or used as a single-family or two-family

dwelling, all or a portion of which contains rooming units which accommodate three or more persons who are not members of the keeper's family. Rooms, or meals, or both, are provided for compensation on a periodic payment basis. (Ord. 537, effective 7-1-83)

SATELLITE DISH ANTENNA. An outside parabolic antenna used or useful for the reception of communication signals transmitted by satellite. (Ord. 27, 2nd Series, effective 3-20-86)

SELECTIVE CUTTING. The removal of single scattered trees. (Ord. 537, effective 7-1-83)

SIGN. Any words, lettering, parts of letters, figures, numerals, phrases, sentences, emblems, devices, designs, trade names, or trademarks by which anything is made known which are visible from any public highway, street, or public property and used to attract attention.

SIGN, ADVERTISING. Any sign making anything known but excluding real estate signs, identification signs, home occupation signs, memorial signs, and public signs.

SIGN AWNING. Any sign affixed to or contained as a part of a hood or canopy constructed of flexible, translucent or fabric type material extending over all or a part of the area immediately adjacent to a face of a building and supported from the building. (Ord. 85, 2nd Series, effective 7-17-93)

SIGN, BILLBOARD or POSTER PANEL. Any sign or advertising used on an outdoor display by painting, posting, or affixing on any surface of a picture, emblem, words, figures, numbers, or lettering for the purpose of making anything known, the sign or its structure being remote from the origin or point of sale of the matter advertised.

SIGN, COMBINATION ROOF AND PROJECTING. A sign or combination of signs of projecting and roof sign definition, a portion of the sign or signs being anchored to the roof and/or parapet wall of the building, the sign or combination of signs conveying the total message. If a combination of signs, each sign must convey an integral part of one message.

SIGN, FLASHING. Any illuminated sign on which the artificial light is not maintained constant in intensity and color at all times when the sign is in use. (Ord. 537, effective 7-1-83)

SIGN, GROUND. A sign affixed to or erected directly upon the ground or upon a base or foundation on or in the ground.

SIGN, HOME OCCUPATION. Any sign announcing the name of and/or logo associated with a home occupation.

SIGN, IDENTIFICATION. Any sign announcing the name of and/or logo associated with an organization, business (except home occupation) or place. (Ord. 85, 2nd Series, effective 7-17-93)

SIGN, ILLUMINATED. Any sign upon which artificial light is directed or which has an interior light source.

SIGN, MARQUEE. A sign affixed to or contained as a part of any hood or canopy over the sidewalk and entrance to stores, buildings and places of public assembly extending wholly or in part across the sidewalk and supported from the building. (Ord. 537, effective 7-1-83)

SIGN, MEMORIAL. Any sign announcing the name of a building and date of erection or similar information when cut into any masonry surface or when constructed of bronze or other non-combustible material and attached to the building. Letters shall not exceed six inches in height when mounted or cut at an elevation less than eight feet above the sidewalk grade immediately below. Temporary signs denoting the architect, engineer, public utility, or contractor are memorial signs when placed upon the work during construction or maintenance. (Ord. 85, 2nd Series, effective 7-17-93)

SIGN, OFF-SITE DIRECTIONAL. A sign erected remote from the premises to which it has reference usually containing an arrow or other directional information to assist the public in locating the function to which it has reference.

SIGN, POLE. A sign constructed of metal, plastic or other approved material affixed to or erected upon a single or double metal pole, or pole of other generally acceptable materials which conform to requirements of the sign code. (Ord. 537, effective 7-1-83)

SIGN, PORTABLE. A sign, flashing, illuminated, or non-illuminated, so designed as to be movable from one location to another and which is not permanently attached to ground, sales device, or structure. (Ord. 537, effective 7-1-83)

SIGN, PROJECTING. A sign or poster that may be affixed to the front, rear, or side wall of any building and extending over the sidewalk, the message conveyed by the sign being perpendicular with or at an angle or angles to the wall to which it is affixed. Projecting illuminated or non-illuminated signs shall, for the purpose of this chapter, be divided into four classifications:

- (1) Projecting signs which are affixed directly to the building wall with no visible sign structure other than the sign itself;
- (2) Projecting signs which are supported from above by a visible projecting rod or sign structure affixed to the building but which are free-swinging at the bottom;
- (3) Projecting signs supported by visible additional sign structure at two or more elevations with no part of the sign proper contacting the building to which it is affixed;
- (4) Projecting signs on corner buildings which signs are anchored at approximately 45 degrees from the building corner at street intersections, designed to be viewed equally from four directions.

SIGN, PUBLIC. Any sign placed by governmental subdivisions or their agents announcing pedestrian and vehicular traffic directions, traffic controls, non-commercial activities, legal notices, railroad crossings, and temporary dangers or emergencies. (Ord. 85, 2nd Series, effective 7-17-93)

SIGN, REAL ESTATE. Any sign with an area of no more than six square feet announcing the sale or lease of the real property upon which it is located while the property is actually for sale or lease. (Ord. 85, 2nd Series, effective 7-17-93)

SIGN, ROOF. A sign erected, constructed, or maintained on the roof of any building, not

to be so construed as to include an upward extension of a wall or projecting sign.

SIGN, STRUCTURE. The foundation, supports, uprights, bracing and framework for a sign, including the sign surface itself. In the case of a sign painted on the wall of a building, the sign surface is the entire sign structure.

SIGN, TEMPORARY. A sign placed in a manner as not to be solidly affixed to any building, structure or land and used for advertising or leasing property or denoting architecture, engineer, public utility, or contractor.

SIGN, WALL. A sign or poster that may be affixed to or painted on the front, rear, or side wall of any business building to which it has reference, the message conveyed by the sign being parallel with the wall to which it is affixed.

SOLAR ACCESS SPACE. That airspace above all lots within the district necessary to prevent any improvement or tree located on said lots from casting a shadow upon any solar device located within said zone greater than the shadow cast by a hypothetical vertical wall ten feet high located along the property lines of said lots between the hours of 9:30 a.m. and 2:30 p.m., Central Standard Time on December 21; provided, however, this chapter shall not apply to any improvement or tree which casts a shadow upon a solar device at the time of the installation of said device, or to vegetation existing at the time of installation of the solar device.

SOLAR COLLECTOR. A device, or combination of devices, structure, or part of a device or structure that transforms direct solar energy into thermal, chemical or electrical energy and that contributes significantly to a structure's energy supply.

SOLAR ENERGY. Radiant energy (direct, diffuse, and reflected) received from the sun.

SOLAR ENERGY SYSTEM. A complete design or assembly consisting of a solar energy collector, an energy storage facility (where used), and components to the distribution of transformed energy (to the extent they cannot be used jointly with a conventional energy system). To qualify as a solar energy system, the system must be permanently located for not less than 90 days in any calendar year beginning with the first calendar year after completion of construction. Passive solar energy systems are included in this definition but not to the extent that they fulfill other functions such as structural and recreational.

SOLAR SKYSPACE. The space between a solar energy collector and the sun which must be free of obstructions that shade the collector to an extent which precludes its cost effective operation.

SOLAR SKYSPACE EASEMENT. A right, expressed as an easement, covenant, condition, or other property interest in any deed or other instrument executed by or on behalf of any landowner, which protects the solar skyspace of an actual, proposed, or designated solar energy collector at a described location by forbidding or limiting activities or land uses that interfere with access to solar energy. The solar skyspace must be described as the three-dimensional space in which obstruction is prohibited or limited, or as the times of day during which direct sunlight to the solar collector may not be obstructed, or as a combination of the two methods.

SOLAR STRUCTURE. A structure designed to utilize solar energy as an alternate for, or supplement to, a conventional energy system.

STREET. A public right-of-way which affords primary means of access to abutting property, and shall also include avenue, highway, road, or way.

STREET, COLLECTOR. A street which serves or is designed to serve as a trafficway for a neighborhood or as a feeder to a major street.

STREET, LOCAL. A street intended to serve primarily as an access to abutting properties.

STREET, MAJOR OR THOROUGHFARE. A street which serves or is designed to serve, heavy flows of traffic and which is used primarily as a route for traffic between communities and/or other heavy traffic generating areas.

STREET PAVEMENT. The wearing or exposed surface of the roadway used by vehicular traffic.

STREET WIDTH. The width of the right-of-way, measured at right angles to the centerline of the street.

STORY. That portion of a building included between the surface of any floor and the surface of the floor next above, including below ground portions of earth sheltered buildings. (Ord. 537, effective 7-1-83)

STRUCTURAL ALTERATION. Any change, other than incidental repairs, which would prolong or modify the life of the supporting members of a building, such as bearing walls, columns, beams, girders or foundations.

STRUCTURE. Anything constructed or erected on the ground or attached to the ground or on-site utilities, including, but not limited to, buildings, factories, sheds, detached garages, cabins, manufactured homes, travel trailers/vehicles not meeting the exemption criteria specified in SEC. 152.098(C)(1), and other similar items. (Ord. 86, 2nd Series, effective 12-23-93)

SUBDIVISION. The division or redivision of a lot, tract, or parcel of land into two or more lots either by plat or by metes and bounds description.

TOWNHOUSE. A single-family building attached by party walls with other single family buildings, and oriented so that all exits open to the outside.

TOXIC AND HAZARDOUS WASTES. Waste materials including, but not limited to, poisons, pesticides, herbicides, acids, caustics, pathological wastes, radioactive materials, flammable or explosive materials and similar harmful chemicals and wastes which require special handling and must be disposed of in a manner which conserves the environment and protects the public health and safety.

USE. The purpose or activity for which the land or building thereon is designated, arranged or intended, or for which it is occupied, utilized or maintained.

USE, ACCESSORY. A use subordinate to and serving the principal use or structure on the same lot and customarily incidental thereto. (Ord. 537, effective 7-1-83)

USE, CONDITIONAL. See ***CONDITIONAL USE.***

USE, INTEGRATED. A use which does not comply with all the regulations of this chapter or any amendments hereto governing the zoning district in which the use is located, and is incidental to the principal use. (Ord. 60, 2nd Series, effective 3-22-90)

USE, NONCONFORMING. Use of land, buildings or structures legally existing at the

time of adoption of this chapter which does not comply with all the regulations of this chapter or any amendment hereto governing the zoning district in which the use is located.

USE, PERMITTED. A public or private use which itself conforms with the purposes, objectives, requirements, regulations and performance standards of a particular district.

USE, PRINCIPAL. The main use of land or buildings as distinguished from subordinate or accessory uses. A **PRINCIPAL USE** may be either permitted or conditional.

VARIANCE. A modification of a specific permitted development standard required in an official control including this chapter to allow an alternative development standard not stated as acceptable in the official control, but only as applied to a particular property for the purpose of alleviating a hardship, practical difficulty or unique circumstance as defined and elaborated upon in the city's planning and zoning regulations. (Ord. 86, 2nd Series, effective 12-23-93)

WETLAND. Land which is annually subject to periodic or continual inundation by water and commonly referred to as a bog, swamp, or marsh.

YARD. A required open space on a lot which is unoccupied and unobstructed by a structure from its lowest level to the sky except as permitted in this chapter. The yard extends along the lot line at right angles to the lot line to a depth or width specified in the setback regulations for the zoning district in which the lot is located.

YARD, FRONT. A yard extending along the full width of the front lot line between side lot lines and extending from the abutting street right-of-way line to depth required in the setback regulations for the zoning district in which the lot is located.

YARD, REAR. The portion of the yard on the same lot with the principal building located between the rear line of the building and the rear lot line and extending for the full width of the lot.

YARD, SIDE. The yard extending along the side lot line between the front yard and rear yards to a depth or width required by setback regulations for the zoning district in which the lot is located.

ZONING ADMINISTRATOR. The duly appointed person charged with enforcement of this chapter.

ZONING AMENDMENT. A change authorized by the city either in the allowed use within a district or in the boundaries of a district.

ZONING DISTRICT. An area or areas within the limits of the city for which the regulations and requirements governing use are uniform as defined by this chapter. (Ord. 537, effective 7-1-83)
(‘83 Code, SEC. 11.03)

SEC. 152.004 APPLICATION AND INTERPRETATION.

(A) In their interpretation and application, the provisions of this chapter shall be held to be the minimum requirements for the promotion of the public health, safety, and welfare.

(B) Where the conditions imposed by any provision of this chapter are either more restrictive or less restrictive than comparable conditions imposed by any other law, city code provision, statute, resolution, or regulation of any kind, the regulations which are more restrictive or which impose higher standards or requirements shall prevail.

(C) Except as in this chapter specifically provided, no structure shall be erected, converted, enlarged, reconstructed, or altered; and no structure or land shall be used for any purpose nor in any manner which is not in conformity with this chapter.
(‘83 Code, SEC. 11.10, Subd. 1)

SEC. 152.005 EXISTING LOTS.

A lot or parcel of land in a residential district which was of record as a separate lot or parcel in the office of the Polk County Recorder or Registrar of Titles, on or before June 9, 1964 may be used for single-family detached dwelling purposes provided it can be demonstrated that safe and adequate sewage treatment systems can be installed to serve the permanent dwelling.
(‘83 Code, SEC. 11.10, Subd. 3)

SEC. 152.006 SEPARABILITY.

It is hereby declared to be the intention that the several provisions of this chapter are separable in accordance with the following:

(A) If any court of competent jurisdiction shall judge any provisions of this chapter to be invalid, the judgment shall not affect any other provision of this chapter not specifically included in the judgment.

(B) If any court of competent jurisdiction shall judge invalid the application of any provision of this chapter to a particular property, building, or structure, the judgment shall not affect other property, buildings, or structures.
(‘83 Code, SEC. 11.10, Subd. 2)

SEC. 152.007 ZONING COORDINATION.

Any zoning district change on land adjacent to or across a public right-of-way from an adjoining community shall be referred to the Planning Commission and the adjacent community for review and comment prior to action by the Council granting or denying the zoning district classification change. A period of at least ten days shall be provided for receipt of comments; the comments shall be considered as advisory only.
(‘83 Code, SEC. 11.10, Subd. 6) (Ord. 537, effective 7-1-83)

SEC. 152.008 FOUNDATIONS.

Any structure designed to be used as a dwelling shall be placed on a foundation constructed of masonry, concrete or treated wood. Constructed and installed as required by the Minnesota State Building Code. (‘83 Code, SEC. 11.10, Subd. 7) (Ord. 27, 2nd Series, effective 3-20-86)

ZONING DISTRICTS

SEC. 152.020 DIVISION OF CITY INTO DISTRICTS.

The zoning districts are so designed as to assist in carrying out the intents and purposes of the Comprehensive Plan and are based upon the Comprehensive Plan which has the purpose of protecting the public health, safety, convenience and general welfare. For the purposes of this chapter, the city is hereby divided into the following zoning districts.

<i>Symbol</i>	<i>Name</i>
FR	Farm Residence
R-1	Single-Family Residential
R-2	One and Two Family Residential
R-3	Multi-Family Residential
C-1	Central Business District
C-2	Highway Commercial
C-3	Shopping Center
I-1	Heavy Industrial
I-2	Light Industrial
IN	Institutional
FP	Floodplain

(‘83 Code, SEC. 11.20, Subd. 1)

SEC. 152.021 ZONING MAP.

(A) The location and boundaries of the districts established by this chapter are set forth on the Official Zoning Map which is hereby incorporated as part of this chapter and which is on file with the City Administrator's Office.

(B) District boundary lines recorded on the zoning map are intended to follow lot lines, the centerlines of streets or alleys, the centerlines of streets or alleys projected, railroad rights-of-way lines, the center of watercourses or the corporate limit lines as they exist at the time of the enactment of this chapter. The Floodplain District is an exception and includes the actual area subject to inundation.

(C) Whenever any street, alley or other public way is vacated, the zoning district adjoining that of the vacated street, alley or public way shall be automatically extended to the center of the vacated area and all area included therein shall be then and henceforth subject to all regulations of the extended district.

(D) No annexation petition shall be considered unless and until a hearing has also been petitioned for placing the annexed territory in a zoning district or districts. No building permits shall be issued in annexed territory until the hearing has been held and assigned a zoning district.

(E) It shall be the responsibility of the City Engineer to maintain and amend the zoning map. The Zoning Administrator shall make or cause to have made any corrections or amendments to said map after all of the procedures outlined in this chapter for the making of the revisions or amendments shall have been followed by the Planning Commission and the Council.

(F) Amendments to this zoning map shall be recorded on the map within 15 days after adoption by the Council. The copy of the official zoning map shall be kept on file in the office of the City Engineer and shall be open to public inspection at all times during which the office of the Zoning Administrator is customarily open.
(‘83 Code, SEC. 11.20, Subd. 2) (Ord. 537, effective 7-1-83)

RESIDENTIAL DISTRICTS**SEC. 152.035 FARM RESIDENCE (FR).**

(A) *Purpose.* The major purpose of this district is to allow existing agricultural and conservancy areas in the outlying parts of the city that does not have central sewer services. Limited residential development will be allowed in this district and clustering of housing units will be encouraged.

(B) *Permitted uses.*

- (1) Commercial agriculture and horticulture.
- (2) Farm buildings and structures.
- (3) Single-family residential structures.
- (4) Farm drainage and irrigation systems.

- (5) Roadside stands for the sale of agricultural products.
- (6) Historic sites.
- (7) Public recreation.
- (8) Essential services - telephone, telegraph, power lines and necessary appurtenant equipment and structures.
- (9) Signs subject to the standards in SEC. 152.177.
- (10) Churches, schools.
- (11) City buildings, including police and fire stations.
- (12) Solar structures. (Ord. 537, effective 7-1-83)
- (13) Bed and breakfast inns. (Ord. 37, 2nd Series, effective 9-16-86)

(C) *Accessory uses.*

- (1) Any incidental machinery, structure or buildings necessary to the conduct of agricultural, single-family residential, and other permitted uses subject to standards set forth in SEC. 152.167(A)(1).
- (2) Private garages, carports, screen houses, swimming pools and storage buildings for use of occupants of the principal structures subject to standards set forth in SEC. 152.167(A)(1). (Ord. 42, 2nd Series, effective 4-23-87)

(D) *Conditional uses.*

- (1) Multi-family residential.
- (2) Cemeteries.
- (3) Home occupations.
- (4) Agricultural products and livestock processing plants.
- (5) Hobby farms and stables.
- (6) Kennels.
- (7) Resorts.
- (8) Nursery and garden supplies.
- (9) Mining, sand and gravel operations.
- (10) Wind energy conversion systems.

(E) *Performance standards.*

(1) *Height regulations.*

(a) The maximum height of all buildings shall not exceed two and one-half stories or 35 feet.

(b) This height limitation shall not apply to grain elevators, silos, windmills, elevator lags, cooling towers, water towers, chimneys, and smokestacks, church spires, or wind energy conversion systems.

(2) *Front yard regulations.*

(a) Required setback distances from right-of-way.

<i>Road Right-of-Way</i>	<i>Road Classification</i>
70 ft.	State Highway
50 ft.	County Road
25 ft.	City Street

(b) Where a lot is located at the intersection of two or more roads or highways, there shall be a front yard setback on each road or highway side of each corner lot.

(3) *Side and rear yard regulations.* There shall be a side yard width of not less than ten feet on each side of the building and a rear yard of not less than 50 feet.

(4) *Lot width and depth regulations.*

(a) For farm dwellings - none.

(b) For non-farm single-family residences - minimum width of 200 feet and depth of 200 feet.

(5) *Lot area regulations.*

(a) For farm residences - none.

(b) For non-farm single-family residences - one acre.

(6) *Location of structures.* Structures shall be so located on each lot as to permit resubdivision if and when central sewer and water systems become available.

(7) *General requirements.* Additional requirements for parking, signs, sewage systems and other regulations are set forth in SEC. 152.155 through SEC. 152.181. ('83 Code, SEC. 11.25)

SEC. 152.036 SINGLE-FAMILY RESIDENTIAL (R-1).

(A) *Purpose.* The major purpose of this district is to allow low density single-family dwelling units in the developing portions of the city where central sewer and water is available.

(B) *Permitted uses.*

- (1) Single-family residential structures.
 - (2) Public recreation including parks and playgrounds.
 - (3) Historic sites.
 - (4) Churches, chapels, temples and synagogues including parish houses.
 - (5) Elementary schools.
 - (6) City buildings including police and fire stations.
 - (7) Signs subject to standards in SEC. 152.177.
 - (8) Essential services - telephone, telegraph, and power lines and necessary appurtenant equipment and structures.
 - (9) Solar structures.
 - (10) Home occupations.
- (Ord. 537, effective 7-1-83)

(C) *Accessory uses.*

- (1) Any incidental structure or building necessary to the conduct of a permitted use subject to standards set forth in SEC. 152.167(A)(1).
- (2) Private garages, carports, screen houses, swimming pools and storage buildings for use of occupants of the principal structures subject to standards set forth in SEC. 152.167(A)(1).
(Ord. 42, 2nd Series, effective 4-23-87)

(D) *Conditional uses.*

- (1) Junior and senior high schools.
- (2) Lodging and rooming houses.
- (3) Cemeteries.
- (4) Local neighborhood commercial.
- (5) Wind energy conversion systems.

(E) *Performance standards.*

- (1) *Height regulations.* The maximum height of all buildings shall not exceed two and one-half stories or 35 feet.
- (2) *Front yard regulations.*
 - (a) Required setback distances.

<i>Road Right-of-Way</i>	<i>Road Classification</i>
70 ft.	State Highway
50 ft.	County Road
25 ft.	City Street

(Ord. 537, effective 7-1-83)

(b) Where a lot is located at the intersection of two or more roads or highways, there shall be a front yard setback on each road or highway side of the corner lot. Upon proper application therefor, the Zoning Administrator may authorize, in writing, a yard of not less than 15 feet on not more than one yard of a corner lot if a reduced yard is appropriate under the circumstances. In determining whether an application for a reduced corner lot yard is appropriate, the Zoning Administrator shall consider all relevant information available, including, but not limited to, the extent to which maintenance of maximum setback is desirable given the present and anticipated use of the public ways adjoining the lot in question and the distance between the proposed structure on the corner lot and the principal structure on the adjacent lot (a distance less than that required for a rear yard shall not be allowed).

(Ord. 45, 2nd Series, effective 7-18-87)

(3) *Side and rear yard regulations.*

(a) Side yard - 5 feet.

(b) Rear yard - 18 feet.

(4) *Lot area.* The minimum lot size shall be 7,500 square feet.

(5) *Lot width and depth regulations.*

(a) Lot width - 70 feet.

(b) Lot depth - 100 feet.

(6) *General regulations.* Additional regulations for parking, signs, sewage systems and other regulations are set forth in SEC. 152.155 through SEC. 152.181.

(7) *Dwelling structures.* Dwelling structures shall meet the following minimum standards:

(a) Exceed 24 feet in width.

(b) Have a minimum floor area of 800 square feet.

(c) Placed on a permanent foundation.

(d) Meet all other requirements of law and city code provisions.

('83 Code, SEC. 11.26)

SEC. 152.037 ONE- AND TWO-FAMILY RESIDENTIAL (R-2).

(A) *Purpose.* The major purpose of this district is to allow one- or two-family residential dwelling units at medium density in or near major activity centers or highways.

(B) *Permitted uses.*

- (1) Any use permitted in the R-1 District.
- (2) Two-family dwelling units. (Ord. 537, effective 7-1-83)
- (3) Bed and breakfast inns. (Ord. 37, 2nd Series, effective 9-16-86)

(C) *Accessory uses.* Any accessory use permitted in the R-1 District.

(D) *Conditional uses.*

- (1) Any conditional uses permitted in the R-1 District.
- (2) Four-family dwellings.
- (3) Townhouses and condominiums.
- (4) Mobile home parks.

(E) *Performance standards.*

(1) *Height regulations.* The maximum height of all buildings shall not exceed two and one-half stories or 35 feet.

(2) *Front yard regulations.*

(a) Required setback distances.

<i>Road Right-of-Way</i>	<i>Road Classification</i>
70 ft.	State Highway
50 ft.	County Road
25 ft.	City Street

(Ord. 537, effective 7-1-83)

(b) Where a lot is located at the intersection of two or more roads or highways, there shall be a front yard setback on each road or highway side of the corner lot. Upon proper application therefor, the Zoning Administrator may authorize, in writing, a yard of not less than 15 feet on not more than one yard of a corner lot if a reduced yard is appropriate under the circumstances. In determining whether an application for a reduced corner lot yard is appropriate, the Zoning Administrator shall consider all relevant information available, including, but not limited to, the extent to which maintenance of maximum setback is desirable given the present and anticipated use of the public ways adjoining the lot in question and the distance between the proposed structure on the corner lot and the principal structure on the adjacent lot (a distance less than that required for a rear yard shall not be allowed).

(Ord. 45, 2nd Series, effective 7-18-87)

(3) *Side and rear yard regulations.*

(a) Side yard - 4 feet.

(b) Rear yard - 18 feet.

(4) *Lot area.*

- (1) Single-family dwelling unit - 6,000 square feet.
- (2) Two-family dwelling unit - 6,000 square feet per unit.

(5) *Lot width and depth.*

- (a) Lot width - 50 feet.
- (b) Lot depth - 100 feet.

(6) *General regulations.* Additional requirements for parking, signs, sewage systems and other items are set forth in SEC. 152.155 through SEC. 152.181.

(7) *Dwelling structure standards.* Dwelling structures shall meet the following minimum standards:

- (a) Exceed 24 feet in width.
- (b) Have a minimum floor area of 800 square feet.
- (c) Placed on a permanent foundation.
- (d) Meet all other requirements of law and city code provisions.

(‘83 Code, SEC. 11.27)

SEC. 152.038 MULTI-FAMILY RESIDENTIAL (R-3).

(A) *Purpose.* The major purpose of this district is to allow multi-family dwelling units including apartments and townhouses at or adjacent to major commercial concentrations or highways.

(B) *Permitted uses.*

- (1) Any use permitted in the R-2 District.
- (2) Townhouses.
- (3) Apartment buildings.

(C) *Accessory uses.*

- (1) Any accessory use permitted in the R-2 District.
- (2) Putting greens, shuffle board courts, picnic areas, swimming pools, community buildings and similar recreational or service areas for the use of the residents of the buildings.

(D) *Conditional uses.* Any use permitted in the R-2 District.(E) *Performance standards.*

- (1) *Height regulations.* The maximum height of all buildings shall not exceed three stories or 40 feet.

(2) *Front yard regulations.*

(a) *Required setback distances.*

Road Right-of-Way	Road Classification
70 ft.	State Highway
50 ft.	County Road
25 ft.	City Street

(Ord. 537, effective 7-1-83)

(b) *Intersections.* Where a lot is located at the intersection of two or more roads or highways, there shall be a front yard setback on each road or highway side of the corner lot. Upon proper application therefor, the Zoning Administrator may authorize, in writing, a yard of not less than 15 feet on not more than one yard of a corner lot if a reduced yard is appropriate under the circumstances. In determining whether an application for a reduced corner lot yard is appropriate, the Zoning Administrator shall consider all relevant information available, including, but not limited to, the extent to which maintenance of maximum setback is desirable given the present and anticipated use of the public ways adjoining the lot in question and the distance between the proposed structure on the corner lot and the principal structure on the adjacent lot (a distance less than that required for a rear yard shall not be allowed).

(Ord. 45, 2nd Series, effective 7-18-87)

(3) *Side and rear yard regulations.*

(a) Side yard - 15 feet.

(b) Rear yard - 35 feet.

(4) *Lot area.*

(a) The following minimum lot areas shall be required for each multi-family unit:

One-bedroom unit	2,000 square feet
Two-bedroom unit	2,600 square feet
Three-bedroom unit	2,700 square feet
Four or more bedrooms	3,000 square feet

(b) No multi-family building shall be erected that provides less than 7,500 square feet of lot area.

(5) *Lot coverage.* The maximum lot coverage of multi-family units including necessary buildings shall not exceed 35%.

(6) *Parking sign requirements.* Other general requirements for parking, signs, and the like, are set forth in SEC. 152.155 through SEC. 152.181.

(7) *Dwelling structure standards.* Dwelling structures shall meet the following minimum standards:

- (a) Exceed 24 feet in width.
 - (b) Have a minimum floor area of 800 square feet.
 - (c) Placed on a permanent foundation.
 - (d) Meet all other requirements of law and city code provisions.
- (‘83 Code, SEC. 11.28) (Ord. 537, effective 7-1-83)

BUSINESS DISTRICTS

SEC. 152.050 CENTRAL BUSINESS DISTRICT (C-1).

(A) *Purpose.* The purpose of this district is to encourage the continuation of a viable downtown area by allowing retail, service, office and entertainment facilities as well as public and semi-public uses. In addition, residential uses will be allowed to locate above the commercial establishments.

(B) *Permitted uses.* Commercial establishments offering merchandise or services to the general public in return for compensation. The establishment to include, but not be limited to, the following:

- (1) Retail establishments such as groceries, bakery, department stores, hardware, drug, clothing and furniture stores.
- (2) Personal services such as laundry, barber, shoe repair shop and photography studios.
- (3) Existing drinking establishments, including restaurants, cafes and supper clubs.
- (4) Professional services such as medical and dental clinics, architects and attorneys fees.
- (5) Repair services such as jewelry and radio and television repair shops.
- (6) Banks, finance, insurance and real estate services.
- (7) Entertainment and amusement services such as motion picture theaters, bowling alleys, art galleries.
- (8) Lodging services such as hotel and motel.
- (9) Public and semi-public buildings such as post office, city hall, fire and police stations.
- (10) Private clubs.
- (11) Hospitals and medical centers.
- (12) Automobile parking lots, parking garages, bus stations.
- (13) Solar structures. (Ord. 537, effective 7-1-83)
- (14) Churches, chapels, temples, and synagogues, including parish houses. (Ord. 57, 2nd Series, effective 7-22-89)

(C) *Conditional uses.*

- (1) Apartments, provided they are located above the first floor level.
- (2) Auto body shops.
- (3) On and off-sale liquor establishments.
- (4) Light industry such as printing shops that require direct contact with the public.
- (5) Wholesaling.
- (6) Integrated uses.
- (7) Extension or relocation of non-conforming uses.
- (8) Other uses which in the opinion of the Planning Commission and the Council are of the same general character as the permitted uses and which will not be detrimental to the Central Business District or any other district. (Ord. 60, 2nd Series, effective 3-22-90)

(D) *Accessory uses.* Uses incidental to the principal uses such as off-street parking and loading and unloading areas, storage of merchandise.

(E) *Performance standards.*

(1) *Height regulations.* The maximum height of any building shall be four stories or 45 feet.

(2) *Front yard regulations.*

(a) There shall be a front yard setback having a depth of not less than ten feet except in a block where two or more structures have been built facing the same street, the setback for the remaining lots in that block fronting on the same street shall be determined by the average setback of existing buildings.

(b) Where a lot is located at the intersection of two or more roads or highways, there shall be a front yard setback on each road or highway side of each corner lot. No accessory buildings shall project beyond the front yard of either road.

(3) *Side and rear yard regulations.*(a) *Side yard.*

1. No side yard is required on commercial lots where no openings are provided in the walls of commercial buildings adjacent to the interior lot lines.

2. There shall be a side yard on the street side of all corner lots which shall have a width of not less than 50% of the front yard depth required for the adjacent lot to the rear of the corner lot, when the adjacent lot fronts on the side of the corner lot. In no case should the side yard be less than 15 feet.

(b) *Rear yard.* The minimum rear yard shall be 15 feet.

(4) *Lot area and coverage standards.*(a) *Lot area.* None.

(b) *Lot coverage.* No restrictions except that space shall be reserved either inside or outside the building for the loading or unloading of goods, materials and merchandise on every commercial lot. The space shall not be less than 15 feet in width for every 50 feet of building width or fraction thereof, nor less than 30 feet in length, nor less than 15 feet in height, and shall be provided with access to a street unless provided otherwise by the means as customer or employee parking space on the same premises. The location, dimensions, and means of ingress and egress of the loading and unloading space shall be designated upon the plans and

specifications submitted for a building permit to the Planning Commission to determine therefrom whether or not this provision is being complied with.

(5) *Screening and fencing.* The city may require the screening or fencing of commercial uses on side and rear yards which face residential districts.

(6) *General regulations.* Requirements for signs, parking, shopping centers, and other regulations are set forth in SEC. 152.155 through SEC. 152.181. ('83 Code, SEC. 11.35)

SEC. 152.051 HIGHWAY BUSINESS DISTRICT (C-2).

(A) *Purpose.* This district is established to accommodate the type of businesses that are oriented to the traveling public and require highway access. To minimize unmanageable strip development, these districts should only allow the type of businesses that absolutely require highway access and exposure.

(B) *Permitted uses.*

- (1) Farm implement dealers.
- (2) Drive-in restaurant.
- (3) Recreation equipment sales.
- (4) Motels and hotels.
- (5) Auto service station.
- (6) Seasonal produce stand.
- (7) Auto sales lot.
- (8) Cafes and restaurants.
- (9) Solar structures. (Ord. 537, effective 7-1-83)

(10) Churches, chapels, temples, and synagogues, including parish houses. (Ord. 57, 2nd Series, effective 7-22-89)

(C) *Accessory uses.* The same accessory uses as permitted in the C-1 District. (Ord. 537, effective 7-1-83)

(D) *Conditional uses.*

- (1) Drive-in movie theater.
- (2) Campgrounds.
- (3) Wind energy conversion systems.
- (4) Integrated uses.
- (5) Extension or relocation of nonconforming uses.

(6) Other uses which in the opinion of the Planning Commission and the Council are of the same general character as the permitted uses and which will not be detrimental to the Highway Business District or any other district. (Ord. 60, 2nd Series, effective 3-22-90)

(E) *Performance standards.*

(1) *Height regulations.* The maximum height of all buildings shall not exceed two and one-half stories or 35 feet.

(2) *Service roads (C-2).*

(a) C-2 Districts shall be located only adjacent to existing and proposed major highways. Each C-2 District shall be provided with a service road between the highway and the business establishment. To the extent possible, service roads shall have access only to the major highways and highway-business oriented traffic shall be discouraged from local residential streets.

(b) Service road standards.

1. Each service road shall have a minimum of 30 feet of right-of-way exclusive of adjoining thoroughfare right-of-way.

2. Each service road shall be at least 24 feet wide and must be surfaced and have curbs.

3. Two-way traffic shall be allowed on service roads.

4. No parking shall be allowed on service roads.

5. Access from service roads to thoroughfares shall be no more frequent than one access for each 500 feet of thoroughfare frontage.

6. Maintenance of service roads shall be the obligation of either the city or the serviced businesses.

(3) *Setback regulations from road right-of-way.*

(a) State highway - 130 feet.

(b) County road - 110 feet.

(c) City street - 90 feet.

(d) Side lot - 20 feet.

(e) Rear lot - 35 feet.

(f) Lot line along Residential District - 75 feet.

(g) The Council may also require screening and fencing along the lot lines adjacent to residential districts. (Ord. 537, effective 7-1-83)

(h) Lots platted prior to June 9, 1964 may use lot size and setback regulations in effect prior to the effective date of this chapter. (Ord. 12, 2nd Series, effective 5-15-84)

(4) *General standards.* Other standards and regulations related to parking, signs, and the like, are set forth in SEC. 152.155 through SEC. 152.181. ('83 Code, SEC. 11.36)

SEC. 152.052 SHOPPING CENTER DISTRICT (C-3).

(A) *Purpose.* The purpose of this district is to allow those types of businesses found in shopping centers and which serve several residential neighborhoods. These areas should have good accessibility and to the extent possible should be integrated with the public facilities as community buildings, libraries, health centers, and day care centers. (Ord. 537, effective 7-1-83)

(B) *Permitted uses.* Retail shopping center developed under the following conditions: an overall concept plan shall be submitted and approved by the city including architectural style of all structures, parking, driveways, landscaping and screening and adequate spaces for future community facilities when said facilities are to be part of the center; and, initial construction in new shopping centers shall include a minimum of 20,000 square feet of floor area. Individual stores, shops and businesses consistent with the following uses are allowed and are not subject to the concept plan approval and minimum square feet conditions required of retail shopping centers in this section:

(1) Stores and shops selling the personal service or goods over a counter. These include antiques, art and school supplies, bakeries, barber shop, beauty parlor, bicycles, books and stationery, candy, cameras and photographic supplies, carpets and rugs, catering establishments, china and glassware, Christmas tree sales, clothes pressing, clothing and costume rental, custom dressmaking, department stores and junior department stores, drugs, dry goods, electrical and household appliances, florists, food, furniture, furrier shops, garden supplies, gifts, hardware, hats, hobby shops, interior decorating, jewelry, watch repair, laundry and dry cleaning pick up, laundromats, leather goods and luggage, locksmith shops, musical instruments, office supply, paint and wallpaper, phonograph records, photography studios, restaurants, shoes, sporting goods, tailoring, theater, except open air drive-in, tobacco, toys, variety stores, wearing apparel, grocery store and off-sale liquor store.

(2) Offices for doctors, dentists, lawyers, real estate and similar uses to serve the adjoining residential area.

(3) Automobile service stations.

(4) Community facilities such as library, swimming pool, health center, day care center, religious facilities or community center.

(5) On-sale wine and/or 3.2 beer in conjunction with a restaurant facility.

(6) Health clubs or athletic clubs and facilities.

(7) Animal hospital or clinic when contained within a building.

(8) Small engine and appliance repair conducted entirely within a building and accessory to a principal use.

(9) Commercial recreation including theater, athletic club, billiard room, and similar facilities when contained within a building.

(10) Retail sales of auto accessories except that of installation facilities.

(11) Hotels and motels.

(12) Solar energy systems.

(Ord. 97, 2nd Series, effective 4-20-95)

(C) *Accessory uses.* Same accessory uses as in C-1 District.

(D) *Conditional uses.*

(1) Outdoor display or sales conducted by an occupant of the shopping center.

(2) On-sale liquor.

(3) Multiple dwellings.

(4) Wind energy conversion systems.

(5) Service bays as accessory uses for the installation of auto accessories in

conjunction with an appliance store or auto accessory store provided there are no more than two bays, shall be screened and oriented as required by the Council.

(6) Other uses, which in the opinion of the Planning Commission and Council, are of the same general character as the permitted uses, and will not have an adverse effect on the Central Business District.

(E) *Performance standards.*

(1) *Height regulations.* The maximum height of all buildings shall not exceed two and one-half stories or 35 feet.

(2) *Setback requirements.*

(a) State highway - 70 feet.

(b) County road - 50 feet. (Ord. 537, effective 7-1-83)

(c) City street - 50 feet. (Ord. 97, 2nd Series, effective 4-20-95)

(d) Side lot - 20 feet.

(e) Rear lot - 35 feet.

(f) Lot line along residential district - 50 feet.

(g) The Council may also require screening and fencing along the lot lines adjacent to residential districts.

(3) *Frontage roads.* The Council may require frontage roads, if appropriate. If frontage roads are required, the same setbacks and frontage road standards as listed in SEC. 152.051(E) shall be applicable.

(4) *General requirements.* Other standards and regulations related to parking, signs, and the like, are set forth in SEC. SEC. 152.155 through 152.181. (Ord. 537, effective 7-1-83) ('83 Code, SEC. 11.37)

INDUSTRIAL DISTRICTS

SEC. 152.065 HEAVY INDUSTRY (I-1).

(A) *Purpose.* This district is intended to allow for various industrial uses including those that are heavy industries. As such, these areas should be separated from residential areas.

(B) *Permitted uses.*

(1) The manufacturing, compounding, assembly, packaging, treatment or storage of the following products or materials: brewing, cement, concrete, stone cutting, brick, glass, batteries (wet cell), ceramic products, mill working, metal polishing and plating, paint (pigment manufacturing), vinegar works, rubber products, plastics, meat packing, flour, feed, grain milling, coal or tar asphalt distillation, rendering works, distillation of bones, sawmill, lime, gypsum, plaster of Paris, glue, size, cloth, glass and glass products, machinery and electrical equipment, machine tools, and similar uses.

(2) Metal and metal products, including ornamental ironwork but not including magnesium foundries.

(3) Crude oil, gasoline, or other liquid storage tanks.

(4) Storage of construction materials of all types completely within a building.

(5) Concrete ready-mix plants and asphalt plants.

(6) Paper products.

(7) Porcelain products.

(8) Solar structures.

(C) *Accessory uses.*

(1) Off-street parking, storage garage, and buildings and loading as regulated in this chapter.

(2) Buildings temporarily located for purposes of construction.

(3) Essential public service facilities.

(4) Essential security and safety facilities as approved by the Council.

(D) *Conditional uses.*

(1) Storage, utilization, or manufacture of materials or products which could decompose by detonation.

(2) Refuse or garbage disposal.

(3) Auto wrecking, junk yard, used auto parts (open storage) and similar uses.

(4) Incineration or reduction of waste material other than customarily incidental to a principal use.

(5) Poison, fertilizer, fuel briquettes.

(6) Kilns, or other heat-processes fired by means other than electricity.

(7) Open storage (primary or secondary use) of any type.

(8) Wind energy conversion systems. (Ord. 537, effective 7-1-83)

(9) Integrated uses.

(10) Extension or relocation of non-conforming uses.

(11) Outside aboveground storage of Class 1B flammable or combustible liquids with a 30,000 gallon maximum capacity per tank and a total capacity of not more than 120,000 gallons within a radius of 200 feet. (Ord. 151, 2nd Series, passed 6-11-02)

(12) Other uses which in the opinion of the Planning Commission and the Council are of the same general character as the permitted uses and which will not be detrimental to the Heavy Industry District or any other district. (Ord. 60, 2nd Series, effective 3-22-90; Am. Ord. 151, 2nd Series, passed 6-11-02)

(E) *Prohibited uses.*

(1) Distillation of bone, coal, tar, petroleum, grain or wood.

(2) Manufacturing of bulk storage of explosive.

(3) Fertilizer manufacturing, compost or storage processing of garbage, offal, dead animals, refuse or rancid fats.

(4) Livestock feeding yards or slaughter houses, or processing plants.

(F) *Performance standards.*

(1) *Height regulations.* The maximum height of all buildings shall not exceed three stories or 40 feet.

(2) *Setback regulations.*

- (a) State highway - 70 feet.
- (b) County road - 50 feet.
- (c) City street - 30 feet.
- (d) Side lot line - 35 feet.
- (e) Rear lot line - 55 feet.
- (f) Lot line along Residential District - 75 feet.

(g) The Council may require fencing and screening along the lot lines adjacent to Residential Districts.

(3) *Lot width.* The minimum width shall be 150 square feet.

(4) *Lot area.* The minimum lot area shall be 40,000 square feet.

(5) *General regulations.* Standards and regulations related to signs, parking, and the like, are set forth in SEC. 152.155 through SEC. 152.181. ('83 Code, SEC. 11.45)

SEC. 152.066 LIGHT INDUSTRY.

(A) *Purpose.* This district is intended to provide for industrial uses that may be suitably located in areas of relatively close proximity to non-industrial development. As such, industries that pose problems of air or noise pollution will be restricted from this district.

(B) *Permitted uses.*

- (1) Wholesale business establishments.
- (2) Warehouse, packing and crating establishment, truck yard or terminal.
- (3) Contractor's shops, roofing, electrical, blacksmith, carpentry, glazing, heating, plumbing, painting, paperhanging, ventilating, welding, upholstering, fencing, buildings.
- (4) Storage yards for building material, coal, wood, and ice.
- (5) Laboratories for research and quality control.
- (6) Public and public utility uses.
- (7) The manufacture, compounding, processing, packing or treatment of the products as candy, cosmetics, drugs, perfumes, pharmaceuticals, toiletries and food products except the rendering of fats and oils.
- (8) The manufacture of pottery and figurines or other similar ceramic products, using only previously pulverized clay, and kilns fired only by electricity or gas.
- (9) The manufacture and maintenance of billboards and commercial advertising structures.
- (10) The manufacture of boats, cameras, electrical appliances, radio and television receivers, musical instruments, medical appliances and photographic equipment except film.
- (11) The manufacture of sporting and athletic equipment, small tools, toys, children's vehicles, caskets, and burial vaults.
- (12) Trade schools.

(13) Offices.

(14) Animal clinics.

(15) Solar structures.

(C) *Accessory uses.* All accessory uses allowed in the I-1 District.

(D) *Conditional uses.*

(1) Dwellings for watchmen or custodians of industrially-used property only.

(2) Outdoor storage of vehicles or materials or open sales lot.

(3) Restaurants, lunch counters, confectioneries to serve the employees of the district.

(4) Mining and extraction.

(5) Manufacturing, refining and processing of chemicals.

(6) Wind energy conversion systems. (Ord. 537, effective 7-1-83)

(7) Integrated uses.

(8) Extension or relocation of nonconforming uses.

(9) Outside aboveground storage of Class 1B flammable or combustible liquids with a 30,000 gallon maximum capacity per tank and a total capacity of not more than 120,000 gallons within a radius of 200 feet. (Ord. 151, 2nd Series, passed 6-11-02)

(10) Other uses which in the opinion of the Planning Commission and the Council are of the same general character as the permitted uses and which will not be detrimental to the Light Industry District or any other district. (Ord. 60, 2nd Series, effective 3-22-90; Am. Ord. 151, 2nd Series, passed 6-11-02)

(E) *Performance standards.*

(1) *Height regulations.* The maximum height of all buildings shall not exceed three stories or 40 feet.

(2) *Setback regulations.*

(a) State highway - 70 feet.

(b) County road - 50 feet.

(c) City street - 25 feet.

(d) Side lot line - 35 feet.

(e) Rear lot line - 50 feet.

(f) Lot line along Residential District - 75 feet.

(g) The Council may require fencing and screening along the lot lines adjacent to Residential Districts. (Ord. 537, effective 7-1-83)

(h) Lots platted prior to June 9, 1964 may use lot size and setback regulations in effect prior to the effective date of this chapter. (Ord. 12, 2nd Series, effective 5-15-84)

(3) *Lot width.* The minimum lot width shall be 100 feet.

(4) *Lot area.* The minimum lot area shall be 20,000 square feet.

(5) *General regulations.* Standards and regulations related to signs, parking, and the like, are set forth in SEC. 152.155 through SEC. 152.181. (Ord. 537, effective 7-1-83)

SPECIAL USE DISTRICTS

SEC. 152.080 INSTITUTIONAL (IN).

(A) *Purpose.* The purpose of this district is to permit various types of necessary public and semi-public uses such as educational, religious and government structures.

(B) *Permitted uses.*

(1) Churches, chapels, temples and synagogues including Sunday schools and parish houses meeting the requirements of the R-1 Zone.

(2) Community center.

(3) Convent.

(4) Educational institutions, both public and private, and including pre-schools, elementary and senior high schools and colleges and universities and incidental uses when situated on the same estate or unit of property.

(5) Exhibition hall.

(6) Fire station.

(7) Government office buildings.

(8) Medical clinics and pharmacies, hospitals and sanatoriums, philanthropic or eleemosynary institutions, correctional institutions and animal hospitals.

(9) Park, playgrounds, and swimming pools.

(10) Police and fire stations.

(11) Solar structures.

(C) *Conditional uses.*

(1) All uses allowed in the R-1 Zone subject to the requirements for R-1 Zone.

(2) Those other uses which in the opinion of the Planning Commission, are of the same general character as those listed as permitted uses and which will not be detrimental to the I District. No commercial activity except as incidental to the operation of the uses set forth in division (B) above and no industries or manufacturing activity shall be permitted.

(D) *Performance standards.*

(1) *Height regulations.* No building shall exceed a height of two and one-half stories or 35 feet.

(2) *Setback requirements.* The minimum setback from the property line shall be 50 feet.

(3) *Lot size.* None.

(4) *Off-street loading and unloading berths.*

(a) *Health and medical institutions.* One berth for buildings containing 10,000 to 100,000 square feet of gross floor area plus one additional berth for each additional 100,000 square feet of gross floor area or fraction thereof.

(b) *Educational and religious institutions.* One berth for buildings containing

10,000 to 200,000 square feet of gross floor area, plus one additional loading berth for each additional 200,000 square feet of gross floor area or fraction thereof.

(c) *Recreational and social facilities.* One berth for buildings up to 10,000 square feet of gross floor area, plus one additional berth for each additional 100,000 square feet of gross building area up to 500,000 square feet, plus one additional berth for each additional 500,000 square feet of gross building area or fraction thereof in excess of 500,000 square feet.

(5) *General requirements.* Standards and regulations related to signs, parking, and the like, are set forth in SEC. 152.155 through SEC. 152.181. (Ord. 537, effective 7-1-83) ('83 Code, SEC. 11.50)

FLOODPLAIN DISTRICT (FP)

SEC. 152.090 STATUTORY AUTHORIZATION, FINDINGS OF FACT AND PURPOSE.

(A) *Statutory authorization.* The Legislature of the State of Minnesota, has, in M.S. Chapter 104, as it may be amended from time to time, delegated the responsibility to local government units to adopt regulations designed to minimize flood losses.

(B) *Findings of fact.*

(1) The flood hazard areas of the city are subject to periodic inundation which results in potential loss of life, loss of property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety, and general welfare.

(2) This section is based upon a reasonable method of analyzing flood hazards which is consistent with the standards established by the Minnesota Department of Natural Resources.

(C) *Statement of purpose.* It is the purpose of this subchapter to promote the public health, safety, and general welfare and to minimize those losses described in this section. ('83 Code, SEC. 11.55, Subd. 1)

SEC. 152.091 GENERAL PROVISIONS.

(A) *Land to which subchapter applies.* This subchapter shall apply to all lands within the jurisdiction of the city shown on the official zoning map and/or the attachments thereto as being located within the boundaries of the Floodway or Flood Fringe District or AO Zone.

(B) *Establishment of official zoning map.* The official zoning map together with all materials attached thereto is hereby adopted by reference and declared to be a part of this subchapter. The attached materials shall include the flood insurance study for the city prepared by the Federal Insurance Administration dated September, 1977, the flood boundary and floodway map dated September 1, 1977, and flood insurance rate map dated September 1, 1977. The official zoning map shall be on file in the office of the Clerk-Treasurer and the Zoning Administrator.

(C) *Interpretation.*

(1) In their interpretation and application, the provisions of this subchapter are minimum requirements and should be liberally construed in favor of the Council and are not a

limitation or repeal of any other powers granted by state statutes.

(2) The boundaries of the zoning districts are determined by scaling distances on the official zoning map. Where interpretation is needed as to the exact location of the boundaries of a district as shown on the official zoning map, as for example where there appears to be a conflict between a mapped boundary and actual field conditions and where there is a formal appeal of the decision of the Zoning Administrator, the Board of Adjustment shall make the necessary interpretation. All decisions will be based on elevations on the regional (100-year) flood profile and other available technical data. Persons contesting the location of the district boundaries will be given a reasonable opportunity to present their case to the Board and to submit technical evidence.

(D) *Abrogation and greater restrictions.* It is not intended by this subchapter to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this subchapter imposes greater restrictions, the provisions of this subchapter will prevail.

(E) *Warning and disclaimer of liability.* This subchapter does not imply that areas outside the flood plain districts or land uses permitted within the districts will be free from flooding or flood damages. This subchapter does not create liability on the part of the city or any officer or employee of the city for any flood damages that result from reliance on this subchapter or any administrative decision lawfully made under this subchapter.

(F) *Severability.* If any section, clause, provision, or portion of this subchapter is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this subchapter will not be affected thereby.
(‘83 Code, SEC. 11.55, Subd. 2)

SEC. 152.092 ESTABLISHMENT OF ZONING DISTRICTS.

(A) Districts.

(1) *Floodway District.* The Floodway District includes those areas designated as floodway on the flood boundary and floodway map adopted in SEC. 152.090.

(2) *Flood Fringe District.* The Flood Fringe District includes those areas designated as floodway fringe on the flood boundary and floodway map adopted in SEC. 152.090.

(B) *Compliance.* No new structure or land may hereafter be used and no structure shall be located, extended, converted, or structurally altered without full compliance with the terms of this subchapter and other applicable regulations which apply to uses within the jurisdiction of this subchapter. Within the Floodway and Flood Fringe Districts, all uses not listed as permitted uses or conditional uses herein, are prohibited. In addition, a caution is provided here that:

(1) New manufactured homes, replacement manufactured homes and certain travel trailers and travel vehicles are subject to the general provisions of this subchapter and specifically SEC. 152.098.

(2) Modifications, additions, structural alterations or repair after damage to existing nonconforming structures and nonconforming uses of structures or land are regulated by the general provisions of this subchapter and specifically SEC. 152.100 and SEC. 152.115 through SEC. 152.117.

(3) As-built elevations for elevated or flood proofed structures must be certified by ground surveys and flood proofing techniques must be designed and certified by a registered professional engineer or architect as specified in the general provisions of this subchapter and specifically as stated in SEC. 152.099.

(‘83 Code, SEC. 11.55, Subd. 3)

SEC. 152.093 FLOODWAY DISTRICT (FW).

(A) *Permitted uses.* Uses which are permitted in the Floodway District (FW) are:

- (1) General farming, pasture, grazing, outdoor plant nurseries, horticulture, truck farming, forestry, sod farming and wild crop harvesting.
- (2) Industrial-commercial loading areas, parking areas and airport landing strips.
- (3) Private and public golf courses, tennis courts, driving ranges, archery ranges, picnic grounds, boat launching ramps, swimming areas, parks, wildlife and nature preserves, game farms, fish hatcheries, shooting preserves, target ranges, trap and skeet ranges, hunting and fishing areas, and single or multiple purpose recreational trails.
- (4) Residential lawns, gardens, parking areas and play areas.

(B) *Standards for floodway permitted uses.* A use in the Floodway District (FW):

- (1) Must have a low flood damage potential.
- (2) Must be permissible in the underlying zoning district if one exists.
- (3) Must not obstruct flood flows or increase flood elevations and must not involve structures, fill, obstructions, excavations or storage of materials or equipment.

(C) *Conditional uses.* Conditional uses authorized in the Floodway District (FW) are:

(1) Structures accessory to the permitted uses listed above and the conditional uses listed below.

- (2) Extraction and storage of sand, gravel, and other materials.
- (3) Marinas, boat rentals, docks, piers, wharves, and water control structures.
- (4) Railroads, streets, bridges, utility transmission lines, and pipelines.
- (5) Storage yards for equipment, machinery, or materials.
- (6) Placement of fill.
- (7) Travel trailers and travel vehicles either on individual lots of record or in existing or new subdivisions or commercial or condominium type campgrounds, subject to the exemptions and provisions of SEC. 152.098.
- (8) Structural works for flood control such as levees, dikes and floodwalls constructed to any height where the intent is to protect individual structures and levees or dikes where the intent is to protect agricultural crops for a frequency flood event equal to or less than the ten-year frequency flood event.

(D) *Standards for floodway conditional uses.*

(1) *All uses.* No structure (temporary or permanent), fill (including fill for roads and levees), deposit, obstruction, storage of materials, or equipment, or other uses may be allowed as a conditional use that will cause any increase in the stage of the 100-year or regional flood or cause an increase in flood damages in the reach or reaches affected.

(2) *Administrative provisions.* All Floodway District conditional uses are subject to the procedures and standards contained in SEC. 152.099.

(3) *Underlying zoning district.* The Floodway District conditional use must be permissible in the underlying zoning district if one exists.

(4) *Fill.*

(a) Fill, dredge spoil and all other similar materials deposited or stored in the Floodway District must be protected from erosion by vegetative cover, mulching, riprap or other acceptable method.

(b) Dredge spoil sites and sand and gravel operations will not be allowed in the Floodway District unless a long-term site development plan is submitted which includes an erosion/sedimentation prevention element to the plan.

(c) As an alternative, and consistent with division (b) above, dredge spoil disposal and sand and gravel operations may allow temporary, on-site storage of fill or other materials which would have caused an increase to the stage of the 100-year or regional flood but only after the city has received an appropriate plan which assures the removal of the materials from the Floodway District based upon the flood warning time available. The conditional use permit must be filed and tracted with the property in the office of the County Recorder.

(5) *Accessory structures.* Accessory structures in the Floodway District (FW):

(a) Must not be designed for human habitation.

(b) May, if permitted, be constructed and placed on the building site so as to offer the minimum obstruction to the flow of flood waters.

1. Whenever possible, structures shall be constructed with the longitudinal axis parallel to the direction of flood flow; and

2. So far as practicable, structures shall be placed approximately on the same flood flow lines as those of adjoining structures.

(c) Must be elevated on fill or structurally dry flood proofed in accordance with the FP-1 or FP-2 flood proofing classifications in the State Building Code. As an alternative, an accessory structure may be flood proofed to the FP-3 or FP-4 flood proofing classification in the State Building Code provided the accessory structure constitutes a minimal investment, does not exceed 500 square feet in size, and for a detached garage, the detached garage must be used solely for parking of vehicles and limited storage. All flood proofed accessory structures must meet the following additional standards, as appropriate:

1. The structure must be adequately anchored to prevent flotation, collapse or lateral movement of the structure and must be designed to equalize hydrostatic flood forces on exterior walls; and

2. Any mechanical and utility equipment in a structure must be elevated to or above the regulatory flood protection elevation or properly flood proofed.

(6) *Storage of materials and equipment.*

(a) The storage or processing of materials in the Floodway District that are, in time of flooding, flammable, explosive, or potentially injurious to human, animal, or plant life is prohibited.

(b) Storage of other materials or equipment in the Floodway District may be allowed if they are readily removable from the area within the time available after a flood warning and in accordance with a plan approved by the city.

(7) *Structural works.* Structural works for flood control in the Floodway District that will change the course, current or cross-subchapter of protected wetlands or public waters are subject to the provisions of M.S. Chapter 1036, as it may be amended from time to time. Community-wide structural works for flood control intended to remove areas from the regulatory flood plain are not allowed in the Floodway District.

(8) *No flood increases.* A levee, dike or floodwall constructed in the Floodway District must not cause an increase in the 100-year or regional flood and the technical analysis must assume equal conveyance or storage loss on both sides of a stream. ('83 Code, SEC. 11.55, Subd. 4)

SEC. 152.094 FLOOD FRINGE DISTRICT (FF).

(A) *Permitted uses.* Permitted uses in the Flood Fringe District are those uses of land or structures listed as permitted uses in the underlying zoning use districts. If no pre-existing underlying zoning use districts exist, then any residential or non-residential structure or use of a structure or land shall be a permitted use in the Flood Fringe District provided the use does not constitute a public nuisance. All permitted uses shall comply with the standards for Flood Fringe permitted uses and the standards for all Flood Fringe permitted and conditional uses listed in this section.

(B) *Standards for flood fringe permitted uses.*

(1) All structures, including accessory structures, in the Flood Fringe District must be elevated on fill so that the lowest floor including basement floor is at or above the regulatory flood protection elevation. The finished fill elevation for structures shall be no lower than one foot below the regulatory flood protection elevation and the fill must extend at the elevation at least 15 feet beyond the outside limits of the structure.

(2) As an alternative to elevation on fill, accessory structures in the Flood Fringe District that constitute a minimal investment and that do not exceed 600 square feet for the outside dimension at ground level may be internally flood proofed in accordance with SEC. 152.093(D)(5)(c).

(3) The cumulative placement of fill where at any one time in excess of 1,000 cubic yards of fill is located on the parcel in the Flood Fringe District is allowable only as a conditional use, unless said fill is specifically intended to elevate a structure in accordance with division (B)(1) of this section.

(4) The storage of any materials or equipment in the Flood Fringe District shall be elevated on fill to the regulatory flood protection elevation.

(5) The provisions of division (E) shall apply to uses in the Flood Fringe District.

(C) *Conditional uses.* Any structure that is not elevated on fill or flood proofed in accordance with divisions (B)(1) and (2), or any use of land that does not comply with the standards in divisions (B)(3) and (B)(4) above, are allowable only as a conditional use. An application for a conditional use shall be subject to the standards and criteria and evaluation procedures specified in this division (C), division (B) and SEC. 152.099(D).

(D) *Standards for flood fringe conditional uses.*

(1) Alternative elevation methods other than the use of fill may be utilized in the Flood Fringe District to elevate a structure's lowest floor above the regulatory flood protection elevation. These alternative methods may include the use of stilts, pilings, parallel walls, and the like, or above-grade, enclosed areas such as crawl spaces or tuck under garages. The base or floor of an enclosed area shall be considered above-grade and not a structure's basement or lowest floor if the enclosed area is above-grade on at least one side of the structure; and is designed to internally flood and is constructed with flood resistant materials; and is used solely for parking of vehicles, building access or storage. The above-noted alternative elevation methods are subject to the following additional standards:

(a) *Design and certification.* The structure's design and as-built condition must be

certified by a registered professional engineer or architect as being in compliance with the general design standards of the State Building Code and, specifically, that all electrical, heating, ventilation, plumbing and air conditioning equipment and other service facilities must be at or above the regulatory flood protection elevation or be designed to prevent flood water from entering or accumulating within these components during times of flooding.

(b) Specific standards for above-grade, enclosed areas. Above-grade, fully enclosed areas such as crawl spaces or tuck under garages must be designed to internally flood and the design plans must stipulate: that minimum area of openings in the walls where internal flooding is to be used as a flood proofing technique; when openings are placed in a structure's walls to provide for entry of flood waters to equalize pressures, the bottom of all openings must be no higher than one-foot above grade; openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of flood waters; and that the enclosed area will be designed of flood resistant materials in accordance with the FP-3 or FP-4 classifications in the State Building Code and will be used solely for building access, parking of vehicles or storage.

(2) Basements, as defined in this chapter, located in the Flood Fringe District are subject to the following:

(a) Residential basement construction is not allowed below the regulatory flood protection elevation.

(b) Non-residential basements may be allowed below the regulatory flood protection elevation provided the basement is structurally dry flood proofed in accordance with division (D)(3).

(3) All areas of non-residential structures including basements to be placed below the regulatory flood protection elevation, located in the Flood Fringe District, must be flood proofed in accordance with the structurally dry flood proofing classifications in the State Building Code. Structurally dry flood proofing must meet the FP-1 or FP-2 flood proofing classification in the State Building Code and this requires making the structure watertight with the walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and the effects of buoyancy. Structures flood proofed to the FP-3 or FP-4 classification are not permitted.

(4) When at any one time more than 1,000 cubic yards of fill or other similar material is located on a parcel in the Flood Fringe District for the activities as on-site storage, landscaping, sand and gravel operations, landfills, roads, dredge spoil disposal or construction of flood control works, an erosion/ sedimentation control plan must be submitted unless the city is enforcing a state approved shoreland management ordinance. In the absence of a state approved shoreland ordinance, the plan must clearly specify methods to be used to stabilize the fill on site for a flood event at a minimum of the 100-year or regional flood event. The plan must be prepared and certified by a registered professional engineer or other qualified individual acceptable to the city. The plan may incorporate alternative procedures for removal of the material from the flood plain if adequate flood warning time exists.

(5) Storage of materials and equipment.

(a) The storage or processing of materials in the Flood Fringe District that are, in time of flooding, flammable, explosive, or potentially injurious to human, animal, or plant life is prohibited.

(b) Storage of other materials or equipment in the Flood Fringe District may be allowed if readily removable from the area within the time available after a flood warning and in accordance with a plan approved by the city.

(6) The provisions of division (E) of this section also apply.

(E) *Standards for all flood fringe uses.*

(1) *Vehicular access.* All new principal structures in the Flood Fringe District must have vehicular access at or above an elevation not more than two feet below the regulatory flood protection elevation. If a variance to this requirement is granted, the Board of Adjustment must specify limitations on the period of use or occupancy of the structure for times of flooding and only after determining that adequate flood warning time and local flood emergency response procedures exist.

(2) *Commercial uses.* Accessory land uses, such as yards, railroad tracks, and parking lots in the Flood Fringe District may be at elevations lower than the regulatory flood protection elevation. However, a permit for the facilities to be used by the employees or the general public will not be granted in the absence of a flood warning system that provides adequate time for evacuation if the area would be inundated to a depth greater than two feet or be subject to flood velocities greater than four feet per second upon occurrence of the regional flood.

(3) *Manufacturing and industrial uses.* Measures must be taken in the Flood Fringe District to minimize interference with normal plant operations especially along streams having protracted flood durations. Certain accessory land uses in the Flood Fringe District such as yards and parking lots may be at lower elevations subject to requirements set out in division (E)(2). In considering permit applications, due consideration must be given to the needs of an industry whose business requires that it be located in flood plain areas.

(4) *Fill.* Fill placed in the Flood Fringe District must be properly compacted and the slopes must be properly protected by the use of riprap, vegetative cover or other acceptable method. The Federal Emergency Management Agency (FEMA) has established criteria for removing the special flood hazard area designation for certain structures properly elevated on fill above the 100-year flood elevation. FEMA's requirements incorporate specific fill compaction and side slope protection standards for multi-structure or multi-lot developments. These standards should be investigated prior to the initiation of site preparation if a change of special flood hazard area designation will be requested.

(5) *Hydraulic capacity.* Flood plain developments in the Flood Fringe District must not adversely affect the hydraulic capacity of the channel and adjoining flood plain of any tributary watercourse or drainage system where a floodway or other encroachment limit has not been specified on the official zoning map.

(6) *Travel trailers.* Standards for travel trailers and travel vehicles in the Flood Fringe District are contained in SEC. 152.098(C).

(7) *Anchoring.* All manufactured homes in the Flood Fringe District must be securely anchored to an adequately anchored foundation system that resists flotation, collapse and lateral movement. Methods of anchoring may include, but are not to be limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable state or local anchoring requirements for resisting wind forces. ('83 Code, SEC. 11.55, Subd. 5)

SEC. 152.095 AO ZONE.

The city's flood insurance rate map includes an area identified as an AO Zone, an area of shallow flooding. FIA requirements for an AO Zone are as follows: All new construction and substantial improvements of residential or non-residential structures within any AO Zone must have the lowest floor (including basements and cellars) elevated at least two feet above the highest adjacent grade or, together with attendant utility and sanitary facilities, be completely flood proofed in accordance with the State Building Code to that elevation. ('83 Code, SEC. 11.55, Subd. 6)

SEC. 152.096 SUBDIVISIONS.

(A) *Review criteria.* No land shall be subdivided which is held unsuitable for the reason of flooding, inadequate drainage, water supply or sewage treatment facilities. All lots within the flood plain districts must contain a building site at or above the regulatory flood protection elevation. All subdivisions must have water and sewage treatment facilities that comply with the provisions of this subchapter and have road access both to the subdivision and to the individual building sites no lower than two feet below the regulatory flood protection elevation. For all subdivisions in the flood plain, the floodway and flood fringe boundaries, the regulatory flood protection elevation and the required elevation of all access roads must be clearly labeled on all required subdivision drawings and platting documents.

(B) *Removal of special flood hazard area designation.* The Federal Emergency Management Agency (FEMA) has established criteria for removing the special flood hazard area designation for certain structures properly elevated on fill above the 100-year flood elevation. FEMA's requirements incorporate specific fill compaction and side slope protection standards for multi-structure or multi-lot developments. These standards should be investigated prior to the initiation of site preparation if a change of special flood hazard area designation will be requested.

('83 Code, SEC. 11.55, Subd. 7)

SEC. 152.097 PUBLIC UTILITIES, RAILROADS, ROADS AND BRIDGES.

(A) *Public utilities.* All public utilities and facilities such as gas, electrical, sewer, and water supply systems to be located in the flood plain shall be flood proofed in accordance with the State Building Code or elevated to above the regulatory flood protection elevation.

(B) *Public transportation facilities.* Railroad tracks, roads, and bridges to be located within the flood plain shall comply with SEC. 152.093 and SEC. 152.094 herein. Elevation to the regulatory flood protection elevation must be provided where failure or interruption of these transportation facilities would result in danger to the public health or safety or where the facilities are essential to the orderly functioning of the area. Minor or auxiliary roads or railroads may be constructed at a lower elevation where failure or interruption of transportation services would not endanger the public health or safety.

(C) *On-site sewage treatment and water supply systems.* Where public utilities are not provided: on-site water supply systems must be designed to minimize or eliminate infiltration of flood waters into the systems; and new or replacement on-site sewage treatment systems must be designed to minimize or eliminate infiltration of (load waters into the systems and discharges from the systems into flood waters and they must not be subject to impairment or contamination during times of flooding. Any sewage treatment system designed in accordance with the state's current statewide standards for on-site sewage treatment systems will be determined to be in compliance with this division (C).

('83 Code, SEC. 11.55, Subd. 8)

SEC. 152.098 MANUFACTURED HOMES, MANUFACTURED HOME PARKS, PLACEMENT OF TRAVEL TRAILERS AND TRAVEL VEHICLES.

(A) New manufactured home parks and expansions to existing manufactured home parks are subject to the provisions placed on subdivisions by SEC. 152.096.

(B) The placement of new or replacement manufactured homes in existing manufactured home parks or on individual lots of record that are located in flood plain districts will be treated as a new structure and may be placed only if elevated in compliance with SEC. 152.094. If vehicular road access for pre-existing manufactured home parks is not provided in accordance with SEC. 152.094(E)(1), then replacement manufactured homes will not be allowed until the property owner develops a flood warning emergency plan acceptable to the city. All manufactured homes must be securely anchored to an adequately anchored foundation system that resists flotation, collapse and lateral movement. Methods of anchoring may include, but are not to be limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable state or local anchoring requirements for resisting wind forces.

(C) Travel trailers and travel vehicles that do not meet the exemption criteria specified in division (1) below, shall be subject to the provisions of this subchapter and as specifically spelled out in divisions (3) and (4), below.

(1) *Exemption.* Travel trailers and travel vehicles are exempt from the provisions of this subchapter if they are placed in any of the areas listed in division (2) below, and further they meet the following criteria:

(a) Have current licenses required for highway use.

(b) Are highway ready meaning on wheels or the internal jacking system, are attached to the site only by quick disconnect type utilities commonly used in campgrounds and trailer parks and the travel trailer/travel vehicle has not permanent structural type additions attached to it.

(c) The travel trailer or travel vehicle and associated use must be permissible in any pre-existing, underlying zoning use district.

(2) *Areas exempted for placement of travel/recreational vehicles.*

(a) Individual lots or parcels of record.

(b) Existing commercial recreational vehicle parks or campgrounds.

(c) Existing condominium type associations.

(3) *Loss of exemption for certain development.* Travel trailers and travel vehicles exempted herein lose this exemption when development occurs on the parcel exceeding \$500 for a structural addition to the travel trailer/travel vehicle or an accessory structure such as a garage or storage building. The travel trailer/travel vehicle and all additions and accessory structures will then be treated as a new structure and will be subject to the elevation/flood proofing requirements and the use of land restrictions specified in division (C)(4) below.

(4) *New parks, campgrounds or subdivisions.* New commercial travel trailer or travel vehicle parks or campgrounds and new residential type subdivisions and condominium associations and the expansion of any existing similar use exceeding five units or dwelling sites shall be subject to the following:

(a) Any new or replacement travel trailer or travel vehicle will be allowed in the Floodway or Flood Fringe Districts provided the trailer or vehicle and its contents are placed on fill above the regulatory flood protection elevation and proper elevated road access to the site exists in accordance with SEC. 152.094(E)(1). Any fill placed in a floodway for the purpose of elevating a travel trailer shall be subject to the requirements of SEC. 152.093.

(b) All new or replacement travel trailers or travel vehicles not meeting the criteria of division (a) above, may, as an alternative, be allowed as a conditional use if in accordance with the following provisions and the provisions of SEC. 152.099(D). The applicant must submit an emergency plan for the safe evacuation of all vehicles and people during the 100-year flood. The plan must be prepared by a registered engineer or other qualified individual and must demonstrate that adequate time and personnel exist to carry out the evacuation. All attendant sewage and water facilities for new or replacement travel trailers or other recreational vehicles must be protected or constructed so as to not be impaired or contaminated during times of flooding in accordance with SEC. 152.097(C). ('83 Code, SEC. 11.55, Subd. 9)

SEC. 152.099 ADMINISTRATION.

(A) Permit requirements.

(1) *Permit required.* A permit issued by the Zoning Administrator in conformity with the provisions of this subchapter must be secured prior to the erection, addition, or alteration of any building, structure, or portion thereof, prior to the use or change of use of a building, structure, or land, prior to the change or extension of a nonconforming use, and prior to the placement of fill, excavation of materials, or the storage of materials or equipment within the flood plain.

(2) *Application for permit.* Application for a permit must be made in duplicate to the Zoning Administrator on forms furnished by the Zoning Administrator and must include the following where applicable: Plans in duplicate drawn to scale, showing the nature, location, dimensions, and elevations of the lot; existing or proposed structures, fill, or storage of materials; and the location of the foregoing in relation to the stream channel.

(3) *State and federal permits.* Prior to granting a permit or processing an application for a conditional use permit or variance, the Zoning Administrator must determine that the applicant has obtained all necessary state and federal permits.

(4) *Certificate of zoning compliance for a new, altered, or non-conforming use.* It is unlawful to use, occupy, or permit the use or occupancy of any building or premises or part thereof hereafter created, erected, changed, converted, altered or enlarged in its use or structure until a certificate of zoning compliance is issued by the Zoning Administrator stating that the use of the building or land conforms to the requirements of this subchapter.

(5) *Construction and use to be as provided on applications, plans, permits, variances and certificates of zoning compliance.* Permits, conditional use permits, or certificates of zoning compliance issued on the basis of approved plans and applications authorize only the use, arrangement, and construction set forth in the approved plans and applications, and no other use, arrangement, or construction. Any use, arrangement, or construction at variance with that authorized is a violation of this subchapter.

(6) *Certification.* The applicant is required to submit certification by a registered professional engineer, registered architect, or registered land surveyor that the finished fill and building elevations were accomplished in compliance with the provisions of this subchapter. Flood proofing measures must be certified by a registered professional engineer or registered architect.

(B) *Record of first floor elevation.* The Zoning Administrator will maintain a record of the elevation of the lowest floor (including basement) of all new structures and alterations or

additions to existing structures in the flood plain. The Zoning Administrator will also maintain a record of the elevation to, which structures and alterations or additions to structures are flood proofed.

(C) *Board of Adjustment.*

(1) *Variations.* No variance may have the effect of allowing in any district uses prohibited in that district, permit a lower degree of flood protection than the regulatory flood protection elevation for the particular area, or permit standards lower than those required by state law.

(2) *Decisions.* A copy of all decisions granting variances must be forwarded by mail to the Commissioner of Natural Resources within ten days of the action.

(3) *Flood insurance notice and record keeping.* The Zoning Administrator will notify the applicant for a variance that: the issuance of a variance to construct a structure below the base flood level will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage and the construction below the 100-year or regional flood level increases risks to life and property. The notification will be maintained with a record of all variance actions. The city will maintain a record of all variance actions, including justification for their issuance, and report the variances issued in its annual or biennial report submitted to the Administrator of the National Flood Insurance Program.

(D) *Conditional uses.*

(1) *Decisions.* A copy of all decisions granting conditional use permits must be forwarded by mail to the Commissioner of Natural Resources within ten days of the action.

(2) *Procedures to be followed by the Council in passing on conditional use permit applications within all Flood Plain Districts.*

(a) The applicant will be required to furnish the following information and additional information as deemed necessary by the Council for determining the suitability of the particular site for the proposed use:

1. Plans in triplicate drawn to scale showing the nature, location, dimensions, and elevation of the lot, existing or proposed structures, fill, storage of materials, flood proofing measures, and the relationship of the above to the location of the stream channel.

2. Specifications for building construction and materials, flood proofing, filling, dredging, grading, channel improvement, storage of materials, water supply and sanitary facilities.

(b) The city will transmit one copy of the information described in division (a) above, to a designated engineer or other expert person or agency for technical assistance, where necessary, in evaluating the proposed project in relation to flood heights and velocities, the seriousness of flood damage to the use, the adequacy of the plans for protection, and other technical matters.

(c) Based upon the technical evaluation of the designated engineer or expert, the Council will determine the specific flood hazard at the site and evaluate the suitability of the proposed use in relation to the flood hazard.

(3) *Factors upon which the decision will be based.* In passing upon conditional use applications, the Council will consider all relevant factors specified in other provisions of this subchapter, and:

(a) The danger to life and property due to increased flood heights or velocities caused by encroachments.

(b) The danger that materials may be swept onto other lands or downstream to the injury of others or that they may block bridges, culverts or other hydraulic structures.

(c) The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination, and unsanitary conditions.

(d) The susceptibility of the proposed facility and its contents to flood damage and the effect of the damage on the individual owner.

(e) The importance of the services provided by the proposed facility to the community.

(f) The requirements of the facility for a waterfront location.

(g) The availability of alternative locations not subject to flooding for the proposed use.

(h) The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.

(i) The relationship of the proposed use to the comprehensive plan and floodplain management program for the area.

(j) The safety of access to the property at times of flood for ordinary and emergency vehicles.

(k) The expected heights, velocity, duration, rate of rise, and sediment transport of the flood waters expected at the site.

(l) The other factors which are relevant to the purposes of this subchapter.

(4) *Conditions attached to conditional use permits.* Upon consideration of the factors listed above and the purpose of this subchapter, the Council may attach the conditions to the granting of conditional use permits as it deems necessary to fulfill the purposes of this subchapter. The conditions may include, but are not limited to, the following:

(a) Modification of waste disposal and water supply facilities.

(b) Limitations on period of use, occupancy, and operation.

(c) Imposition of operational controls, sureties, and deed restrictions.

(d) Requirements for construction of channel modifications, compensatory storage, dikes, levees, and other protective measures.

(e) Flood proofing measures, in accordance with the State Building Code and this subchapter. The applicant must submit a plan or document certified by a registered professional engineer or architect that the flood proofing measures are consistent with the regulatory flood protection elevation and associated flood factors for the particular area.

(‘83 Code, SEC. 11.55, Subd. 10)

SEC. 152.100 NONCONFORMING USES.

(A) *Alterations.* A building or structure which, but for flood plain restrictions only, would be eligible for reconstruction or alteration may be reconstructed or altered without bringing the entire building or structure into conformance with the regulations of this subchapter if:

(1) The cost of all reconstructions and alterations since the time of its becoming nonconforming because of the restrictions does not exceed 50% of the market value of the entire building or structure at the time of the current or proposed reconstruction or alteration; or

(2) The reconstruction or alteration will substantially reduce potential flood damages for the entire building or structure.

(B) *Enlargement.* A building or structure which, but for flood plain restrictions only, would be eligible to be added to or enlarged may be added to or enlarged without bringing the entire building or structure into conformance with the regulations of this subchapter if:

(1) The cost of all the additions and enlargements since the time of its becoming nonconforming because of the restrictions does not exceed 50% of the market value of the entire building or structure at the time of the current or proposed addition or enlargement; or

(2) The addition or enlargement will substantially reduce potential flood damages for the entire building or structure.

(C) *Restoration.* A nonconforming building or structure located in the Floodway District (FW) or Flood Fringe District (FF) which is damaged by fire or other cause to the extent of more than 50% of its market value must not be restored except in conformity with the regulations of this subchapter.

(D) *Market value.* Market value as used in this subdivision is determined using all relevant evidence thereof, including, but not limited to, the assessor's estimated market value for the year in which the fire or other cause or event occurred or is to occur adjusted by the ratio of actual sales to estimated market value for said year, provided the ratio is published or available.

(E) *Cost.* The cost of all structural alterations and additions constructed since the adoption of the city's initial flood plain controls (adjusted for inflation) must be calculated into today's current cost which will include all costs such as construction materials and a reasonable cost placed on all manpower or labor.
(‘83 Code, SEC. 11.55, Subd. 11)

SEC. 152.101 VIOLATIONS.

(A) In responding to a suspected violation, the Zoning Administration and the city may utilize the full array of enforcement actions available to it including but not limited to prosecution and fines, injunctions, after-the-fact permits, orders for corrective measures or a request to the National Flood Insurance Program for denial of flood insurance availability to the guilty party. The city will act in good faith to enforce these official controls and to correct violations to the extent possible so as not to jeopardize its eligibility in the National Flood Insurance Program.

(B) When a violation is either discovered by or brought to the attention of the Zoning Administrator, the Zoning Administrator will investigate the situation and document the nature and extent of the violation of the official control. As soon as is reasonably possible, this information will be submitted to the appropriate Department of Natural Resources and Federal Emergency Management Agency Regional Office along with the city's plan of action to correct the violation to the degree possible.

(C) The Zoning Administrator will notify the suspected party of the requirements of this subchapter and all other official controls and the nature and extent of the suspected violation of these controls. If the structure and/or use is under construction or development, the Zoning Administrator may order the construction or development immediately halted until a proper permit or approval is granted by the city. If the construction or development is already completed, then the Zoning Administrator may either:

(1) Issue an order identifying the corrective actions that must be made within a specified time period to bring the use or structure into compliance with the official controls; or

(2) Notify the responsible party to apply for an after-the-fact permit/development approval within a specified period of time not to exceed 30 days.

(D) If the responsible party does not appropriately respond to the Zoning Administrator within the specified period of time, each additional day that lapses will constitute an additional violation of this subchapter and will be prosecuted accordingly. The Zoning Administrator will also upon the lapse of the specified response period notify the landowner to restore the land to the condition which existed prior to the violation of this subchapter.
(‘83 Code, SEC. 11.55, Subd. 12)

SEC. 152.102 AMENDMENTS.

The flood plain designation on the official zoning map will not be removed from flood plain areas unless it can be shown that the designation is in error or that the area has been filled to or above the elevation of the regional flood and is contiguous to lands outside the flood plain. Special exceptions to this rule may be permitted by the Commissioner of Natural Resources if the Commissioner determines that, through other measures, lands are adequately protected for the intended use. All amendments to this subchapter, including amendments to the official zoning map, must be submitted to and approved by the Commissioner of Natural Resources prior to adoption. Changes in the official zoning map must meet the Federal Emergency Management Agency’s (FEMA) *Technical Conditions and Criteria* and must receive prior FEMA approval before adoption. The Commissioner of Natural Resources must be given ten days’ written notice of all hearings to consider an amendment to this subchapter and said notice will include a draft of the amendment or technical study under consideration.
(‘83 Code, SEC. 11.55, Subd. 12) (Ord. 86, 2nd Series, effective 12-23-93)

NONCONFORMING USES AND STRUCTURES

SEC. 152.115 CONTINUATION OF EXISTING USE OR BUILDING.

The lawful use of any land or buildings existing at the time of the adoption of this chapter may be continued, even if the use does not conform to the regulations of this chapter, except as provided below or as authorized by the Council.
(‘83 Code, SEC. 11.10, Subd. 4) (Ord. 537, effective 7-1-83)

SEC. 152.116 NONCONFORMING BUILDINGS.

(A) *Alterations.* Except as provided in division (D)(1) below of this section, a nonconforming building or structure shall not be reconstructed or altered so as to increase the extent of its nonconformity unless the entire building or structure is changed to conform with the regulations of this chapter.

(B) *Enlargement.* Except as provided in division (D)(1) below of this section, a nonconforming building or structure shall not be added to or enlarged so as to increase the extent of its nonconformity unless the entire building or structure is changed to conform with the regulations of this chapter.

(C) *Restoration.* A nonconforming building or structure not located within the Floodway District (FW) or Flood Fringe District (FF) which is damaged by fire or other cause to the extent

of more than 50% of its replacement value shall not be restored except in conformity with the regulations of this chapter.

(D) *Floodplain alterations, enlargements, or restorations.*

(1) *Alterations.* A building or structure which, but for floodplain restrictions only, would be eligible for reconstruction or alteration may be reconstructed or altered without bringing the entire building or structure into conformance with the regulations of this chapter if:

(a) The market value of all the reconstructions and alterations since the time of its becoming nonconforming because of the restrictions does not exceed 50% of the market value of the entire building or structure at the time of the current or proposed reconstruction or alteration; or

(b) The reconstruction or alteration will substantially reduce potential flood damages for the entire building or structure.

(2) *Enlargement.* A building or structure which, but for floodplain restrictions only, would be eligible to be added to or enlarged may be added to or enlarged without bringing the entire building or structure into conformance with the regulations of this chapter if:

(a) The market value of all the additions and enlargements since the time of its becoming nonconforming because of the restrictions does not exceed 50% of the market value of the entire building or structure at the time of the current or proposed addition or enlargement; or

(b) The addition or enlargement will substantially reduce potential flood damages for the entire building or structure.

(3) *Restoration.* A nonconforming building or structure located in the Floodway District (FW) or Flood Fringe District (FF) which is damaged by fire or other cause to the extent of more than 50% of its market value shall not be restored except in conformity with the regulations of this chapter.

(4) *Market Value.* **MARKET VALUE** as used in this division shall be determined using all relevant evidence thereof, including, but not limited to, the assessor's estimated market value for the year in which the fire or other cause or event occurred or is to occur adjusted by the ratio of actual sales to estimated market value for said year, provided the ratio is published or available.

(‘83 Code, SEC. 11.10, Subd. 4. A.) (Ord. 36, 2nd Series, effective 7-12-86)

SEC. 152.117 NONCONFORMING USE OF BUILDING OR LAND.

(A) *Extension.*

(1) A nonconforming use of a building may be extended throughout the building provided no structural alterations are made therein except as required by other codes or city code provisions. (Ord. 537, effective 7-1-83)

(2) A nonconforming use of land shall not be extended or enlarged except by conditional use permit.

(B) *Relocation.* A nonconforming use shall not be moved to any other part of the parcel of land upon which the use was conducted at the time of passage of this chapter except by conditional use permit. (Ord. 60, 2nd Series, effective 3-22-90)

(C) *Abandonment.* A nonconforming use of a building which has been discontinued for a period of 12 months shall not be reestablished, and any future use shall be in conformity with the regulations of this chapter.

(D) *Maintenance.* Normal maintenance of a building or other structure containing or related to a lawful nonconforming use is permitted, including necessary nonstructural repairs and incidental alterations which do not extend or intensify the nonconforming use.

(E) *Inspection.* The enforcing officer may make an annual inspection each June of all nonconforming uses and report to the Council within 60 days. He or she may enter upon or in the premises at reasonable hours for inspection purposes.
(‘83 Code, SEC. 11.10, Subd. 4. B.)

PLANNED UNIT DEVELOPMENT RESIDENTIAL ONLY

SEC. 152.130 PURPOSE.

The purposes of this subchapter are:

(A) To encourage a more creative and efficient development of land and its improvements than is possible under the more restrictive application of zoning requirements such as lot sizes and building setbacks, while at the same time meeting the standards and purposes of the Comprehensive Plan and preserving the health, safety, and welfare of the citizens.

(B) To allow for a mixture of residential units in an integrated and well-planned area.

(C) To ensure concentration of open space into more usable areas, and the preservation of the natural resources of the site including wetlands, woodlands, steep slopes, and scenic areas.

(D) To facilitate the economical provision of streets and public utilities.
(‘83 Code, SEC. 11.10, Subd. 5. A.)

SEC. 152.131 PERMITTED USES.

Permitted uses are dwelling units in detached, clustered, semi-detached, attached, or multi-storied structures or combinations thereof.
(‘83 Code, SEC. 11.10, Subd. 5. B.)

SEC. 152.132 GENERAL REQUIREMENTS.

A conditional use permit shall be required of all planned unit developments. The city may approve the planned unit development only if it finds that the development satisfies all the following standards in addition to meeting the requirements of SEC. 152.199, except for the time limit:

(A) The planned unit development is consistent with the Comprehensive Plan of the city.

(B) The planned unit development is an effective and unified treatment of the development possibilities on the project site and the development plan provides for the preservation of unique natural amenities such as streams, stream banks, wooded cover, rough terrain, and similar areas.

(C) The planned unit development can be planned and developed to harmonize with any existing or proposed development in the areas surrounding the project site.

(D) Financing is available to the applicant on conditions and in an amount which is

sufficient to assure completion of the planned unit development.

(E) A minimum of two or more principal structures are proposed.

(F) The tract under consideration is under single control.

(G) The tract is at least five acres in size.

(‘83 Code, SEC. 11.10, Subd. 5. C.)

SEC. 152.133 DENSITY AND DENSITY TRANSFER.

(A) In order to encourage the protection of natural resources in an area including wetlands, woodlands, steep slopes, and the like, or in order to allow limited development in an area with unusual building characteristics due to subsoil characteristics, a density transfer system will be allowed whereby lot sizes smaller than that normally required in a district will be allowed on the developable land in return for leaving the natural resource areas open from development. However, the minimum lot size of any one lot shall not be reduced to less than $\frac{1}{2}$ of the minimum lot size. The number of dwelling units proposed for the entire site shall not exceed the total number permitted under the density control provision of the zoning districts) in which the land is located. If the planned unit development is in more than one zoning district, the number of allowable dwelling units must be separately calculated for each portion of the planned unit development that is in a separate zone, and must then be combined to determine the number of dwelling units allowable in the entire planned unit development.

(B) The Zoning Administrator shall determine the number of dwelling units which may be constructed within the planned unit development by dividing the net acreage of the project area by the required lot area per dwelling unit which is required in the district in which the planned unit development is located. The net acreage shall be defined as the project area less the land area dedicated for public streets. The project area includes all the land within the planned unit development which is allocated for residential uses, or for common open space as defined in this chapter. Land to be dedicated for public streets is to be excluded from the project area.
(‘83 Code, SEC. 11.10, Subd. 5. D.)

SEC. 152.134 COORDINATION WITH SUBDIVISION REGULATIONS.

(A) It is the intent of this chapter that subdivision review under the subdivision regulations be carried out simultaneously with the review of a planned unit development under this subchapter.

(B) The plans required under this subchapter must be submitted in a form which will satisfy the requirements of the subdivision regulations for the preliminary and final plans required under those regulations.

(‘83 Code, SEC. 11.10, Subd. 5. E.)

SEC. 152.135 PRE-APPLICATION MEETING.

Prior to the submission of any plan to the Planning Commission, the applicant shall meet with the Zoning Administrator and, if necessary, with the Planning Commission to discuss the contemplated project relative to community development objectives for the area in question and to learn the procedural steps and exhibits required. This includes the procedural steps for a

conditional use permit and a preliminary plat. The applicant may submit a simple sketch plan at this stage for informal review and discussion. The applicant is urged to avail himself or herself of the advice and assistance of the planning staff to facilitate the review of the outline plan and preliminary plat.
(‘83 Code, SEC. 11.10, Subd. 5. F.)

SEC. 152.136 PRELIMINARY DEVELOPMENT PLAN.

(A) An applicant shall make an application for a conditional use permit following the procedural steps as set forth in SEC. 152.199.

(B) In addition to the criteria and standards set forth in SEC. 152.199, for the granting of conditional use permits, the following additional findings shall be made before the approval of the outline development plan:

(1) The proposed PUD is in conformance with the Comprehensive Plan.

(2) The uses proposed will not have an undue and adverse impact on the reasonable enjoyment of neighboring property, and will not be detrimental to potential surrounding uses.

(3) Each phase of the proposed development, as it is proposed to be completed, is of sufficient size, composition, and arrangement that its construction, marketing, and operation are feasible as a complete unit, and that provision and construction of dwelling units and common open space are balanced and coordinated.

(4) The PUD will not create an excessive burden on parks, schools, streets, and other public facilities and utilities which serve or are proposed to serve the district.

(5) The proposed total development is designed in a manner as to form a desirable and unified environment within its own boundaries.

(C) *Preliminary development plan documentation.* The following exhibits shall be submitted to the Zoning Administrator by the proposed developer as part of the application of a conditional use permit:

(1) An explanation of the character and need for the planned development and the manner in which it has been planned to take advantage of the planned development regulations.

(2) A statement of proposed financing of the PUD.

(3) A statement of the present ownership of all of the land included within the planned development and a list of property owners within 350 feet of the outer boundaries of the property.

(4) A general indication of the expected schedule of development including sequential phasing and time schedules.

(5) A map giving the legal description of the property including approximate total acreage and also indicating existing property lines and dimensions, ownership of all parcels, platting, easement, street right-of-way, utilities, and buildings for the property, and for the area 350 feet beyond.

(6) Natural features map or maps of the property and area 350 feet beyond showing contour lines at no more than two foot intervals, drainage patterns, wetlands, vegetation, soil and subsoil condition.

(7) A map indicating proposed land uses including housing units and types, vehicular and pedestrian circulation, and open space uses.

(8) Full description as to how all necessary governmental services will be provided to

the development including sanitary sewers, storm sewers, water system, streets and other public utilities.

(9) An engineering report presenting results of a soils review of the site. If conditions warrant it, soil borings may also be required of the site.

(10) Any additional information requested by the Planning Commission and Council that may be required for clarification of the proposed project.

(D) *Preliminary plat.* The applicant shall also submit a preliminary plat and all the necessary documentation as required under the Subdivision Regulations of all or that portion of the project to be platted. For purposes of administrative simplification, the public hearings required for the conditional use permit and preliminary plat may be combined into one hearing or may be held concurrently.

(‘83 Code, SEC. 11.10, Subd. 5. G.)

SEC. 152.137 FINAL DEVELOPMENT PLAN.

(A) Within 60 days following the approval of the outline development plan with recommended modifications, if any, and the preliminary plat, the applicant shall file with the Zoning Administrator a final development plan containing in final form the information required in the outline development plan plus any changes required by the city or county as a result of the public hearing. The applicant shall also submit a final plat for all or that portion to be platted.

(B) The Zoning Administrator shall submit the final development plan and the final plat to the Planning Commission for review.

(C) The final development plan and the final plat shall conform to the outline development plan and preliminary plan plus any changes required by the Council to the preliminary development plan.

(D) The Planning Commission shall review the final development plan and final plat and make its recommendation to the Council within 60 days of receiving the final development plan and final plat.

(E) The Council shall review the final outline plan and final plat and the recommendations by the Planning Commission. The Council shall give notice and provide opportunity to be heard on the final development plan to any person who has indicated to the Council in writing that he or she wishes to be notified.

(F) If the final development plan is approved by the Council, the Zoning Administrator shall issue a conditional use permit to the applicant. The final plat shall be submitted to the Polk County Recorder’s office.

(‘83 Code, SEC. 11.10, Subd. 5. H.)

SEC. 152.138 ENFORCING DEVELOPMENT SCHEDULE.

The construction and provision of all of the common open spaces and public and recreational facilities which are shown on the final development plan must proceed at the same rate as the construction of dwelling units. At least once every six months following the approval of the final development plan, the Zoning Administrator shall review all of the building permits issued for the planned development and examine the construction which has taken place on the site. If he or she shall find that the rate of construction of dwelling units is faster than the rate at which common open spaces and public and recreational facilities have been constructed and provided, he or she shall forward this information to the Council, which may revoke the conditional use permit. If the developer or landowners fail to complete the open spaces and recreation areas within 60 days after the completion of the remainder of the project, the city may finish the open space areas and assess the cost back to the developer or landowner. ('83 Code, SEC. 11.10, Subd. 5. I.)

SEC. 152.139 CONVEYANCE AND MAINTENANCE OF COMMON OPEN SPACE.

(A) All land shown on the final development plan as common open space must be conveyed under one of the following methods at the option of the city:

(1) It may be conveyed to a public agency which will agree to maintain the common open space and any buildings, structures, or improvements which have been placed on it.

(2) It may be conveyed to trustees provided in an indenture establishing an association or similar organization for the maintenance of the planned development. The common open space must be conveyed to the trustees subject to covenants to be approved by the Council which restrict the common open space to the uses specified on the final development plan, and which provide for the maintenance of the common open space in a manner which assures its continuing use for its intended purpose.

(B) If the common open space is conveyed to a homeowners association, and the common open space is not maintained properly to standards established by the city, the city shall have the authority to maintain the property and assess the costs back to the homeowners association. ('83 Code, SEC. 11.10, Subd. 5. J.)

SEC. 152.140 STANDARDS FOR COMMON OR PUBLIC OPEN SPACE.

No open area may be accepted as common open space under the provisions of this chapter unless it meets the following standards:

(A) The location, shape, size, and character of the common open space must be suitable for the planned development.

(B) Common open space must be used for amenity or recreational purposes. The uses authorized for the common open space must be appropriate to the scale and character of the planned development, considering its size, density, expected population, topography, and the number and type of dwellings to be provided.

(C) Common open space must be suitably improved for its intended use, but common open space containing natural features worthy of preservation may be left unimproved. The buildings, structures and improvements which are permitted in the common open space must be appropriate to the uses which are authorized for the common open space and must converse and enhance the amenities of the common open space having regard to its topography and unimproved condition. ('83 Code, SEC. 11.10, Subd. 5. K.)

SEC. 152.141 PUD REVIEW AND AMENDMENTS.

(A) *Annual review.* The Zoning Administrator and Planning Commission shall review all PUD's within the city at least once each year and shall make a report to the Council on the status of the development in each of the PUD Districts. If the Council finds that the development has not occurred within a reasonable time after the original approval of the conditional use for the PUD, the Planning Commission may recommend that the city revoke the conditional use permit as set forth in SEC. 152.199.

(B) *Revision to the PUD.*

(1) Minor changes in the location, placement, and heights of buildings or structures may be authorized by the Zoning Administrator if required by engineering or other circumstances not foreseen at the time the final plan was approved.

(2) Approval of the Planning Commission and Council shall be required for other minor changes such as rearrangement of lots, blocks, and building tracts. These changes shall be consistent with the purpose and intent of the approved final development plan.

(C) *Amendments to the PUD.* Any amendment to the PUD shall require the same procedures for the application of a conditional use permit as set forth in SEC. 152.199. ('83 Code, SEC. 11.10, Subd. 5. L.)

PERFORMANCE STANDARDS

SEC. 152.155 PURPOSE.

The performance standards established in this subchapter are designed to encourage a high standard of development by providing assurance that neighboring land uses will be compatible. The performance standards are designed to prevent and eliminate those conditions that cause blight or are detrimental to environment. All future development in all districts shall be required to meet these standards and the standards shall also apply to existing development where so stated. Before any building permit is approved, the Zoning Administrator shall determine whether the proposed use will conform to the performance standards. The developer or landowner shall supply data necessary to demonstrate the conformance. The data may include a description of equipment to be used, hours of operation, method of refuse disposal, and type and location of exterior storage.

('83 Code, SEC. 11.70, Subd. 1)

SEC. 152.156 SOLAR AND EARTH SHELTERED STRUCTURES.

(A) Solar energy systems, and solar and earth sheltered structures shall be a permitted use in all districts provided the system is in compliance with minimum lot requirements and setbacks.

(B) Solar energy systems and solar and earthsheltered structures may be exempted from setback, height, and lot coverage restrictions by variance.

('83 Code, SEC. 11.70, Subd. 2)

SEC. 152.157 WIND ENERGY CONVERSION SYSTEMS (WECS).

(A) *Conditional use permit.* Each wind energy conversion system shall require a conditional

use permit.

(B) *Plans.* Each application for a building permit shall be accompanied by a dimensional representation of the tower including the conversion system, base, and footings and an accurate plan containing the following information:

- (1) Property lines.
- (2) Proposed location of tower on site.
- (3) Location of all existing structures on site.
- (4) All above ground utility lines.
- (5) All underground utility lines within a radius equal to the proposed WECS height.
- (6) Boundaries of all adjacent utility easements or reserved areas.

(C) *WECS height.* The total height of the tower (including any portion of the rotor or axis extending above the tower) shall not exceed the horizontal distance between the base of the tower and the nearest lot line or building line. The horizontal distance may extend beyond the nearest lot line or building line provided there are no overhead utility lines or easements therefor or if the abutting area is a public alleyway. When the height exceeds these requirements, the following information shall be submitted:

- (1) Dimensional representation of the various structural components of the tower construction including the base and footings;
- (2) Design data which shall indicate basis of design, including manufacturer's dimensional drawings, installation and operation instructions;
- (3) Certification by an independent registered professional engineer or sufficient to withstand wind load requirements for structures as established by the local building construction codes.

(D) *Tower access.* Climbing access to the WECS tower shall be limited either by means of a fence six feet high around the tower base with a locking portal, or by limiting tower climbing apparatus to no lower than 12 feet from the ground.

(E) *Wind access.* Contiguous property owners and planned developments may construct a WECS for their use in common. If property held by more than one single owner is used to meet the setback requirements, a site plan establishing easements or reserved areas must be submitted for approval.

(F) *Noise.* A WECS operation shall not produce noise in excess of the acceptable limits.

(G) *Limited use.* Wind energy conversion systems installed in accordance with the requirements of this subchapter shall not generate power as a commercial enterprise as defined by the Public Utilities Commission.

(H) *Electromagnetic interference.* A WECS shall not be installed in any location along the major axis of an existing microwave communications link where the operation of the WECS is likely to produce an unacceptable level of electromagnetic interference and the possible effect on the microwave communications link of which is at a level satisfactory to the Zoning Administrator.

(I) *Airspace.* A WECS shall be located or installed in compliance with the regulations of the airport approach zones and federal aviation regulations for clearance around VOR and DVOR stations.

(J) *Interconnect.* A WECS, if interconnected to an electric utility distribution system, shall meet the interconnect requirements of the electric utility company. In any case, the interconnect

shall include a manual disconnect which complies with the National Electric Code.

(K) *Codes*. Construction, design and installation of a WECS shall comply with all local state and national electrical codes in effect at the time of installation.

(L) *Liability*. No building permit shall be issued for the construction of a WECS until and unless the applicant for the building permit deposits with the Clerk-Treasurer a policy of liability insurance indemnifying applicant from liability for personal injury or property damage in the sum of at least \$500,000. The policy of insurance so deposited shall contain a clause obligating the company issuing the same to give at least 30 days written notice to the city before cancellation thereof, the building permit to be automatically revoked upon the lapse or termination of the policy.

(‘83 Code, SEC. 11.70, Subd. 3)

SEC. 152.158 EXTERIOR STORAGE.

(A) In residential districts, all materials and equipment shall be stored within a building or be fully screened so as not to be visible from adjoining properties, except for the following in good order: laundry drying and recreational equipment, construction and landscaping materials and equipment currently being used on the premises, agricultural equipment and materials, if these are used or intended for use on the premises, off-street parking of passenger automobiles and pickup trucks. Boats, recreation vehicles, and unoccupied trailers, less than 36 feet in length, are permissible. There shall be no more than one each of these units. A trailer that holds more than one personal vehicle shall be considered as one unit in total. Existing uses shall comply with this provision within 12 months following enactment of this chapter.

(B) In all districts, the city may require a conditional use permit for an exterior storage if it is demonstrated that the storage is a hazard to the public health and safety or has a depreciating effect upon nearby property values, or impairs scenic views, or constitutes a nuisance.

(‘83 Code, SEC. 11.70, Subd. 4)

SEC. 152.159 REFUSE.

(A) In all districts, all waste material, (with the exception of crop residue) debris, refuse, or garbage shall be kept in an enclosed building or properly contained in a closed container designed for these purposes. The owner of vacant land shall be responsible for keeping the land free of refuse. Existing uses shall comply with this provision within six months following enactment of this chapter.

(B) Passenger vehicles and trucks in an inoperative state shall not be parked in residential districts for a period exceeding seven days; inoperative shall mean incapable of movement under their own power and in need of repairs or junkyard. All exterior storage not included as a permitted accessory use, a permitted use, or included as part of a special permit, or otherwise permitted by provisions of this chapter, shall be considered as refuse.

(‘83 Code, SEC. 11.70, Subd. 5)

SEC. 152.160 BLIGHT OR BLIGHTING FACTORS.

It is hereby determined that the uses, structures and activities and causes of blight or blighting factors described herein, if allowed to exist, will tend to result in blighted and undesirable neighborhoods so as to be harmful to the public welfare, health and safety. On and after the effective date of this chapter it is unlawful for any person to maintain or permit to be maintained any of these causes of blight or blighting factors upon any property in the city owned, leased, rented or occupied by the person.

(A) *Junk automobiles defined.* In any area in the city the storage upon any property of junk automobiles shall be considered a blighting factor. For the purpose of this chapter, the term **JUNK AUTOMOBILES** shall include any motor vehicle, part of a motor vehicle, or former motor vehicle, stored in the open, which is not currently licensed for use upon the highways of the State of Minnesota, and is either:

- (1) Unusable or inoperable because of lack of, or defects in component parts;
- (2) Unusable or inoperable because of damage from collision, deterioration, or having been cannibalized;
- (3) Beyond repair and therefore not intended for future use as a motor vehicle; or
- (4) Being retained on the property for possible use of salvageable parts.

(B) *Other junk defined.* In any area in the city the storage or accumulation of junk, trash, rubbish or refuse of any kind, except refuse stored in such a manner as not to create a nuisance for a period not to exceed 30 days shall not be allowed. The term **JUNK** shall include parts of machinery or motor vehicles, appliances stored in the open; remnants of wood; decayed weathered or broken construction materials no longer suitable for sale, approved building materials; metal or any other material or cast off material of any kind whether or not the same could be put to any reasonable use.

(C) *Deteriorated structures.* In any area the existence of any structure or part of any structure which because of fire, wind, or other natural disaster, or physical deterioration is no longer habitable as a dwelling, nor useful for any other purpose for which it may have been intended shall not be allowed.

(D) *Noxious or poisonous vegetation.* In any area the existence of any noxious or poisonous vegetation such as poison ivy, ragweed or other poisonous plants, or any weeds, grass, brush or plants, which are a fire hazard or otherwise detrimental to the health or appearance of the neighborhood shall not be allowed. (Ord. 537, effective 7-1-83)

(E) *Enforcement and penalties.*

(1) The owner and the occupant of any property upon which any of the causes of blight or blighted factors set forth in this section is found to exist shall be notified in writing by the proper city official to remove or eliminate the causes of blight or blighting factors from the property within seven days after service of the notice upon him:

- (a) The nature and location of the blight;
- (b) That the blight must be removed or properly stored within seven days of service of the notices; and

(c) That if the blight is not so removed or stored, it will be removed by the city and the cost of the removal assessed against the property. The notice may be served personally or by mailing the same by registered mail, return receipt requested, to the last known address of the owner and, if the premises are occupied, to the premises. Additional time may be granted by the enforcement officer where bona fide efforts to remove or eliminate the causes of blight or blighting factors are in progress. (Ord. 27, 2nd Series, effective 3-20-86)

(2) In case of failure to remove any blight as described in this division within the time prescribed, the city may order to be cut down and removed or otherwise destroyed all the noxious, inflammable or detrimental vegetation, and shall certify the cost thereof to the Clerk-Treasurer. The Clerk-Treasurer shall certify the cost to the County Auditor as a special assessment against the property involved for collection in the same manner as other special assessments. As an additional or alternative remedy, the owners of any interest in said land and the occupancy shall be jointly and severally liable for the costs and the costs shall be recoverable in any action against any of them in the name of the city.

(3) Failure to comply with the notice within the time allowed shall constitute a violation of this chapter.
(‘83 Code, SEC. 11.70, Subd. 6)

SEC. 152.161 GLARE.

In all districts, any lighting used to illuminate an off-street parking area, sign, or other structure, shall be arranged so as to deflect light away from any adjoining residential zone or from the public streets. Direct or sky-reflected glare, whether from floodlights or from high temperature processes such as combustion or welding, shall not be directed into any adjoining property. The source of lights shall be hooded or controlled in some manner so as not to light adjacent property. Bare incandescent light bulbs shall not be permitted in view of adjacent property or public right-of-way. Any light or combination of lights which cast light on a public street shall not exceed one foot candle (meter reading) as measured from the centerline of the street. Any light or combination of lights which cast light on residential property shall not exceed 0.4 candles (meter reading) as measured from the property.
(‘83 Code, SEC. 11.70, Subd. 8)

SEC. 152.162 [RESERVED].

SEC. 152.163 NUISANCES.

(A) *Nuisance characteristics.* No noise, odors, vibration, smoke, air pollution, liquid or solid wastes, heat, glare, dust, or other adverse influences shall be permitted in any district that will in any way have an objectionable effect upon adjacent or nearby property. All wastes in all districts shall be disposed of in a manner that is not dangerous to public health and safety nor will damage public waste transmission or disposal facilities. The following standards apply to non-industrial districts.

(B) *Noise.*

(1) It is unlawful for any person to make, continue or cause to be made or continued, any noise in excess of the noise levels set forth unless the noise be reasonably necessary to the preservation of life, health; safety, or property.

(2) Any activity not expressly exempted by this section which creates or produces sound regardless of frequency exceeding the ambient noise levels at the property line of any property by more than six decibels above the ambient noise levels as designated in the following table at the time and place and for the duration then mentioned, shall be deemed to be a violation of this chapter, but any enumeration herein shall not be deemed to be exclusive.

<i>Duration of sound</i>	<i>7:00 a.m. - 6:00 p.m. (all districts)</i>	<i>6:00 p.m. - 7:00 a.m. (all other districts)</i>	<i>9:00 p.m. - 7:00 a.m. (residential districts)</i>
Less than 10 minutes	70db	65db	55db
Between 10 minutes and 2 hours	60db	55db	45db
In excess of 2 hours	50db	45db	40db

(3) In determining whether a particular sound exceeds the maximum permissible sound level in the above table:

(a) Sounds in excess of the residential district limitations as measured in a residential district are violative of this section whether the sound originates in a residential district or any other district;

(b) During all hours of Sundays and state and federal holidays, the maximum allowable decibel levels for residential districts are as set forth in Column II of the table.

(4) Sounds emanating from the operation of motor vehicles on a public highway; aircraft; outdoor implements such as power lawn mowers, snowblowers, power hedge clippers, and power saws; and pile drivers or jackhammers and other construction equipment are exempt from the provisions of this section except during the hours of 9:00 p.m. to 7:00 a.m. Sounds emanating from lawful and proper activities at school grounds, playgrounds, parks or places wherein athletic contests take place are exempt from the provisions of this chapter.

(C) *Vibration.* The following vibrations are prohibited:

(1) Any vibration discernible (beyond property line) to the human sense of feeling for three minutes or more duration in any one hour.

(2) Any vibration resulting in any combination of amplitudes and frequencies beyond the "safe" range of most current standards of the United States Bureau of Mines on any structure.

(D) *Toxic or noxious matter.* Any use shall be so operated so as not to discharge across the boundaries of any lot or through percolation into the atmosphere or the subsoil beyond the boundaries of the lot wherein the use is located, toxic or noxious matter in the concentration as to be detrimental to or endanger the public health, safety, or welfare or cause injury or damage to property or business.

(E) *Air pollution.* Any use shall be so operated as to control the emission of smoke or particulate matter to the degree that it is not detrimental to or shall endanger the public health, safety, comfort, or general welfare. For the purpose of this chapter, the regulations and standards adopted by the Minnesota Pollution Control Agency shall be employed.

(F) *Miscellaneous nuisances.*

(1) It is unlawful for any person to store or keep any vehicle of a type requiring a license to operate on the public highway; but, without a current license attached thereto, whether the vehicle be dismantled or not, outside of an enclosed building in the residential or agricultural districts.

(2) It is unlawful for any person to create or maintain a junkyard or vehicle dismantling yard except as provided herein.

(3) The following are declared to be nuisances affecting public health or safety:

(a) The effluence from any cesspool, septic tank, drainfield or human sewage disposal systems discharging upon the surface of the ground, or dumping the contents thereof at any place except as authorized.

(b) The pollution of any public well or cistern, stream or lake, canal or body of water by sewage, industrial waste or other substances.

(c) The ownership, possession or control of any unused refrigerator or other container, with doors which fasten automatically when closed, of sufficient size to retain any person, to be exposed and accessible to the public without removing the doors, lids, hinges, or latches or providing locks to prevent access by the public.

(‘83 Code, SEC. 11.70, Subd. 9)

SEC. 152.164 SCREENING.

(A) Screening shall be required in all zoning use districts where any off-street parking area contains more than six parking spaces and is within 30 feet of an adjoining R-1, R-2, and R-3 Zoning Use District and where the driveway to a parking area of more than six parking spaces is within 15 feet of an adjoining residential use or zone.

(B) Where any business or industrial use (for example, structure, parking, or storage) is adjacent to property zoned for residential use, that business or industry shall provide screening along the boundary of the residential property. Screening shall also be provided where a business or industry is across the street from a residential zone, but not on that side of a business or industry considered to be the front.

(C) The screening required in this section shall consist of a solid fence, wall, or natural foliage not less than five feet high, but shall not extend within 15 feet of any street or driveway. The screening shall be placed along property lines or in case of screening along a street, 15 feet from the street right-of-way with landscaping between the screening and the pavement. Natural foliage, or a louvered fence or wall shall be considered “solid” if it blocks direct vision.

(‘83 Code, SEC. 11.70, Subd. 10)

SEC. 152.165 LANDSCAPING.

In the R-1, R-2, R-3, I-2, and IN Zoning Districts, all developed uses shall provide a landscaped yard along all streets. This yard shall be kept clear of all structures, storage, and off-street parking. This yard shall be at least 20 feet in depth along all streets, measured from the street right-of-way. Except for driveways, the yard shall extend along the entire frontage of the lot, and along both streets in the case of a corner lot. (‘83 Code, SEC. 11.70, Subd. 11) (Ord. 537, effective 7-1-83)

SEC. 152.166 PERMITTED ENCROACHMENTS.

The following shall be considered as permitted encroachments on front and rear setback and height requirements except as provided in this chapter:

(A) In the front and rear yards: posts, off-street open parking spaces, flues, leaders, sills, pilasters, lintels, cornices, eaves, gutters, awnings, open terraces, service station pump islands, open canopies, steps, chimneys, flag poles, ornamental features, open fire escapes, sidewalks and fences, television and radio antennas under 70 feet above street elevation or 30 feet above the highest roof line, whichever is greater, and all other similar devices incidental and appurtenant to

the principal structure except as hereinafter amended.

(B) In the rear yard: decks. (Ord. 42, 2nd Series, effective 4-23-87)
(‘83 Code, SEC. 11.70, Subd. 12)

SEC. 152.167 ACCESSORY BUILDINGS AND STRUCTURES; PROHIBITED DWELLING UNITS.

(A) *Accessory building and structures.*

(1) *In residential districts.*

(a) Accessory building may be located within five feet of the rear, excluding garages which must be 16 feet if the vehicle door opens on the rear lot line side.

(b) No accessory building shall exceed the height of the principal building.

(c) Accessory buildings shall not occupy more than 25% of the rear yard. (Ord. 45, 2nd Series, effective 7-18-87)

(2) *In commercial and industrial districts.*

(a) No accessory building shall exceed the height of the principal building except by conditional use permit.

(b) Accessory buildings may be located any place to the rear of the principal building, subject to the building code and the fire zone regulations except where prohibited by other subchapters of this chapter.

(3) *In all districts.*

(a) Any accessory building shall be considered as an integral part of the principal building if it is located less than six feet from the principal building.

(b) Accessory structures located on stream or river frontage lots may be located between the public road and the principal structure provided it is clearly demonstrated that physical conditions require such a location. (‘83 Code, SEC. 11.70, Subd. 13)

(B) *Dwelling units prohibited.* No garage, tent, trailer, basement home or accessory building shall be used as a permanent residence. (‘83 Code, SEC. 11.70, Subd. 14)

SEC. 152.168 TREE AND WOODLAND PRESERVATION.

The following restrictions shall apply to all development:

(A) Structures and other amenities shall be located in such a manner that the optimum number of trees shall be preserved.

(B) Prior to the granting of a building permit, it shall be the duty of the person seeking the permit to demonstrate that there are no feasible or prudent alternatives to the cutting of trees on the site and that if the trees are cut, he or she will restore the density of trees to that which existed before development, but in no case shall he or she be compelled to raise the density above ten trees per acre.

(C) Forestation, reforestation or landscaping shall utilize a variety of tree species and shall not utilize any species presently under disease epidemic. Species planted shall be hardy under

local conditions and compatible with the local landscape.

(D) Development including grading and contouring shall take place in such a manner that the root zone aeration stability of existing trees shall not be affected and shall provide existing trees with a watering equal to one-half the crown area.

(E) Notwithstanding the above, the removal of trees seriously damaged by storms or other acts of God, or diseased trees shall not be prohibited.
(‘83 Code, SEC. 11.70, Subd. 15)

SEC. 152.169 WETLAND PRESERVATION.

(A) *General Provisions.* To the extent possible, all wetlands including marshlands and swamps shall be retained in their natural state to serve as a stormwater run-off basin and also as a wildlife habitat.

(B) *Discharges into wetlands.*

(1) No part of any sewage disposal system requiring on-land or inground disposal of waste shall be located closer than 150 feet from the normal high water mark unless it is proven by the applicant that no effluent will immediately or gradually reach the wetland because of existing physical characteristics of the site or the system.

(2) Organic waste which would normally be disposed of at a solid waste disposal site or which would normally be discharged into a sewage disposal system or sewer shall not be directly or indirectly discharged to the wetland.

(3) Stormwater run-off from construction sites may be directed to the wetland only when substantially free of silt, debris and chemical pollutants and only at rates which will not disturb vegetation or increase turbidity.

(C) *Building constraints.*

(1) The lowest floor elevation of buildings if used for living quarters or work area shall be at least three feet above the seasonal high water level of the wetland.

(2) Development which will result in unusual road maintenance costs or utility line breakages due to soil limitations, including high frost action, shall not be permitted.

(3) The minimum setback for all buildings shall be 75 feet from the wetland.
(‘83 Code, SEC. 11.70, Subd. 16)

SEC. 152.170 TRAFFIC CONTROL; VACATED STREETS.

(A) The traffic generated by any use shall be channeled and controlled in a manner that will avoid congestion on the public streets, traffic hazards, and excessive traffic through residential areas, particularly truck traffic. Internal traffic shall be so regulated as to ensure its safe and orderly flow. Traffic into and out of business areas shall, to the extent possible, be forward moving with no backing into streets. On corner lots, (including rural areas) nothing shall be placed or allowed to grow with the exception of seasonal crops in such a manner as materially to impede vision between a height of two and one-half and ten feet above the centerline grades of the intersecting streets to a distance that a clear line of vision is possible of the intersecting street from a distance of 50 feet from the intersection.

(‘83 Code, SEC. 11.70, Subd. 17)

(B) Whenever any street, alley, easement or public way is vacated by official action, the zoning district abutting the centerline of the said vacated area shall not be affected by the proceeding. (‘83 Code, SEC. 11.70, Subd. 18)

SEC. 152.171 ACCESS DRIVES AND ACCESS.

(A) Access drives may not be placed closer than five feet to any side or rear lot line. The number and types of access drives onto major streets may be controlled and limited in the interests of public safety and efficient traffic flow.

(B) Access drives onto county roads shall require a review by the County Engineer. The County Engineer shall determine the appropriate location, size, and design of the access drives and may limit the number of access drives in the interest of public safety and efficient traffic flow.

(C) Access drives to principal structures which traverse wooded, steep, or open field areas shall be constructed and maintained to a width and base material depth sufficient to support access by emergency vehicles. The Zoning Administrator shall review all access drives (driveways) for compliance with accepted community access drive standards. All driveways shall have a minimum width of ten feet with a road strength capable of supporting emergency and fire vehicles.

(D) All lots or parcels shall have direct physical access for emergency vehicles along the frontage of the lot or parcel from either an existing dedicated public roadway, or an existing private roadway approved by the Council.
(‘83 Code, SEC. 11.70, Subd. 19)

SEC. 152.172 PRIVATE SEWER SYSTEMS.

The standards as found in Minnesota Pollution Control Agency's Standards for Sewage Treatment Systems (6 MCAR 4.8040) are hereby adopted by reference. If there are any inconsistencies between the standards found in this chapter and the state standards, or in 6 MCAR 4.8040 amended, the state standards shall govern. ('83 Code, SEC. 11.70, Subd. 20)

Note:

If a mobile home park is converted to another use requiring a variance or zoning change, the Planning Commission must give notice of hearing to each occupant. See M.S. § 3270.095, as it may be amended from time to time.

SEC. 152.173 MOBILE HOME PARKS.

(A) *Purpose.* The purposes of this section are to promote health, safety, order, convenience and general welfare by establishing minimum standards for mobile home parks, the location and use of mobile homes and the design, construction, alteration and arrangement of homes on said lots, authorizing the inspection of mobile home parks, and fixing penalties for violations thereof.

(B) *Permits.*

(1) It is unlawful for any person to place or maintain any mobile home park on any premises except in the R-2 and R-3 Zoning Districts.

(2) It is unlawful for any person to construct, alter, or extend any mobile home park or structures within the park that are permanent in nature within the limits of the city unless he or she holds a valid permit issued by the Building Inspector in the name of the person for the specific construction, alteration or extension proposed, where permanent means structures that are not on wheels or mobile.

(3) All applications for permits shall contain the following: name and address of applicants, location and legal description of the mobile home but not limited to the following: the area and dimensions of the tract of land; topography sketch of the land; the number, location and size of all mobile home lots; the location and width of internal streets and walkways, the location of water and sewer lines and riser pipes; plans and specifications of the water supply and refuse and sewage disposal facilities; plans and specifications of all buildings constructed or to be constructed within the mobile home park; the location and details of lighting and electrical systems; a landscaping plan; and park ground area and recreation equipment.

(C) *Review of applications.* The Planning Commission shall review all applications which shall include a lot layout map and shall hold the hearings as it may deem proper with respect thereto. The finding and recommendations of the Planning Commission shall be forwarded to the Council for appropriate action.

(D) *Inspection of mobile home parks.*

(1) The Zoning Administrator is hereby authorized and directed to make the inspections as are necessary to determine satisfactory compliance with this chapter, including the power to enter at reasonable times upon any private or public property for said purposes.

(2) The Building Inspector, the Chief of Police, or their duly authorized representative, shall have the power to inspect the register containing a record of all residents of the mobile home park.

(3) It shall be the duty of every occupant of a mobile home park to give the owner thereof or his or her agent or employee access to any part of the mobile home park at reasonable times for the purpose of making the repairs or alterations as are necessary to effect compliance with this chapter.

(E) *Environmental, open space and access requirements.*

(1) *General requirements.* Condition of soil, ground water level, drainage, topography shall not create hazards to the property or the health and safety of the occupants. The site should not be exposed to objectionable smoke, noise, odors, or other adverse influences, and no portion subject to unpredictable or sudden flooding.

(2) *Area.* Minimum total mobile park area shall be ten acres.

(3) *Soil and ground cover requirements.* Exposed ground surfaces in all parts of every mobile home park shall be paved or covered with stone, screenings or other solid material, or protected with a grass that is capable of preventing soil erosion and of eliminating objectionable dust.

(4) *Site drainage requirements.* The ground surface in all parts of every mobile home park shall be graded and equipped to drain all surface water in a safe, efficient manner.

(5) *Use requirements.*

(a) No part of any park shall be used for non-residential purposes, except the uses that are required for the direct servicing and well being of park residents and for the management and maintenance of the park; and

(b) Nothing contained in this subchapter shall be deemed as prohibiting the sale of a mobile home located on a mobile home stand and connected to the pertinent utilities.

(6) *Required separation between mobile homes.*

(a) Mobile homes shall be separated from each other and from other buildings and structures by at least 15 feet. Mobile homes placed end-to-end must have minimum clearance of 15 feet;

(b) An accessory structure such as an awning, cabana, storage cabinet, carport, windbreak, and porch which has an opaque top or roof, shall, for purposes of all separation requirements, be considered to be part of the mobile home; and

(c) Minimum lot sizes shall not be less than 5,000 square feet.

(7) *Open space.* A minimum of 500 square feet per mobile home shall be provided for definable play areas and open space within the mobile home park. The areas of open space and play area shall not be areas included within any setback nor shall they include any areas of less than 20 feet in length or width.

(8) *Required setbacks, buffer strips and screenings.*

(a) All mobile homes shall be located at least 30 feet from any property boundary line abutting upon a public street or highway and at least 30 feet from other property boundary lines;

(b) There shall be a minimum distance of 25 feet between the mobile home stand and abutting park street; and

(c) All mobile home parks located adjacent to residential, recreational, commercial or industrial land uses shall provide screening such as fences, shrubs, trees, along the property boundary line separating the park and the uses, and shall be maintained by state license holder in a neat and orderly manner.

(9) *Cluster development.* Cluster development shall be encouraged; in these cases the Planning Commission and Council may vary or modify the strict application and requirements of divisions (E)(6), (7) and (8) above, as applied herein to more readily accommodate this development concept.

(10) *Maximum density.* Notwithstanding the type of development concept used, the maximum density shall be six mobile homes per acre.

(11) *Storage buildings.*

(a) One storage building for storage of equipment and refuse is permitted by occupant; and

(b) The storage buildings shall be designed of weather resistance material that will enhance the general appearance of the lot.

(F) *Park street system and car parking.*

(1) *General requirements.* All mobile home parks shall be provided with safe and convenient vehicular access from abutting public streets or roads to each mobile home lot.

(2) *Internal streets.* Surfaced roadways shall be of adequate width to accommodate anticipated traffic, and in any case shall meet the following requirements:

(a) All park streets shall be a minimum of 30 feet in width from face of curb to face of curb. Streets without curb shall be considered minor streets.

(b) Minor streets shall be a minimum of 18 feet in width and limited in length to 500 feet.

(c) Dead-end streets shall be provided at the closed end with a reasonable turning area. All dead-end streets shall be marked with approved signs at the entrance.

(3) *Car parking.* Off-street parking areas for the use of park occupants and guests. The areas shall be furnished at a rate of at least two car spaces for each mobile home lot, of which at least ½ of the spaces may be in compounds. Driveways and parking lots shall be paved concrete or bituminous surface. At least one space will be provided on driveway.

(4) *Required illumination of park street systems.* All parks shall be furnished with lighting units so spaced and equipped with luminaries placed at the mounting heights as will provide average levels of illumination.

(5) *Street construction and design standards.*

(a) *Pavements.* All park streets shall be provided with a paved concrete or bituminous surface.

(b) *Intersections.* Within 50 feet of an intersection, streets shall be at right angles.

(G) *Walks.* All mobile home stands shall be provided with safe, convenient, all-season pedestrian access of adequate width for indented use.

(H) *Trees.* A minimum of one tree per lot is required. In open area and park area, a minimum of 20 trees per acre is required.

(I) *Skirts.* All mobile homes shall have skirts around the entire mobile home made of metal, plastic, fiberglass or comparable, non-combustible material approved by the Building Inspector and shall be painted to match the appropriate mobile home so that it will enhance the general appearance thereof.

(J) *Water and sewage.* All mobile homes shall be serviced by the city water system, or a water system approved by the city, and by the city sanitary sewer system.

(K) *Refuse handling.* The storage, collection and disposal of refuse in the mobile home park shall be so conducted as to create no health hazards, rodent harborage, insect breeding, accident or fire hazards or air pollution, according to city regulations.

(L) *Fire protection.*

(1) *Litter, rubbish, and the like.* Mobile home parks shall be kept free of litter, rubbish and other inflammable material, and state license holder shall be held liable.

(2) *Fire extinguishers.* Portable fire extinguishers rated for Classes A, B and C fires shall be kept visible in service buildings and at other locations conveniently and readily accessible for use by all of the occupants and shall be maintained in good operating condition. Their capacity shall not be less than ten pounds.

(3) *Fires.* Fires shall be made only in stoves, indoor approved incinerators, and other equipment intended for those purposes.

(4) *Hydrants.* Fire hydrants shall be installed.

(a) The water supply system shall permit the operation of standard city fire hydrants; and

(b) Fire hydrants shall be located within 300 feet of any mobile home, service building or other structure in the park.

(M) *Responsibilities of the park management.*

(1) The person to whom a license for a mobile home park is issued shall operate the park in compliance with this chapter and shall provide adequate supervision to maintain the park, its facilities and equipment in good repair and in a clean and sanitary condition.

(2) The park management shall notify park occupants of all applicable provisions of this chapter and inform them of their duties and responsibilities under this chapter.

(3) It shall be the duty of the operator of the mobile home park to keep a register containing a record of all mobile home owners and occupants located within the park. The register shall contain the following information: The name and address of each mobile home occupant, the name and address of the owner of each mobile home and motor vehicle by which it is towed; the make, model, year and license number of each mobile home and motor vehicle, the state, territory or country issuing the license; and the date of arrival and departure of each mobile home.

(4) The park shall keep the register available for inspection at all times by law enforcement officers, public health officers, and other officials whose duty necessitates acquisition of the information in the register. The register record for each occupant registered shall not be destroyed for a period of three years of the registrant from the park. ('83 Code, SEC. 11.70, Subd. 21)

SEC. 152.174 OFF-STREET PARKING.

(A) *Location.* All accessory off-street parking facilities required herein shall be located as follows:

(1) Spaces accessory to one and two-family dwellings on the same lot as the principal use served.

(2) Spaces accessory to the multiple family dwellings on the same lot as the principal use served or within 200 feet of the main entrance to the principal building served.

(3) Spaces accessory to uses located in a business, within 800 feet of a main entrance to the principal building served.

(4) There shall be no off-street parking space within five feet of any street right-of-way.

(5) No off-street open parking area containing more than four parking spaces shall be

located closer than five feet from an adjacent lot zoned or used for residential purposes.

(B) *General provisions.*

(1) Access drives may be placed adjacent to property lines except that drives consisting of crushed rock, or other non-finished surfacing shall be no closer than five feet to any side or rear lot line.

(2) Each parking space shall not be less than nine feet wide and 20 feet in length.

(3) When required, accessory off-street parking facilities are provided elsewhere than on the lot in which the principal use served is located, they shall be in the same ownership or control, either by deed or long-term lease, as the property occupied by the principal use, and the owner of the principal use shall file a recordable document with the Council requiring the owner and his or her heirs and assigns to maintain the required number of off-street spaces during the existence of said principal use.

(4) Required off-street parking space in any district shall not be utilized for open storage of goods or for the storage of vehicles which are inoperable or for sale or rent.

(5) Parking shall not be allowed in areas not designated for off-street parking.

(C) *Design and maintenance of off-street parking areas.*

(1) *Access.* Parking areas shall be designed so as to provide adequate means of access to a public alley or street. The driveway access shall not exceed 30 feet in width and shall be so located as to cause the least interference with traffic movement.

(2) *Curbing and landscaping.* All open off-street parking areas designed to have head-in parking along the property line shall provide a bumper curb not less than five feet from the side property line or a guard of normal bumper height not less than three feet from the side property line. When said area is for six spaces or more, a curb or fence not over five feet in height shall be erected along the front yard setback line and grass or planting shall occupy the space between the sidewalk and curb or fence.

(3) *Parking space for six or more cars.* When a required off-street parking space for six cars or more is located adjacent to a residential district, a fence approved by the Building Official shall be erected along the residential district property line.

(4) *Maintenance of off-street parking space.* It shall be the joint and several responsibility of the operator and owner of the principal use, uses and/or building to maintain, in a neat and adequate manner, the parking space, accessways, landscaping and required fences.

(5) *Determination of areas.* A parking space shall not be less than 300 square feet per vehicle of standing and maneuvering area.

(D) *Other parking in residential areas.* Parking in residential areas (off-street and on-street) shall be limited to the use of the residents of those homes. Except for short-term parking (eight hours or less), guest parking, and vehicles parked in a garage or carport, the number of vehicles parked on or in front of a residential lot shall not exceed one greater than the number of persons residing on the premises and having automobile driver's licenses.

(E) *Off-street spaces required (one space equals 300 square feet).*

(1) *One and two-family residences.* Two spaces per dwelling unit.

(2) *Multiple dwellings.* One and one-half spaces per dwelling unit.

(3) *Business and professional offices.* One space for each 200 square feet of gross floor space.

(4) *Medical and dental clinics.* Five spaces for doctor or dentist, plus one space for

each employee.

(5) *Hospitals and sanitoriums*. At least one parking space for each three hospital beds, plus one space for each four employees, other than doctors, plus one parking space for each resident and regular staff doctor.

(6) *Educational institutions*.

(a) *Pre-schools and elementary schools*. One space for each two employees.

(b) *Junior and senior high schools*. One space for each two faculty and full-time employees plus one space for each seven students.

(c) *Colleges and universities*. Same as for high school except one space for each five students.

(d) *Auditoriums, stadiums*. One space for each six seats.

(7) *Drive-in food establishments*. One space for each 15 square feet of gross floor space in building allocated to drive-in operation.

(8) *Bowling alley*. Six spaces for each alley, plus additional spaces as may be required herein for related uses such as a restaurant.

(9) *Automobile service station*. At least two off-street parking spaces plus four off-street parking spaces for each service stall.

(10) *Hotel or motel*. One space per rental unit plus one space per full-time employee.

(11) *Retail store*. At least one off-street parking space for each 250 square feet of gross floor area.

(12) *Restaurants, cafes, bars, taverns, night clubs*. At least one space for each three seats based on capacity design.

(13) *Undertaking establishments*. Eight spaces for each chapel or parlor, plus one space for each funeral vehicle maintained on the premises. Aisle space shall also be provided off the street for making up a funeral procession.

(14) *Industrial, warehouse, storage, handling of bulk goods*. At least one space for each employee on maximum shift or one space for each 2,000 square feet of gross floor area, whichever is larger.

(15) *Churches, chapels, temples, synagogues*. One parking space for each six seats.

(16) *Uses not specifically noted*. As determined by the Council following review by the Planning Commission.

(F) *Off-street loading and unloading areas*.

(1) *Location*. All required loading berths shall be off-street and shall be located on the same lot as the building or use to be served. A loading berth shall be located at least 25 feet from the intersection of two street rights-of-way and at least 50 feet from a residential district unless within a building. Loading berths shall not occupy the required front yard space.

(2) *Size*. Unless otherwise specified in this chapter, a required loading berth shall be not less than 12 feet in width, 50 feet in length and 14 feet in height, exclusive of aisle and maneuvering space. (Ord. 537, effective 7-1-83)

(3) *Required loading spaces*. Determined by the Building Official. (Ord. 42, 2nd Series, effective 4-23-87)

(4) *Access*. Each required loading berth shall be located with appropriate means of

vehicular access to a street or public alley in a manner which will least interfere with traffic.

(5) *Surfacing.* All loading berths and accessways shall be improved with a durable material to control the dust and drainage.

(6) *Accessory use.* Any space allocated as a loading berth or maneuvering area so as to comply with the terms of this chapter shall not be used for the storage of goods, inoperable vehicles or be included as a part of the space requirements necessary to meet the off-street parking area.

(7) In connection with any structure which is to be erected or substantially altered, and which requires the receipt or distribution of materials or merchandise by trucks or similar vehicles, there shall be provided off-street loading space.

(8) Where noise from loading or unloading activity is audible in a residential district, the activity shall terminate between the hours of 7:00 p.m. and 7:00 a.m. ('83 Code, SEC. 11.70, Subd. 22)

SEC. 152.175 AUTO SERVICE STATION STANDARDS.

(A) *Lot size.* A service station site shall be a minimum of 20,000 square feet in size.

(B) *Setbacks.* The building or buildings shall be set back at least 35 feet from the street right-of-way. Near residential districts, the service station buildings, signs, and pumps shall be a minimum of 25 feet from adjoining property. In commercial areas, the structures shall be set back at least ten feet from adjoining property.

(C) *Curbs and gutters.* Curbs and gutters shall be installed on all streets giving access to the station. There shall be a six inch curb along all interior driveways.

(D) *Fencing and screening.* When adjacent to residential property, there shall be a screening fence. When adjacent to commercial property, there shall be a bumper-type fence about 18 inches high between the station and the adjacent commercial property.

(E) *Vehicles.* No vehicles shall be parked on the premises other than those utilized by employees or awaiting service. No vehicle shall be parked or be waiting service longer than 15 days.

(F) *Exterior storage.* Exterior storage besides vehicles shall be limited to service equipment and items offered for sale. Exterior storage of items offered for sale shall be within yard setback and shall be located in containers such as the racks, metal trays, and similar structures designed to display merchandise.

(G) *Screening.* All areas utilized for the storage or disposal of trash, debris, discarded parts, and similar items shall be fully screened. All structures and grounds shall be maintained in orderly, clean and safe manner.

(H) *Architecture.* The station shall be of a design that is compatible with the surroundings.

(I) *Outdoor displays.* The storage of used tires, batteries, and other items for sale outside the building shall be controlled; the items shall be displayed in specially designed containers and be limited to one or two areas well back from the right-of-way street line. Junk cars, empty cans, and other unsightly material will not be permitted in an area subject to public view.

(J) *Other activities.*

(1) Business activities not listed in the definition of service stations and not incidental to the business in this chapter are not permitted on the premises of a service station unless a conditional use permit is obtained specifically for the business. The activities include, but are not

limited to, the following:

- (a) Automatic car and truck wash;
- (b) Rental of vehicles, equipment, or trailers; and
- (c) General retail sales.

(2) Gas pumps located at and a part of other types of business establishments shall require a conditional use permit. ('83 Code, SEC. 11.70, Subd. 23) Penalty, see 152.999

SEC. 152.176 DRIVE-IN BUSINESS STANDARDS.

The following standards shall apply to drive-in businesses in all districts.

(A) *Drainage system.* The entire area of any drive-in business shall have a drainage system approved by the City Engineer.

(B) *Surface.* The entire area other than that occupied by structures or planting shall be surfaced with a hard surface material which will control dust and drainage.

(C) *Fence or screen.* A fence or screen of acceptable design not over six feet in height or less than four feet shall be constructed along the property line abutting a residential district and the fence or screen shall be adequately maintained.

(D) *General.*

(1) Any drive-in business serving food or beverages may also provide, in addition to vehicular service areas, indoor food and beverage service seating area.

(2) The hours of operation shall be set forth as a condition of any building permit for drive-in business.

(3) Each drive-in business serving food may have outside seating.

(4) Each food or beverage drive-in business shall place refuse receptacles at all exits as well as one refuse receptacle per ten vehicle parking spaces within the parking area.

(E) *Locations.*

(1) No drive-in business serving food or beverage shall be located within 100 feet of a public or parochial school, church or any residential dwelling unit.

(2) No drive-in shall be located on any street other than one designated as a thoroughfare or business service road in the Comprehensive Plan.

(F) *Site plan.*

(1) The site plan shall clearly indicate suitable storage containers for all waste material. All commercial refuse containers shall be screened.

(2) A landscaping plan shall be included and shall set forth complete specifications for plant materials and other features.

(3) Adequate area shall be designated for snow storage so that clear visibility shall be maintained from the property to any public street.

(4) The design of any structure shall be compatible with other structures in the surrounding area.

(5) Electronic devices such as loudspeakers, automobile service order devices, drive-in theater car speakers and similar instruments shall not be located within 300 feet of any residential unit.

(6) No service shall be rendered, deliveries made, or sales conducted within the required front yard; customers served in vehicles shall be parked to the sides and/or rear of the principal structure.

(7) No access drive shall be within 50 feet of intersecting street curb lines.

(8) In the case of a drive-in theater, a solid fence not less than eight feet in height and extending at least to within two feet of the ground shall be constructed around the property.

(9) The lighting shall be designed so as to have no direct source of light visible from the public right-of-way or adjacent land in residential use.

(‘83 Code, SEC. 11.70, Subd. 24) (Ord. 537, effective 7-1-83)

SEC. 152.177 SIGNS.

(A) *Purpose.* The purpose of this section is to provide for necessary visual communication, to preserve and promote a pleasant physical environment, to protect public and private property, and to encourage safety upon the streets and highways within the city for regulating the structure, size, location, height, lighting, and the erection and maintenance of all outdoor signs and sign structures within the city.

(B) *Signs requiring no permit.* The following signs are authorized everywhere within the city and shall not require a permit for their erection or maintenance:

(1) Public signs.

(2) Memorial signs.

(3) Real estate signs.

(C) *Prohibited signs.* It is unlawful for any person to erect or maintain any sign which is prohibited or is not specifically authorized under this section including, but not limited to:

(1) Signs that, by reason of position, shape, color, or illumination would interfere with the proper function of traffic signs or signals.

(2) Signs that resemble any official marker erected by a governmental agency or that display the words as “Stop” or “Danger” and are not placed by a governmental agency or its agent.

(3) Flashing signs, except those showing reasonably accurate time and temperature only.

(4) Billboard signs. (Ord. 85, 2nd Series, effective 7-17-93)

(5) Advertising signs, except where specifically authorized under this section. (Ord. 93, 2nd Series, effective 9-17-94)

(6) Off-premise signs.

(7) Roof signs.

(8) Projecting signs. (Ord. 85, 2nd Series, effective 7-17-93)

(9) Portable signs, except where specifically authorized under this section. (Ord. 93, 2nd Series, effective 9-17-94)

(10) Temporary signs.

(D) *Historic District.*

(1) *Authorized signs.* The following signs are authorized in the Historic District and

require a permit for their erection or maintenance:

- (a) Awning signs that are identification signs.
- (b) Marquee signs that are identification signs.
- (c) Wall signs that are identification signs. (Ord. 85, 2nd Series, effective 7-17-93)

(2) *Performance standards.*

(a) *Size and location.* Maximum sign surface height shall be 36 inches and sign length shall be limited to 50% of the associated building face. (Ord. 90, 2nd Series, effective 5-14-94)

(b) *Materials.* Materials used for the sign structure should have a reasonable degree of consistency and reflect a sense of concern for the visual amenities within the Historic District, yet encourage creativity and opportunity for effective communication.

(c) *Design review.* Signs requiring a permit may be submitted to the Planning Commission, the Crookston 2000 Design Team, or other appropriate group for review and comment. Permits may be withheld until sign plans are consistent with design review recommendations.

(E) *Residential Districts (R-1, R-2, and R-3).*

(1) *Authorized signs.* The following signs are authorized in the R-1, R-2, and R-3 Zoning Districts and require a permit for their erection or maintenance:

- (a) Home occupation signs that are either wall signs or grounds signs.
- (b) Identification signs that are ground signs.

(2) *Performance standards.* Ground signs shall have a maximum height of three feet and an area of 2 ½ feet for home occupation signs and a maximum height of nine feet and an area of 25 feet for identification signs and both types of signs must be set back from property lines at least ten feet.

(F) *Central Business District (C-1).*

(1) *Authorized signs.* The following signs are authorized in that portion of the C-1 Zoning District which is not within the Historic District and require a permit for their erection or maintenance:

- (a) Awning signs.
- (b) Marquee signs.
- (c) Wall signs.
- (d) Ground signs.
- (e) Pole signs.

(2) *Performance standards.*

(a) *Size and location.* Requirements for wall signs shall be the same as for the Historic District. Ground signs may be placed on parcels having minimum public street frontage of 100 feet and minimum building set back of 25 feet. Ground signs shall have maximum sign area of 50 square feet and height of nine feet.

(b) *Pole signs.* Pole signs may be considered only when because of obstruction of sight lines or for other reasons a ground sign is not feasible. If allowed, pole signs shall have a maximum sign area of 50 square feet and height of ten feet above street level to bottom of sign.

(G) *Highway Business District (C-2), Shopping Center District (C-3), Heavy Industry District (I-1), Light Industry District (I-2), and Institutional District (IN).*

(1) The following signs are authorized in the C-2, C-3, I-1, I-2 and IN Zoning Districts and a permit is required for their erection or maintenance:

- (a) Awning signs.
- (b) Marquee signs.
- (c) Wall signs.
- (d) Ground signs.
- (e) Pole signs. (Ord. 85, 2nd Series, effective 7-17-93)

(f) Portable signs that are advertising signs located on the premises to which they have reference. (Ord. 93, 2nd Series, effective 9-17-94)

(2) Performance standards.

(a) *Size and location.* Requirements for wall signs shall be the same as for the Historic District, except maximum sign surface height shall be one-third of building height. Requirements for ground and pole signs are as follows:

<i>Speed Zone</i>	<i>Setback from Center of Right-of-Way</i>	<i>Max. Sq. ft.</i>	<i>Max. Height (in ft.) Ground Sign</i>	<i>Height Pole</i>
30	100 ft. or less	75	9	min. 10; max. 20
30	more than 100 ft.	100	9	min. 10; max. 20
45	100 ft. or less	100	9	min. 12; max. 25
45	more than 100 ft.	125	11	min. 12; max. 25
55	100 ft. or less	125	11	min. 12; max. 30
55	more than 100 ft.	150	11	min. 12; max. 30

(Ord. 85, 2nd Series, effective 7-17-93)

(b) *Number.* Wall signs are limited to one per building face. Only one ground sign or pole sign will be allowed per business or lot, except that a total of two ground or pole signs will be allowed if the lot involved has at least 200 lineal feet of frontage. (Ord. 90, 2nd Series, effective 5-14-94)

(c) *Portable signs.* Portable signs may be permitted for each special event for up to 15 continuous days for a grand opening and up to seven continuous days for other special events, including, but not limited to, open houses and special sales. The sign placement dates will be stated on the permit. Applicants are limited to ten portable sign permits per calendar year. It is unlawful for the applicant to which a portable sign permit is issued to maintain or fail to

remove a portable sign after the permit time has expired. (Ord. 93, 2nd Series, effective 9-17-94)

(H) *Farm residence district (FR)*. Except for signs which are otherwise authorized, any signs erected or maintained in the FR Zoning District must have a conditional use permit for the erection and maintenance.

(I) *Nonconforming signs*.

(1) *Continued*. An existing sign which is lawful at the time of the adoption of a relevant part of this section may be continued, even if the sign does not conform to the regulations of this section, except as provided below.

(2) *Extension*. A nonconforming sign may not be enlarged or changed so as to increase its nonconformity.

(3) *Relocation*. A nonconforming sign may not be moved unless it then conforms to the requirements of this section.

(4) *Vacation/change of ownership*. If the premises upon which a nonconforming sign is located is abandoned or vacated or if the ownership of the premises or nonconforming sign changes, the nonconforming sign must be removed or brought into full compliance with this section.

(5) *Repairs/maintenance*. Normal maintenance of a nonconforming sign is authorized and required, including necessary non-structural repairs and incidental alterations which do not extend or intensify the nonconformity. Repairs costing in excess of 50% of the nonconforming sign's replacement cost are not authorized. Any improvements to the parcel of land to which a nonconforming sign relates which cost over \$10,000 or more than 50% of the market value of the existing improvements thereon shall require that the nonconforming sign is removed or brought into compliance with this section.

(6) *Inspection*. The enforcing officer may make inspections of all nonconforming signs and may enter upon or in the premises at reasonable hours for inspection purposes.

(J) *Maintenance/inspection*. All signs must be properly maintained so as to remain legible and free of peeling paint and loose or missing components. No sign shall be misleading to the public, such as, for example, a sign referring to a business which is no longer on the premises. The enforcing officer may make inspections of all signs and may enter upon or in the premises at reasonable hours for inspection purposes.

(K) *Abatement.* If the enforcing officer finds that any sign has been erected or is being maintained in violation of this section or that any sign is inadequately maintained or presents a safety hazard, the enforcing officer will give written notice of the violation to the installer of the sign and to the owner or manager of the property upon which the sign exists. If, after receiving notice, the sign is not removed or altered as required, the sign shall be deemed a public health or safety hazard and may be abated by the city under SEC. 94.01 of the city code. (Ord. 85, 2nd Series, effective 7-17-93)
(‘83 Code, SEC. 11.70, Subd. 25) Penalty, see 152.999

SEC. 152.178 HOME OCCUPATIONS.

(A) *Definition.* A **HOME OCCUPATION** is any gainful occupation or profession engaged in by the occupant of a dwelling at or from the dwelling when carried on within a dwelling unit or accessory structure.

(B) *General Regulations.* Customary home occupations shall be allowed in the R-1, R-2 and R-3 Districts if they meet the following conditions:

- (1) Not more than 25% of the gross floor area of the residence is used for this purpose.
- (2) Only articles made or originating on the premises shall be sold on the premises, unless the articles are incidental to a permitted commercial service.
- (3) No articles for sale shall be displayed so as to be visible from any street.
- (4) No person is employed other than a member of the household residing on the premises.
- (5) No mechanical or electrical equipment is used if the operation of the equipment interferes unreasonably with the desired quiet residential environment of the neighborhood and the health and safety of the residents is endangered.
- (6) The occupation does not generate more than two customer/client vehicles at one time.
- (7) The occupation must provide off-street parking for vehicles generated by the occupation.
- (8) A person having a home occupation shall provide proof of meeting the above seven requirements if complaints are received by the Council.
(‘83 Code, SEC. 11.70, Subd. 26) Penalty, see 152.999

SEC. 152.179 MANUFACTURED HOMES.

Manufactured homes shall be permitted in the R-1, R-2 and R-3 Districts, provided they meet the following minimum standards:

- (A) Exceeds 24 feet in width.
- (B) Has a minimum floor area of 800 square feet.
- (C) The dwelling is placed on a permanent foundation.
- (D) All other requirements of law and city code provisions are met.
(‘83 Code, SEC. 11.70, Subd. 27) (Ord. 537, effective 7-1-83)

SEC. 152.180 SATELLITE DISH ANTENNAS.

Satellite dish antennas shall meet the following minimum standards:

(A) No satellite dish antenna or portion thereof shall be constructed:

- (1) In any front yard or within that portion of any side yard which is forward of the front line extended of any existing building upon the lot or parcel involved;
- (2) Within the side yard or rear yard set back requirements for accessory structures;
- (3) Upon the roof of any residential dwelling for four or fewer families, private garage, or other structure accessory to the residential dwelling; or
- (4) To exceed the height of 35 feet or the top of the principal structure on the lot upon which it is located, whichever is less.

(B) Wiring between the satellite dish antenna and a receiver shall be placed at least eight inches beneath the surface of the ground.

(C) Satellite dish antennas shall be bonded to a grounding rod and shall be designed to withstand a wind force as required by the building code.

(D) Satellite dish antennas which are mounted on the roof of a building or structure must be approved by a registered engineer or architect. (Ord. 27, 2nd Series, effective 3-20-86) ('83 Code, SEC. 11.70, Subd. 28) Penalty, see 152.999

SEC. 152.181 BED AND BREAKFAST INNS.

Bed and breakfast inns shall meet the following minimum standards:

(A) Employees shall be limited to the following:

- (1) Members of the household residing on the premises; and
- (2) One person in a part-time capacity.

(B) Signs must comply with the sign requirements for home occupations.

(C) On-site, off-street parking must be provided as follows:

- (1) One space for each lodging room; and
- (2) One space for the owner.

(D) The establishment must comply with State of Minnesota Health and Building/Fire Code requirements. (Ord. 37, 2nd Series, effective 9-16-86) ('83 Code, SEC. 11.70, Subd. 29) Penalty, see 152.999

ADMINISTRATION AND ENFORCEMENT

SEC. 152.195 ENFORCING OFFICER.

The Zoning Administrator and/or Building Official shall enforce this chapter and shall perform the following duties:

(A) Issue occupancy, building and other permits, and make and maintain records thereof.

(B) Conduct inspections of buildings and use of land to determine compliance with the terms of this chapter.

(C) Maintain permanent and current records of this chapter, including but not limited to, all maps, amendments, and conditional uses, variances, appeals and applications therefor.

(D) Receive, file and forward all applications for appeals, variances, conditional uses or

other matters to the designated official bodies.

(E) Notify the City Attorney of any violations of this chapter for appropriate action. ('83 Code, SEC. 11.15, Subd. 1)

SEC. 152.196 APPEALS AND BOARD OF ZONING APPEALS.

(A) A Board of Zoning Appeals is hereby established, which shall consist of the Council, vested with the administrative authority as hereinafter provided.

(B) The Board of Zoning Appeals shall act upon all questions as they may arise in the administration of this chapter, including the interpretation of zoning maps, and it shall hear and decide appeals from and review any order, requirement, decision, or determination made by the Zoning Administrator. The appeal may be taken by any person, firm, or corporation aggrieved or by any officer, department, board or bureau of the city. The Board of Zoning Appeals shall also have the power to grant variances to the provisions of this chapter under certain conditions indicated in SEC. 152.200 of this chapter. No use variances; a use different than that allowed in the zoning district, shall be issued by the Board of Zoning Appeals.

(C) Meetings by the Board of Zoning Appeals shall be held within the time and upon the notice to interested parties as is provided in this chapter and its adopted rules for the transaction of its business. The Board shall, within 60 days after receiving a request for a variance, refer the proposed variance to the Planning Commission for review and comment. After receiving the comments of the Planning Commission, the Board shall make its order deciding the matter, and shall serve a copy of the order upon the appellant or petitioner by mail. Any party may appear at the meeting in person or by agent or attorney. The Board of Zoning Appeals may reverse or affirm wholly or partially, or may modify the order, requirement, decision, or determination as in its opinion ought to be made and to that end shall have all the powers of the officer from whom the appeal was taken and may issue or direct the issuance of a permit. The reasons for the decision shall be stated and recorded. The decision of the Board shall not be final and any person having an interest affected by the decision shall have the right to appeal to District Court in the county in which the land is located on questions of law and fact. A vote of the majority of the Board of Zoning Appeals shall be necessary to reverse any decision of an administrative official of the city or to decide in favor of the applicant. ('83 Code, SEC. 11.15, Subd. 2)

SEC. 152.197 POWERS AND DUTIES OF PLANNING COMMISSION.

(A) The Planning Commission shall have all the powers and duties defined or granted in the statutes and the city code relating to planning, zoning and subdivision regulations and shall act in an advisory capacity to the Council in all of these areas. ('83 Code, SEC. 2.51, Subd. 2)

(B) The Planning Commission shall provide assistance to the Council and Zoning Administrator in the administration of this chapter and the recommendation of the Planning Commission shall be advisory in nature. Specifically, the Planning Commission shall review, hold public hearings, and make recommendations to the Council on all applications for zoning amendments, variances, and conditional use permits using the criteria in SEC. 152.198 through SEC. 152.200 of this chapter. ('83 Code, SEC. 11.15, Subd. 3)

SEC. 152.198 ZONING AMENDMENTS.

(A) *Criteria for granting zoning amendments.* The Council may adopt amendments to this chapter and the zoning map in relation both to land uses within a particular district or to the location of the district line. The amendments shall not be issued indiscriminately, but shall only be used as a means to reflect changes in the goals and policies of the city as reflected in the Comprehensive Plan or changes in conditions in the city.

(B) *Kinds of amendments.*

- (1) A change in a district's boundary (rezoning).
- (2) A change in a district's regulations.
- (3) A change in any other provision of this chapter.

(C) *Initiation of proceedings.* Proceedings for amending this chapter shall be initiated by at least one of the following three methods:

- (1) By petition of an owner or owners of property which is proposed to be rezoned, or for which district regulation changes are proposed.
- (2) By recommendation of the Planning Commission.
- (3) By action of the Council.

(D) *Required exhibits for rezoning or district regulation changes initiated by property owners.* The following exhibits shall be required unless waived by the Planning Commission or Zoning Administrator.

- (1) A plat map showing property owner's names and addresses within 350 feet of the outer boundaries of the property in question.
- (2) A boundary survey and preliminary building and site development plan.

(E) *Procedure.* The procedure for a property owner to initiate a rezoning or district regulation change applying to this property is as follows:

- (1) The property owner or his or her agent shall meet with the Zoning Administrator to explain his or her situation, learn the procedures, and obtain an application form.
- (2) The applicant shall file the completed application form together with the required exhibits with the Zoning Administrator and shall pay a filing fee as established by the Council.
- (3) The Zoning Administrator shall transmit the application and required exhibits to the Planning Commission and shall notify all property owners within the affected zone and within 350 feet of the outer boundaries of the property in question; however, failure of any property owner to receive the notification shall not invalidate the proceedings.
- (4) The Planning Commission shall set the date for a public hearing and shall have notices of the hearing published in the legal newspaper at least once, not less than ten days and not more than 30 days prior to said hearing. The Council may waive the mailed notice requirements for a city-wide amendment to this chapter initiated by the Planning Commission or Council.
- (5) The Planning Commission shall hold the public hearing and then shall recommend within 60 days, one of three actions: approval, denial or conditional approval.
- (6) The Planning Commission shall transmit its recommendations to the Council for its official action within 60 days after holding the public hearing.
- (7) The Council shall act upon the application within 60 days after receiving the recommendation of the Planning Commission.
- (8) No application of a property owner for an amendment to the text of this chapter or

the zoning map shall be considered by the Planning Commission within the one-year period following a denial of the request, except the Planning Commission may permit a new application, if in the opinion of the Planning Commission, new evidence or a change of circumstances warrant it.
(‘83 Code, SEC. 11.15, Subd. 4)

SEC. 152.199 CONDITIONAL USE PERMITS.

(A) *Criteria for granting conditional use permits.* In granting a conditional use permit, the Council shall consider the advice and recommendations of the Planning Commission and the effect of the proposed use on the Comprehensive Plan and upon the health, safety, and general welfare of occupants of surrounding lands. Among other things, the Council shall make the following findings where applicable.

- (1) The use will not create an excessive burden on existing parks, schools, streets and other public facilities and utilities which serve or are proposed to serve the area.
- (2) The use will be sufficiently compatible or separated by distance or screening from adjacent residentially zoned or used land so that existing homes will not be depreciated in value and there will be no deterrence to development of vacant land.
- (3) The structure and site shall have an appearance that will not have an adverse effect upon adjacent residential properties.
- (4) The use, in the opinion of the Council, is reasonably related to the overall needs of the city and to the existing land use.
- (5) The use is consistent with the purposes of this chapter and the purposes of the zoning district in which the applicant intends to locate the proposed use.
- (6) The use is not in conflict with the Comprehensive Plan of the city.
- (7) The use will not cause traffic hazard or congestion.
- (8) Adequate utilities, access roads, drainage and necessary facilities have been or will be provided.

(B) *Additional conditions.*

(1) In permitting a new conditional use or the alteration of an existing conditional use, the Council may impose, in addition to these standards and requirements expressly specified by this chapter, additional conditions which the Council considers necessary to protect the best interest of the surrounding area or the community as a whole. These conditions may include, but are not limited to, the following:

- (a) Increasing the required lot size or yard dimension.
- (b) Limiting the height, size or location of buildings.
- (c) Controlling the location and number of vehicle access points.
- (d) Increasing the street width.
- (e) Increasing the number of required off-street parking spaces.
- (f) Limiting the number, size, location or lighting of signs.

(g) Required diking, fencing, screening, landscaping or other facilities to protect adjacent or nearby property.

(h) Designating sites for open space.

(i) Establishing a time limit for the conditional use.

(2) The Zoning Administrator shall maintain a record of all conditional use permits issued including information on the use, location, and conditions imposed by the Council; time limits, review dates, and the other information as may be appropriate.

(C) *Required exhibits for conditional use permits.* The following exhibits shall be required unless waived by the Planning Commission or Zoning Administrator.

(1) A plat map showing property owner's names and addresses within 350 feet of the outer boundaries of the property in question.

(2) A boundary survey and preliminary building and site development plan.

(D) *Procedure.* The procedure for obtaining a conditional use permit is as follows:

(1) The property owner or his or her agent shall meet with the Zoning Administrator to explain his or her situation, learn the procedures and obtain an application form.

(2) The applicant shall file the completed application form together with the required exhibits with the Zoning Administrator and shall pay a filing fee as established by the Council.

(3) The Zoning Administrator shall transmit the application to the Planning Commission and shall notify all property owners within 350 feet of the outer boundaries of the property in question; however, failure of any property owner to receive the notification shall not invalidate the proceedings.

(4) The Zoning Administrator shall set the date for a public hearing and shall have notice of the hearing published at least once in the legal newspaper, not less than ten days and not more than 30 days prior to said hearing.

(5) The Planning Commission shall hold the public hearing and then shall study the application to determine possible adverse effects of the proposed special use and to determine what additional requirements may be necessary to reduce the adverse effects and recommend one of three actions: approval, denial, or conditional approval.

(6) The Planning Commission shall transmit, within 60 days, its recommendation to the Council for its official action.

(7) The Council shall take appropriate action on the request for a conditional use permit within 60 days of receiving the recommendations by the Planning Commission. If it grants the conditional use permit, the Council may impose conditions (including time limits) it considers necessary to protect the public health, safety and welfare and the conditions may include a time limit for the use to exist or operate.

(8) Where a conditional use permit has been issued pursuant to the provisions of this chapter, the permit shall become null and void without further action by the Planning Commission or the Council unless work thereon commences within one year of the date of granting the conditional use. A conditional use permit shall be deemed to authorize only one particular use and shall expire if that use shall cease for more than 12 consecutive months.

(9) In the event that the applicant violates any of the conditions set forth in this permit, the Council shall have the authority to revoke the conditional use permit.

('83 Code, SEC. 11.15, Subd. 5)

Note:

If a mobile home park is converted to another use requiring a variance or zoning change,

the Planning Commission must give notice of hearing to each occupant. See M.S. § 327C.095, as it may be amended from time to time.

SEC. 152.200 VARIANCES.

(A) *Criteria for granting variances.* A variance to the provisions of this chapter may be issued by the Board of Zoning Appeals to provide relief to the landowner in those cases where this chapter imposes undue hardship or practical difficulties to the property owner in the use of his or her land. No use variances may be issued. A variance may be granted only in the event that the following circumstances exist:

(1) Exceptional or extraordinary circumstances apply to the property which do not apply generally to other properties in the same zone or vicinity, and result from lot size or shape, topography, or other circumstances over which the owners of property since enactment of this chapter have had no control.

(2) The literal interpretation of the provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this chapter.

(3) That the special conditions or circumstances do not result from the actions of the applicant.

(4) That granting the variance requested will not confer on the applicant any special privilege that is denied by this chapter to owners of other lands, structures or buildings in the same district.

(5) That the variance requested is the minimum variance which would alleviate the hardship. Economic conditions alone shall not be considered a hardship.

(6) The variance would not be materially detrimental to the purposes of this chapter, or to other property in the same zone.

(7) The proposed variance will not impair an adequate supply of light and air to adjacent property, or substantially increase the congestion of the public streets, or increase the danger of fire, or endanger the public safety, or substantially diminish or impair property values within the neighborhood. The Board of Zoning Appeals may impose the restrictions and conditions upon the premises benefitted by a variance as may be necessary to comply with the standards established by this chapter, or to reduce or minimize the effect of the variance upon other properties in the neighborhood, and to better carry out the intent of the variance.

(B) *Required exhibits for variances.* The following exhibits shall be required unless waived by the Planning Commission or Zoning Administrator.

(1) A plat map showing property owner's names and addresses within 350 feet of the outer boundaries of the property in question.

(2) A boundary survey and preliminary building and site development plan.

(C) *Procedures.* The procedure for obtaining a variance from the regulations of this chapter are as follows:

(1) The property owner or his or her agent shall meet with the Zoning Administrator to explain his or her situation, learn the procedures and obtain an application form.

(2) The applicant shall file the completed application form together with the required exhibits with the Zoning Administrator and shall pay a filing fee as established by the Council.

(3) The Zoning Administrator shall transmit the application to the Board of Zoning Appeals and shall notify all property owners within 350 feet of the outer boundaries of the property in question; however, failure of any property owner to receive the notification shall not invalidate the proceedings.

(4) The Board shall transmit the application for a variance to the Planning Commission for review and comment. Within 30 days after receiving the application the Planning Commission shall submit its recommendations to the Board of Appeals.

(5) The Board shall study the application and recommendations of the Planning Commission and shall make a decision within 60 days, one of three actions: approval, denial or conditional approval.

(6) No application by a property owner for a variance shall be submitted to the Board of Zoning Appeals within a six-month period following a denial of such a request, except the Board of Zoning Appeals may permit a new application if, in the opinion of the Board of Zoning Appeals, new evidence or change of circumstances warrant it.

(7) The Board of Zoning Appeals may revoke a variance if any conditions established by the Board as part of granting the variance request are violated.
(‘83 Code, SEC. 11.15, Subd. 6)

SEC. 152.201 ENFORCEMENT PROVISIONS AND PROCEDURES.

(A) *Enforcing Officer.* It shall be the duty of the Zoning Administrator and/or Building Official to cause the provisions of this chapter to be properly enforced through the proper legal channels.

(B) *Building permit.* Applications for building permits shall be accompanied by the following exhibits unless waived by the Planning Commission:

(1) Plat map of an area including the property in question and 100 feet beyond its outer boundaries showing existing utilities, lot boundaries and dimensions, buildings, easements, foliage, and topography and waterways if pertinent. Soil tests may be included if pertinent.

(2) Preliminary building and site development plan showing building’s location, dimensional parking and loading arrangement, vehicular and pedestrian access and egress, surface drainage plan, landscaping, utility plan, screening, size and location of all signs, building floor plans of all floors, elevations of all sides of buildings, sections and outline material specifications as appropriate.

(C) *Procedure.*

(1) Persons requesting a building permit shall fill out a building permit form available from the Building Official.

(2) Completed building permit forms and a fee as may be established by resolution of the Council shall be submitted to the Building Official. If the proposed development conforms in all respects to this chapter, a building permit shall be issued by the Building Official within a period of 60 days.

(3) If the proposed development involves a zoning amendment, variance, or conditional use permit, the application, together with a building permit, shall be submitted either to the Planning Commission or Board of Zoning Appeals for review and appropriate action according to the procedures set forth in SEC. 152.198 through SEC. 152.200 of this chapter.

(D) *Violations*. Each day that a violation of this chapter is permitted to exist shall constitute a separate offense. Violation of any condition of a conditional use permit may result in immediate termination of the permit by the Council, following public hearing. Notice and public hearing of violations and termination proceedings on all non-conforming, any conditional, incompatible, accessory or special uses or home occupation uses, notice of hearing shall be given by the Council to the interested party or parties by certified mail or in lieu thereof by one legal published notice at least ten days before the hearing date, which notice shall be given by the Council within a reasonable time. (Ord. 537, effective 7-1-83)
(‘83 Code, SEC. 11.15, Subd. 7)

SEC. 152.999 PENALTY.

Every person violates a section, division, or provision of this chapter when he or she performs an act thereby prohibited or declared unlawful, or fails to act when the failure is thereby prohibited or declared unlawful, and upon conviction thereof, shall be punished as for a misdemeanor except as otherwise stated in specific provisions hereof. The penalty which may be imposed for any crime which is a misdemeanor under this code, including Minnesota Statutes specifically adopted by reference, shall be a sentence of not more than 90 days or a fine of not more than \$1,000, or both. The costs of prosecution may be added. A separate offense shall be deemed committed upon each day during which a violation occurs or continues.
(‘83 Code, SEC. 11.99) (Ord. 537, effective 7-1-83)

**APPENDIX: TABLE OF LOT AREA, WIDTH AND SETBACKS
FOR LAND USE DISTRICTS**

<i>Symbol</i>	<i>Use District</i>	<i>Lot Area</i>	<i>Lot Width</i>	<i>Front Yard Setback from Road Right-of-Way</i>	<i>Side Yard</i>	<i>Rear Yard</i>	<i>Height</i>
FR	Farm Residence	1 acre	200 feet	70 ft.- state highway 50 ft.- county road 25 ft.- city street	10 feet	50 feet	2½ stories, 35 ft. except for silos, grain, elev., etc.
R-1	Single-Family Residential	7,500 sq. ft.	70 feet	Same as FR District	5 feet	18 feet	2½ stories 35 ft.
R-2	One and Two Family Residential	6,000 sq. ft.	50 feet	Same as FR District	5 feet	18 feet	2½ stories 35 ft.
R-3	Multi-family Residential	7,500 sq. ft.	75 feet	Same as FR District	15 feet	35 feet	4 stories 40 ft.
C-1	Central Business District	No minimum	No minimum	10 ft.	50 ft. from Res. Dist.	15 feet	4 stories 45 ft.
C-2	Highway Commercial	No minimum	No minimum	130 ft.- state highway 110 ft.- county road 90 ft.- local street	a. 20 ft. b. 50 ft. from Res. District	a. 35 ft. b. 50 ft. from Res. Dist.	2½ stories 35 ft.
C-3	Shopping Center			70 ft.- state highway 50 ft.- county road 30 ft.- city street	a. 20 ft. b. 50 ft. from Res. District	a. 35 ft. b. 50 ft. from Res. Dist.	2½ stories 35 ft.
I-1	Heavy Industrial	40,000 sq. ft.	150 feet	Same as I-2 District	Same as I-2 District	Same as I-2 Dist.	3 stories 40 ft.
